# **Supplementary Estimates**

Fiscal Year Ending March 31, 2023

## INTRODUCTION TO THE SUPPLEMENTARY ESTIMATES

Each year the government presents a budget to the Legislative Assembly. The budget includes the Main Estimates, which, in conjunction with Supply Acts passed by the Legislature, provide government with authority (voted appropriations) to spend money from the General Fund of the Consolidated Revenue Fund. If spending from voted appropriations is forecast to exceed that set out in the Main Estimates, in some circumstances Supplementary Estimates may be presented to the Legislative Assembly.

Where Supplementary Estimates increase the funding for purposes included in a vote description in the Main Estimates, that vote description may be referenced in the Supplementary Estimates. Where Supplementary Estimates provide funding for purposes that are not included in the vote descriptions of the Main Estimates, new vote descriptions or new votes are provided in the Supplementary Estimates.

These Supplementary Estimates provide funding from the General Fund of the Consolidated Revenue Fund in the amount of \$2,715,000,000 for operating expenses as set out in the Schedule of Appropriations to be Voted (page 3) for the following purposes:

Ministry of Agriculture and Food – \$111,000,000 for food security initiatives to support strengthening the food supply chain across British Columbia;

Ministry of Municipal Affairs – \$1,000,000,000 for the Growing Communities Fund to support local governments with the costs of upgrading, adding capacity, and extending core infrastructure and community amenities, and support additional housing supply;

**SUMMARY OF MINISTERIAL ACCOUNTABILITY FOR OPERATING EXPENSES**  
(for the Fiscal Year Ending March 31, 2023)  
(\$000)

Under section 3 of the *Balanced Budget and Ministerial Accountability Act* (BBMAA), each member of the Executive Council has 10 per cent of their salary held back, and restoration of a minister's holdback is contingent on that minister achieving individual goals as set out in section 5 of the Act. For each minister with responsibility for operating expenses arising from a voted appropriation as accounted for in the Consolidated Revenue Fund, section 5(1) stipulates actual results for the year must not exceed the estimated amounts for that fiscal year.

In the table below, the "Minister Responsible" column lists the ministers with BBMAA section 5(1) assigned responsibilities. The "Voted Appropriations in the 2022/23 Estimates" column shows the voted appropriations for which those ministers are responsible. The "Voted Appropriation Operating Expenses (net)" and "2022/23 Estimated Amount" columns show the dollar amounts of operating expenses (net) and estimated amounts allocated to ministers in the 2022/23 Estimates. The "Legislated Additions" column shows additional voted appropriations resulting from supplementary estimates. The "Order In Council and Other Adjustments" column shows transfers of spending authority resulting from orders in council implementing government reorganizations (transfer amounts are pro-rated by the number of days that a minister is accountable for the budget in a fiscal year), or, where a vote authorizes spending by more than one minister, reallocation of spending authority by Treasury Board among the ministers identified in the vote. The negative amounts in this column show the total reallocated from a minister, while the amounts reallocated to a minister are shown individually for each voted appropriation where the funding is reallocated from. The final two columns show the reallocated appropriations (or portions thereof) for which individual ministers are now responsible and the revised estimated amounts for each minister.
