

## 2021 PSO Climate Change Accountability Report

**Organization:** School District No 75 (Mission)

### Declaration Statement:

This Climate Change Accountability Report for the period January 1, 2021 to December 31, 2021 summarizes our greenhouse gas (GHG) emissions profile, the total offsets to reach net-zero emissions, the actions we have taken in 2021 to reduce our GHG emissions, and our plans to continue reducing emissions in 2022 and beyond.

### Emission Reductions: Actions & Plans

During 2021, the most significant action taken to reduce GHG emissions was the addition of an electric bus to the existing school district fleet. The school district hopes to be in a position to continue adding electric model buses to the fleet as diesel buses are retired. Looking forward to 2022 and beyond, several projects are expected to complete, and new projects expected to be initiated, that will further reduce GHG emissions:

- Air handler upgrade at Mission Secondary School
- Boiler and plumbing system upgrade at Stave Falls Elementary
- HVAC upgrades at West Heights, Albert McMahon and Christine Morrison Elementary schools
- Replacement of buses with electric models or more fuel-efficient models
- Electrical upgrades at various schools
