

SUMMARY OF MINISTERIAL ACCOUNTABILITY FOR OPERATING EXPENSES
(for the Fiscal Year Ending March 31, 2009)
(\$000)

Under section 3 of the Balanced Budget and Ministerial Accountability Act (BBMAA), each member of the Executive Council has 20 per cent of his or her salary held back with restoration of half of the holdback contingent on government achieving its overall fiscal target for the year as per section 4, and restoration of the other half of the holdback contingent on ministers achieving individual goals as set out in section 5. For each minister with responsibility for operating expenses accounted for in the Consolidated Revenue Fund (other than the Minister of Small Business and Revenue), section 5(1) stipulates actual results for the year must not exceed the estimated amounts for that fiscal year. Section 5(2) applies to the Minister of Small Business and Revenue and requires the minister to achieve an amount of revenue to be specified by regulation of Treasury Board. Section 5(3) applies to ministers of state, for whom expected results are specified by Treasury Board regulation.

Section 6(1) of BBMAA requires that the estimated amounts of operating expenses which are the responsibility of the minister must be made public with the main estimates each fiscal year. These amounts are permitted to be adjusted pursuant to section 6(1.1) in the event of a government reorganization. The schedule below shows the effect of the recent government reorganization on the estimated amounts of ministers with responsibility for operating expenses as described in section 5(1). While the reorganization renamed a number of ministries and created one new ministry, the appropriations in the *2008/09 Estimates* remain unchanged. The orders in council transferring responsibilities and spending authority do not create new appropriations, but rather provide authority to individual ministers to spend from the appropriations that relate to their assigned responsibilities, even though those appropriations may have previously been the responsibility of another minister. Other ministers may also have authority to spend from those same appropriations for purposes that relate to their assigned responsibilities.

In the table below, the column entitled "Minister Responsible" lists the ministers with their assigned responsibilities after the reorganization. The column entitled "Appropriations in 2008/09 Estimates" shows the appropriations from the 2008/09 main estimates for which those ministers are now responsible. The columns entitled "Appropriation Operating Expenses (net)" and "2008/09 Estimated Amount" show the dollar amounts of operating expenses (net) and estimated amounts attributed to ministers in the *2008/09 Estimates*. The column entitled "Order In Council Adjustments" shows transfers of spending authority resulting from orders in council implementing the government reorganisation in 2008. The final two columns show the reallocated appropriations (or portions thereof) for which individual ministers are now responsible and the revised estimated amounts for each minister.
