## **BIBLIOGRAPHY OF AIR QUALITY**

### **BRITISH COLUMBIA**

A bibliography of publications and reports related to meteorology and climatology in British Columbia has been compiled. The following pages list the titles, authors, year of publication and locations where the publication may be obtained. They are sorted and listed alphabetically by primary subject.

Locations are indicated by the following acronyms:

AES PACIFIC REGION (LIBRARY)	Atmospheric Environment Service, Vancouver, B.C.
BCMOE	B.C. Ministry of Environment, Victoria, B.C.
SFU LIBRARY	Simon Fraser University, Burnaby, B.C.
UBC LIBRARY	University of British Columbia Library, Vancouver, B.C.
UVIC LIBRARY	University of Victoria Library, Victoria, B.C.

The list has been printed from a Word 6.0 file which, in addition to the above, gives the publisher, preparing or sponsoring agency, library call letters and abstract. (The records are incomplete as much of the information was unavailable.)

The bibliography was prepared by searching computer catalogues of the universities and AES. As well, the American Meteorological Society meteorological abstracts on computer were searched for relevant titles. The searches were supplemented by inputting lists from BC Ministry of Environment and other sources.
