2.4 Effect of Extension of CSA Term on Orders

Any extension of the Term of the CSA will not affect the terms and conditions of any Order.

Article 3 – CORPORATE SUPPLY ARRANGEMENT – CLOSED FRAMEWORK

3.1 Corporate Supply Arrangement – Closed Framework - General

This CSA is an agreement between the Province and the CSA Holder governing the process and the terms and conditions upon which a Contractor will be engaged by a Purchaser through an Ordering Process, and, if successful, an Order, to provide the Services.

3.2 Purchasers

Any Service Request issued under this CSA will indicate the potential Purchaser. Purchasers may include any Ministry of the Province and any Public Sector Entity.

3.3 Verification of Purchasers

If the Purchaser is not a Ministry, the CSA Holder is responsible for checking the list of eligible Public Sector Entities or otherwise verifying that the entity issuing an Ordering Process is on the list of eligible Public Sector Entities before entering into an Order. If the CSA Holder is contacted pursuant to an Ordering Process by an entity other than an eligible Public Sector Entity, the CSA Holder will promptly notify the Province.

3.4 Orders

The CSA Holder agrees that:

- a. Orders may be formed only with Purchasers and only in accordance with the Ordering Process set out in section 3.6 below;
- b. despite section 12.19, the Province may modify any provisions in Appendix B at any time during the Term, by giving notice to the CSA Holder, whether or not verified received in the case of notice given by email, and the modified Appendix B will be effective the date indicated in the notice;
- c. the Purchaser will issue a Service Request by email in the form set out in Appendix B, as may be revised by a notice sent, further to section 3.5 below, to the email address set out for each CSA Holder in section 12.2 of this CSA;
- d. Orders will be on the terms and conditions set out in Appendix C – Order Terms and Conditions; and
- e. any Order will be between the CSA Holder and the Purchaser named in the Order only and not with the Province as a party or guarantor by reason of the Province being a party to this CSA.

3.5 Purchaser - Public Sector Entity

The CSA Holder acknowledges and agrees that:

- a. in a Service Request a Purchaser will have the option of modifying the terms and conditions set out in Appendix C to the extent necessary to address specific travel reimbursement and payment of account policies, insurance, privacy, confidentiality and security requirements, and any governmental authority directives binding the Public Sector Entity;
- b. if the CSA Holder accepts all terms and conditions as modified in the Service Request in accordance with subparagraph (a) above, the CSA Holder will sign and deliver the Service Request;
- c. if the CSA Holder does not accept all terms and conditions as modified in the Service Request in accordance with subparagraph (a) above, the CSA Holder will not sign and deliver the Service Request;
- d. each Public Sector Entity is solely responsible for complying with its obligations, including with respect to payment, in Order(s) between it and the Contractor; and
- e. nothing in this CSA or any resulting Order will impose any liability whatsoever on the Province in respect of any obligation of a Public Sector Entity to the Contractor, and the Province disclaims any and all liability in respect of any Order made by a Public Sector Entity.

3.6 **Ordering Process**

The CSA Holder agrees to the following call off Ordering Process:

- a. The Purchaser may, as and when required, issue a Service Request for the Services in its sole discretion in accordance with any one of the Call-Off options set out in Sections 3.7 and 3.8. The choice of call-off option is at the Purchaser's sole discretion.
- b. An Order resulting from a Service Request will terminate:
 - i. on the date indicated on the Order; or
 - ii. when otherwise cancelled or terminated by the Purchaser.
- c. Neither this Agreement, nor a Service Request, nor an Order, operates as a permit, license, approval or other statutory authority which the CSA Holder may be required to obtain from the Province or any of its agencies in order to provide the Services. Nothing in this Agreement, or in a Service Request, is to be construed as interfering with the exercise by the Province or its agencies of any statutory power or duty.
- d. Any Order, or modification to it, contemplated by this Agreement, to be effective, must be confirmed in writing by the Parties and delivered to each of them by any means provided for in section 12.2.
- e. The Purchaser may, in its sole discretion, cancel an Order. If the Purchaser cancels an Order, the Purchaser will pay to the CSA Holder according to the terms and conditions of Schedule 1 – Statements of Account.

3.7 **Selective Criteria Service Requests**

The Purchaser may identify specific areas of expertise, skills, background or experience, or physical location or availability, as "specific requirements" for a particular Service Request and follow the selective criteria ordering process set out below:

- a. The Purchaser will review each CSA for the applicable Services and identify the CSA Holder it thinks best meets the specific requirements needed for the Service Request.
- b. The Purchaser will issue a Service Request to the applicable CSA Holder identified pursuant to 3.7(a) above.
- c. The CSA Holder will respond to the Service Request within 24 hours or within the timeframe set out in the Service Request, indicating whether the CSA Holder has the capacity to accept the Service Request.

- d. If the CSA Holder does not respond to the Service Request within the timeframe required, then it will have waived its right to provide Services under the Service Request and the Purchaser will repeat the process in Section 3.7(a) and (b) above as applicable and this process will continue until a CSA Holder accepts the Service Request.
- e. If no CSA Holder accepts a Service Request, the Purchaser may, in its sole discretion, procure the Service by any other means, including use of other agreements, or by other procurement or contracting methods.
- f. If the CSA Holder accepts the Service Request within the relevant timeframe, the Purchaser will countersign the Service Request, and enter into an Order with that CSA Holder and the Services will be delivered on the terms and conditions and at the pricing set out in the Order.

3.8 Competitive Service Requests

For Service Requests where the Purchaser needs to or desires to solicit and evaluate additional information relating to approach, additional qualifications or additional criteria, the Purchaser may engage in a competitive process based on the following steps.

- a. The Purchaser will draft a Service Request setting out the requirements and evaluated criteria for the Competitive Service Request (which may include approach, qualifications, disbursement pricing, and other criteria).
 - b. The Purchaser will send the Service Request to all CSA Holders who provide the Services.
 - c. Interested CSA Holders may respond to the Service Request by the date set out in the Service Request using the format prescribed in Appendix B.
 - d. The Purchaser will evaluate Responses according to the criteria set out in the Service Request.
 - e. The highest scoring CSA Holder will be awarded the opportunity set out in the Service Request.
- 3.9 Once the CSA Holder has been confirmed under any of the above call-off options, the Purchaser may choose to provide a draft Order for the Services to the CSA Holder in the form set out in Appendix C.
- 3.10 Regardless of the Call-Off Process option the Purchaser chooses, the Purchaser reserves the right to contract directly with the same CSA Holder for additional work so long as that work does not result in a conflict of interest.

3.11 Scope of Order not to Exceed this CSA

Nothing in this CSA is to be construed as permitting any Services to be included in an Order with the CSA Holder that would exceed the scope of the Services as described in Part 1 of Appendix A.

3.12 No Guarantee

The CSA Holder further acknowledges and agrees that:

- a. this CSA does not oblige the Province or any individual Purchaser to engage in any Ordering Process or to issue any Order;
- b. the Province makes no representation, warranty or condition as to the nature, timing, quality or volume of Orders that may result from this CSA;
- c. no obligation of exclusivity is imposed on the Province by this CSA, and the Province reserves the right to procure the Services by any other means, including the use of other corporate services arrangements, or by other procurement or contracting methods;
- d. the Public Sector Entities will not be under any obligation to use this CSA, and may procure the Services by any other means, including other procurement or contracting methods;
- e. the liability of a Purchaser will be limited to that which arises from an Order; and

- f. the Province reserves the right to set aside this CSA, for whatever reason, and not make it available for any Ordering Process or Order.

Appendix A – Services

To issue a Service Request against this CSA, Purchasers must be a Ministry or have the legal capacity to contract and be on the Province’s list of eligible Public Sector Entities.

In this Appendix,

"Emergency Support Services or ESS" is a locally delivered volunteer program to support immediate needs of evacuees during the response phase of an emergency.

"Recovery Operations Centre" means an organizational structure established to provide continuity in the support and coordination of recovery activities, covering operations, planning, logistics and finance/administration. This organizational structure is generally a physical location but can also be a virtual tool.

"Recovery Phase" refers to the phase in emergency management during which a community is recovering from an emergency or disaster. During recovery a community seeks to re-establish social, cultural, physical, economic, personal and community well-being through inclusive measures that reduce vulnerability to disaster, while enhancing sustainability and resilience. Recovery is further divided into short-, medium- and long-term stages. The short-term stage begins immediately after the event while the long-term stage can last for months or years.

"Resilience Centre" is a physical or virtual hub that provides the space for and coordination of various agencies and groups offering guidance, advice and assistance to those affected by an emergency.

Part 1 – Role of Community Recovery Manager (CRM)

General

CRMs will be expected to meet the following:

1. If requested, be available 24/7 during the short-term recovery stage and be willing to perform a variety of duties within the scope of the position’s responsibilities.
2. Ability to travel to disaster areas of the province on short notice (24 hours – 2 weeks) and visit remote locations by vehicle, boat, air or on foot for overnight or extended hours in all-weather considerations due to emergencies.
3. Ability to speak formally and informally to various audiences including community meetings, with local and regional elected representatives, Community Leadership, businesses and industry experts (e.g. insurance, construction, etc.).
4. It is intended that the CRM works out of an office [in the affected community/near the affected community] to understand the local impacts and be available for inquiries and face to face meetings as required. There may be circumstances in which the CRM could transition to remote delivery of services after an initial period of time.

Services and Activities

Appendix 5 of the Recovery Guide for Local Authority and First Nations - [Disaster Recovery Guide \(gov.bc.ca\)](https://www2.gov.bc.ca/gov/content/soc/comm/commdev/recovery/recoveryguide) provides guidance as to services that may be provided by a CRM. Without limiting the foregoing, the CRM may be asked to deliver one or more of the following by a Public Sector Entity under a Service Request:

1) Lead the Post Disaster Needs Assessment (PDNA) Process

A PDNA is used to gather situational understanding and determine what resources and support a community requires to advance recovery. The PDNA is a tool for Community Leadership to assess damage and recovery needs at various stages in the recovery process and represents the first step in community-led recovery planning. It will inform emergency recovery operations and provide the foundation for developing a recovery plan and a baseline for monitoring and evaluating recovery operations. PDNAs inform priorities, funding mechanisms, and recovery coordination for all sectors at local, regional, and provincial levels.

PDNAs may be conducted by the Recovery Unit in the local Emergency Operations Centre or the Community Recovery Manager and the community recovery team. EMCR may provide advice and guidance towards the creation of the PDNA.

PDNAs are iterative and begin as soon as possible, to continually inform the recovery process. PDNAs may be required for short term, medium term and long-term assessments, depending on the affected community's needs.

2) Unmet Needs Committee:

The CRM may play a role in leading or supporting the creation of an unmet needs committee. An unmet needs committee works to address the needs of individuals that have not been met by personal means, insurance, or other sources such as NGOs, Provincial or Federal governments, Community Leadership. The Unmet Needs Committee collects, evaluates, and prioritizes local unmet needs, it also gathers and distributes identified necessary resources and/or funds, to impacted residents. Local authorities and First Nations communities are encouraged to establish unmet needs committees to support the community recovery effort.

3) Liaison Role and Communications Role: The CRM may be required to:

- a. Where applicable, liaise between the external stakeholders and the local government.
- b. Act as the main point of contact for all inquiries relating to both the EOC transition, and to ongoing recovery activities.
- c. Share information on recovery operations with local government, First Nations partners, community organizations, NGOs, and the public.
- d. Advise Community Leadership on or facilitate the community's communication strategy. The CRM will consider the community's existing public information communication strategy and make recommendations with the goal of ensuring there is accurate and timely guidance and information made available to community members through a variety of means. Communications strategy may include planning and leading town hall events and

drafting and distributing traditional and social media communications through the appropriate channels.

4) Recovery Plan:

The CRM will be responsible for developing an incident-specific recovery plan (Recovery Plan) based on data collected from post-disaster needs assessments (PDNAs) to guide community recovery activities. Approved by community leadership, the Recovery Plan includes specific priorities and objectives for implementation. A recovery plan reflects the community plan, outline recovery needs and describe the actions the community plans to take in delivering recovery services to their community, including funding required and timeframes for implementation. Action items for the CRM may include:

- a. Undertake public and business outreach activities and completing PDNAs to inform data driven approach to creation of the Recovery Plan.
- b. Implement the Recovery Plan with the assistance of staff from the affected community, and local authority staff or First Nations members and stakeholders supporting the communities. Ensure there are clear processes in place for the community to support citizens throughout their personal recovery process.
- c. Assist the community with identifying applicable funding sources, including grants, and assist in preparing and submitting applications for recovery-focused funding through provincial and federal agencies under applicable programs; and

Develop a plan to maintain continuity for any unfinished or ongoing projects, including identification of personnel who will become responsible for project completion and how and when the hand-over will be managed.

5) General Administration:

The CRM will:

- a. Oversee the day-to-day operational activities of the recovery team;
- b. Advise Community Leadership on recovery priorities, actions and processes.
- c. Follow Community Leadership's direction on recovery activities;
- d. Provide support and leadership to facilities such as the Recovery Operations Centre and/or Resilience Centres;
- e. Plan for the standing down or continuity of recovery operations, including Resilience Centres, in conjunction with other relevant partners;
- f. Keep accurate account of expenses incurred and time spent on planning and implementing recovery activities, including tracking recovery revenues and expenditures, as well as the progress towards goals in the Recovery Plan; and

- g. Provide regular and timely operational reports as required to Community Leadership (suggest biweekly or monthly report submissions to align with payroll submission), inclusive of daily situation report, operational data and relevant statistics, as appropriate.

The CRM will be expected to make their own arrangements for securing appropriate office space and necessary equipment (e.g., laptops, office supplies) for the Services, unless an Order otherwise expressly provides.

The CRM will be required to comply with the terms set out in the attached Privacy Protection Schedule and a Security Schedule, as well as confidentiality provisions applying to any personal information collected from individuals as part of the Services. For Purchasers that are not public bodies as defined under the *Freedom of Information and Protection of Privacy Act*, the CRM may need to confirm with the Purchaser the authority for data collection and sharing and ensure that they receive authorization from the individuals from whom personal information is collected as part of the Services, if any, to share the personal information collected.

6) Training Services:

The CRM may be asked by a Purchaser to provide training to community staff, Community Leadership, volunteers, others through on-the-job training or mentorship. Training may include:

- a. Education in various recovery processes which would facilitate handover to community recovery staff (e.g.: PDNA, Recovery Plan, community-led recovery initiatives, recovery funding, including accessing and completing forms, and the use of them);
- b. Clarifying short, medium and long-term actions for recovery management; and
- c. Mentorship.

7) Standby Services:

The CRM may be asked by a Purchaser to be available on stand-by status for a standby rate.

Part 2 – Fees
