

GOVERNMENT LOSS REPORTING

Risk Management Branch and Government Security Office

Risk Management Branch and Government Security Office is the central government agency accountable for the effective management of risk to which the government is exposed to by virtue of its assets, programs and operations. Centralized reporting provides a true understanding of what numbers and types of losses or incidents are being encountered.

Loss reporting related to 'Workers' Compensation' or 'Fleet Vehicles' normally falls outside this format. If, however, a loss arises from a crime or threat-related incident, then reporting is appropriate as part of a follow-up security review (e.g. assault, robbery, vandalism, theft).

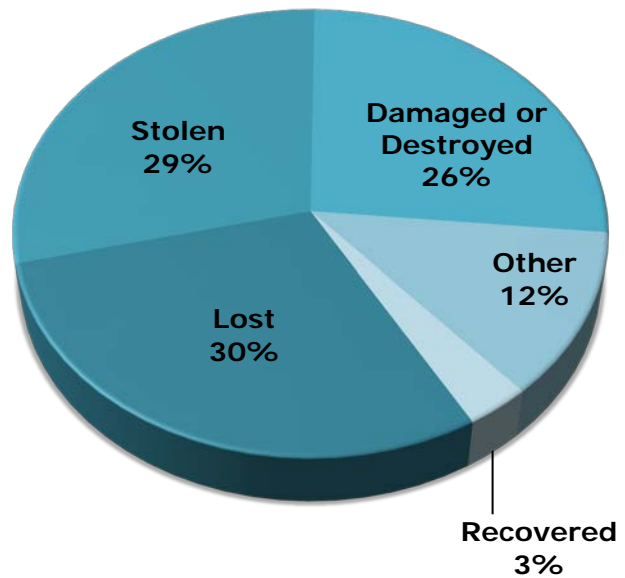

Note: over time, several overlapping variables have impacted reporting. For example:

- The number of ministries across government has been subject to change.
 - Some program areas have been realigned between ministries.
 - Policy has been revised to provide greater clarity and consistency for reporting.
 - A web-based tool was implemented to standardize and facilitate reporting.
 - There is additional emphasis now on the need to report some incident types (privacy breaches, threats of violence, fraud).
