

## HEALTH INFORMATION STANDARDS UPDATE – July 2020

# New Health Information Resources: Health Concerns and Diagnoses SNOMED Value Set and HIS COVID-19 Resource Site

Health Information Standards (HIS) COVID-19 Site includes:  
Provincial, Federal, International, Epidemiological and Scientific  
Resources

### Health Concerns and Diagnoses SNOMED Value Set

The B.C. Health Concerns and Diagnosis mapping to SNOMED-CT development is complete. This value set will provide consistent and standardized data in primary health care that can be shared across systems in machine-readable format.

This value set information will be published on [Provincial Health Information Standards web site](#) by end of this month.

### The HIS COVID-19 Site includes:

Provincial, Federal, International, Epidemiological and Scientific resources consolidated in one space to benefit the health sector in a standards-based way. Utilizing standards will help support the EMR vendor community, practitioners, researchers, and patients alike. For the duration of the pandemic, this list will be updated as new information becomes available.
