SUMMARY TO THE PROGRAMME

The Summary to the Programme included in the Prospectus is amended and restated in the Appendix to this 3rd Supplement.

Appendix

SUMMARY

Summaries are made up of disclosure requirements known as "Elements". These Elements are numbered in Sections A – E (A.1 – E.7).

*This summary (the "**Summary**") contains all the Elements required to be included in a summary for these types of securities and the issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.*

Even though an Element may be required to be inserted in the Summary because of the type of securities and the issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the Summary with the mention of "Not Applicable".

SECTION A – INTRODUCTION AND WARNINGS

A.1	**Introduction and warnings:**	This Summary should be read as an introduction to the Prospectus. Any decision to invest in the securities should be based on consideration of the Prospectus as a whole by the investor. Where a claim relating to information contained in the Prospectus is brought before a court, the plaintiff investor might, under the national legislation of the Member States, have to bear the costs of translating the Prospectus before the legal proceedings are initiated. Civil liability attaches only to those persons who have tabled the Summary including any translation hereof, but only if the Summary is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus or it does not provide, when read together with the other parts of this Prospectus, key information in order to aid investors when considering whether to invest in such securities.
A.2	**Consent by the Issuer for use of Prospectus and warnings:**	Not Applicable; any sales or final placement of the Notes by the existing Dealers under the Programme and additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes will be made pursuant to one or more of the exemptions set out in Article 3(2) of the Prospectus Directive.

SECTION B – ISSUER

B.17	**Credit ratings:**	The long-term and short-term foreign currency credit ratings of the Issuer are: AAA and A-1+, respectively (Standard and Poor's Financial Services LLC) and Aaa and P-1, respectively (Moody's Investors Service, Inc.). The Notes issuable under the Programme have been assigned a provisional rating of "AAA" by Standard and Poor's Financial Services LLC and a rating of "Aaa" by Moody's Investors Service, Inc. Neither of the rating agencies noted above is established in the European Union or registered under the CRA Regulation, but the specified ratings have been endorsed by Standard & Poor's Credit Market Services Europe Ltd. and Moody's Investors Service Ltd., respectively, each of which is an entity established in the European Union and registered under the CRA Regulation. [The Notes to be issued [have been]/[are expected to be] rated: [Standard & Poor's Financial Services LLC: [ ]] [Moody's Investors Service, Inc.: [ ]]] [The Notes to be issued have not been rated.]
B.47	**Description of the Issuer, including legal name:**	The issuer is the Province of British Columbia. Canada is a federation with a parliamentary system of government. Constitutional responsibilities are divided between the federal government, the 10 provinces and the 3 territories. The Province's population on July 1, 2014 was 4.63 million people, 1.1 per cent higher than the 4.58 million people counted on the same date in 2013. During the past 25 years, the British Columbia economy has become more diversified in structure, employment, production and trade. While forest products and other traditional resource-based industries such as fishing and mining have continued, the economy has evolved to encompass a robust natural gas industry, secondary manufacturing and an extensive service sector, including technology, tourism, film and television production. The real gross domestic product of the Province at basic prices was Cdn.$198 billion in 2013 (2007 dollars), and grew by 2.8 per cent in 2011, 2.5 per cent in 2012 and 2.1 per cent in 2013.[1]

[1] The figures in this paragraph are updated by the 3rd Supplementary Prospectus dated January 9, 2015.

		There have been no recent events relevant to the evaluation of the Province's solvency.
B.48	**Public finance and trade position of the Issuer:**	Provincial debt increased Cdn.$4.9 billion to total Cdn.$60.7 billion at March 31, 2014, or 26.4 per cent of provincial GDP. Taxpayer-supported debt increased by Cdn.$2.9 billion from the previous year to total Cdn.$41.1 billion at March 31, 2014, or 17.9 per cent of GDP. [2] Based on the provincial economic accounts 2013 estimates (November 2014), the Province's exports of goods and services totaled Cdn.$88.3 billion during the 2013 calendar year. International exports comprised Cdn.$49.9 billion (56.5%) of the Province's total exports, and represented 8.7% of Canada's total international exports; while inter-provincial exports accounted for Cdn.$38.4 billion (43.5%) of the Province's total exports. The Province's imports of goods and services totalled Cdn.$110.1 billion, consisting of Cdn.$ 61.7 billion (56.1%) international imports and Cdn.$48.3 billion (43.9%) inter-provincial imports. The Province's international imports accounted for 10.3% of Canada's total international imports. In 2013, the Province registered a trade deficit of Cdn.$21.8 billion, which consists of a Cdn.$11.8 billion deficit in trade from abroad and a Cdn.$9.9 billion deficit accruing from inter-provincial trade. [3] International exports of goods originating from the Province (computed by BC Stats using customs based data) were Cdn.$33.4 billion in 2013, an increase of 6.2% compared to Cdn.$31.5 billion in 2012. This gain was largely driven by a 26.3% increase in the value of softwood lumber exports, while the largest decrease was observed in the value of coal exports (-15.1%). The United States remained the Province's principal international export market in 2013, accounting for 46.4% of the international exports of goods. Tax-payer supported revenues were Cdn.$42.7 billion for the fiscal year ended March 31, 2014, up Cdn.$2.0 billion from the fiscal year ended March 31, 2013. Taxpayer-supported expenses were Cdn.$43.4 billion for the fiscal year ended March 31, 2014, compared to Cdn.$43.2 billion for the fiscal year ended March 31, 2013. There have been no significant changes to the Province's public finance and trade position since March 31, 2014, the end of the last fiscal year.

SECTION D – RISKS

D.2	**Key Risks specific to the Issuer:**	Not Applicable; the Issuer believes that there are no risks that are specific to the Issuer.

[*] Delete this paragraph when preparing an issue specific summary.

D.3	**Key Risks Specific to the Notes:**	Investors in Notes issued under the Programme should be aware that such investments include the risks that deductions are made from payments to Noteholders for withholding tax purposes. A future change in the laws or administrative practice of the governing law of the Notes affects conditions drafted on the basis of such laws or practice prior to the relevant change(s). Notes issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche of Notes which is already issued) and there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Notes. The lack of a trading market for Notes, or an illiquid market for Notes, may mean that an investor is unable to find a purchaser for Notes and rising interest rates may adversely affect the value, and therefore the potential price an investor would obtain on sale, of Notes. The investment of investors whose financial activities are denominated in a currency other than the Specified Currency of the Notes may be adversely affected by changes in exchange rates or currency appreciation, or by the imposition of exchange controls and, furthermore, any adverse change in an applicable credit rating could adversely affect the trading price for Notes issued under the Programme. The Fiscal Agency Agreement contains provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. [Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.] [An optional redemption feature exercisable at the option of the Issuer may reduce the return on investment provided by a Note compared to the return that would have been achieved had the Note been redeemed at maturity and the Issuer may chose to redeem the Notes at times when prevailing interest rates may be relatively low.]

		[The market value of Notes other than conventional interest-bearing securities (such as Notes issued at a substantial discount or premium) may be more volatile and will tend to fluctuate more than "plain vanilla" Notes. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.] [If the currency in which the Notes are denominated is other than Euro or Renminbi and is unavailable on the foreign exchange markets due to circumstances beyond its control, the Issuer will be entitled to satisfy its obligations in respect of payment on the Notes by making payment in Euro on the basis of the spot exchange rate (the "**Euro FX Rate**") or in its absence, a substitute rate determined by the Issuer or its Calculation Agent in its discretion. The Euro FX Rate or any such substitute rate may be such that the resulting Euro amount is zero and in such event no amount in Euro will be payable.] [Restrictions on conversion and remittance of Renminbi and limited availability of Renminbi outside the People's Republic of China ("**PRC**") may affect liquidity of Notes denominated in Renminbi and the Issuer's ability to source Renminbi outside the PRC to service the Notes. If the Issuer is not able, or it is impracticable for it, to satisfy its obligations to pay interest and principal in Renminbi as a result of those potential issues, the terms and conditions entitle the Issuer to make these payments of interest and/or principal in US dollars.]

SECTION E – OFFER

E.2b	**Reasons for the offer and use of proceeds:**	The net proceeds from each issue of Notes will be paid into the Consolidated Revenue Fund of British Columbia (in some cases after being exchanged in whole or in part for one or more other currencies) and may be used for the benefit of the Issuer or for the purpose of lending money to British Columbia government bodies.
E.3	**Terms and conditions of the offer:**	The issue of Notes is being made pursuant to one or more exceptions set out in Article 3(2) of the Prospectus Directive. The total amount of the [issue] is [●]. The issue price of the Notes is [●] per cent. of their nominal amount [plus accrued interest from ●].
E.4	**Interest of natural and legal persons involved in the issue/offer:**	The relevant Dealers may be paid fees in relation to any issue of Notes under the Programme. Any such Dealer and its affiliates may also have engaged, and may in the future engage, in investment banking and/or other commercial banking transactions with, and may perform services for, the Issuer and its affiliates in the ordinary course of business.

		[Other than as mentioned above, [and save for ●,]] so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer, including conflicting interests.]
E.7	**Expenses charged to the investor by the Issuer:**	Not Applicable; the issue of Notes is being made pursuant to one or more exemptions set out in Article 3(2) of the Prospectus Directive.
