Medical Services Commission

Notes to Financial Statement for the Year Ended March 31, 2013

Unaudited

1. The Commission

The Medical Services Commission was established July 1, 1968, by the Province of British Columbia under the *Medical Service Act* and Regulations.

The legal authority for the Medical Services Commission to administer and operate the Medical Services Plan (Plan) is the *Medicare Protection Act* and related Regulations.

Under Section 5(4) of the *Medicare Protection Act*, the *Financial Administration Act* applies to the Medical Services Commission as though it were a division of the Ministry of Health. The Plan premiums and expenditures are included within the Province's Consolidated Revenue Fund, Statement of Operations, which is audited annually by the Auditor General of British Columbia.

2. Significant Accounting Policies

The Statement of Operations is prepared for the purpose of presenting the expenditures of the Plan and contributions by subscribers and the Province.

The expenditures and contributions are recorded on an accrual basis.

The total expenditures shown in this financial statement are the same as the expenditures shown in the Public Accounts of the Province for the Medical Services Plan.

3. Expenditure

Service costs include payments for eligible services provided by medical practitioners, health care practitioners and diagnostic facilities on a fee for service or alternative contractual basis, and other recruitment, retention, training and planning initiatives with respect to physicians. Payments for these services and initiatives are in accordance with the *Medicare Protection Act* and agreements with professional associations and health authorities. The expenditures also include estimates of unprocessed claims for services performed in 2012/13.

Service costs do not include bad debt expense arising from the Plan premiums that could not be collected, commissions paid for collection of overdue accounts or administrative expenses. Bad debt expense and commissions paid are charged to the Province's Consolidated Revenue Fund, Vote 48 – Allowances for Doubtful Revenue Accounts and Vote 47 – Commissions on Collection of Public Funds. Administrative expenses incurred by the Plan are funded by the Ministry of Health.

4. Contributions

Premium Revenue represents the Plan premiums paid by subscribers. Premium Assistance represents the value of subsidy provided by the Province on behalf of eligible persons. General contributions represent the residual amount required by the Province to fully meet the expenditures of the Plan.

UNAUDITED SCHEDULE OF PAYMENTS BY THE MEDICAL SERVICES PLAN

The Schedule of Payments is published in compliance with the *Financial Information Act* and B.C. Regulation 371/93, and lists the gross payments made for the cost of insured services paid to each individual account of at least \$25,000 during the fiscal year ending March 31, 2013. All other accounts are shown as a consolidated total.

The information is presented in three categories:

1. Practitioners

Payments to Practitioners are reported alphabetically under the practitioner who performed the services, except when the practitioner is associated with a hospital, laboratory, or health authority. Payments include fee-for-service to residents of British Columbia and other jurisdictions, locums, Medical On-Call Availability Program, rural retention, recruitment and education programs, isolation allowance, and interest. The practitioner payments exclude benefit payments, which are reported under the BCMA. Payments made on behalf of the Insurance Corporation of British Columbia and WorkSafeBC are not included in the payment amount.

2. Organizations

Payments to Organizations are reported alphabetically by organization (health authority, hospital, group or clinic). The payments reflect the total amounts paid to a particular account.

3. Other Accounts

Other Accounts report payments to other provincial agencies, out-of-province payments, miscellaneous payments, account payments under \$25,000, adjustments (such as accruals), and reciprocal agreement recoveries.

Readers of this Schedule of Payments should understand that it provides only a record of gross payments. In some instances, the recorded figure is a payment for the services of a number of practitioners. Practitioners must pay the expenses of their practice out of this gross amount. No calculation of a practitioner's net income can be made from such figures. Conclusions cannot be drawn from these figures about the relative net income of any practitioner since overhead varies greatly from practitioner to practitioner.

The Chair and staff of the Medical Services Commission, and the applicable staff of the Medical Services and Health Human Resources Division are public servants. Details of employee salaries, wages, travel expenses and payments to suppliers for administrative services are included in the Public Accounts of the Province of British Columbia.
