

Port Mann/Highway 1 Improvement Project
Transportation Investment Corporation

AUDITED FINANCIAL STATEMENTS

At March 31, 2014

May 13, 2014

Statement of Management Responsibility

Year ended March 31, 2014

The financial statements of Transportation Investment Corporation have been prepared by management in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board and include certain estimates that reflect management's best judgments.

Management is responsible for the preparation of the financial statements and has established a system of internal control to provide reasonable assurance that assets are safeguarded, transactions are properly authorized, and financial records provide reliable information for the preparation of financial statements.

The Corporation's Board of Directors is responsible for the review and approval of the financial statements and meets with management and the external auditor to discuss the results of the audit examination and financial reporting matters. The external auditor has full access to the Board with and without the presence of management.

The Auditor General of British Columbia has performed an independent audit of the financial statements. The Auditor's report outlines the scope of his examination and expresses an opinion on the financial statements of the Transportation Investment Corporation.

Yours truly,

Pat Soanes
VP, Finance & Corporate Services

Mario Piscitelli
Director, Finance

INDEPENDENT AUDITOR'S REPORT

*To the Board of Directors of Transportation Investment Corporation, and
To the Minister of Transportation and Infrastructure, Province of British Columbia*

I have audited the accompanying financial statements of Transportation Investment Corporation which comprise the statement of financial position as at March 31, 2014 and the statement of operations and other comprehensive income or loss, statement of cash flows and statement of changes in shareholder's equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

In my view, the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements present fairly, in all material respects, the financial position of Transportation Investment Corporation as at March 31, 2014 and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Victoria, British Columbia

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

1. GENERAL BUSINESS DESCRIPTION

The Transportation Investment Corporation (“TI Corp” or “the Corporation”) is a Crown corporation wholly owned by the Province of British Columbia. The Corporation’s registered office is Suite 210 – 1500 Woolridge Street, Coquitlam, British Columbia.

TI Corp was established on June 25, 2008 under the *Transportation Investment Act (SBC 2002)*. The Corporation is currently undertaking the design, building and operations of the Port Mann/Highway 1 Improvement Project (“Project”), which includes tolling, and highway maintenance and rehabilitation. The Corporation may also engage in or conduct business authorized by the Lieutenant Governor in Council.

On March 10, 2010, the Port Mann Highway 1 Bridge Concession Agreement (“CA”), which outlines the terms and conditions of the Project, was signed by authorized representatives of TI Corp, the BC Transportation Financing Authority (“BCTFA”) and the Ministry of Transportation and Infrastructure.

In December 2012, the Port Mann Bridge, in the eight lane configuration, was officially opened to traffic and toll collection activities commenced in accordance with the CA. In December 2013, all lanes on the remainder of the Highway 1 corridor opened for use by all traffic. Work continues on the completion of the remaining two lanes on the Port Mann Bridge.

The Minister of Finance for British Columbia is the fiscal agent for the Transportation Investment Corporation.

2. STATEMENT OF COMPLIANCE

These financial statements have been prepared in compliance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board, and include International Accounting Standards (“IAS”), interpretations issued by the IFRS Interpretations Committee and the former Standing Interpretations Committee.

3. BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies used in the preparation of these financial statements are as follows:

a) Basis of Measurement

The financial statements have been prepared using the historical cost basis, except for certain financial instruments, including derivatives, which are classified and measured at fair value.

b) Basis of Presentation

The functional and presentation currency of the Corporation is Canadian dollars. Certain comparative figures have been reclassified to conform to the presentation adopted in the current year to better reflect the nature of operations for the Corporation as tolling activities begin to normalize.

c) Revenue Measurement and Recognition

Revenue is measured at the fair value of the consideration received or receivable.

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

The primary sources of revenue for the Corporation are tolling charges for use of the Port Mann Bridge and associated account processing and maintenance fees. The recognition of revenue in the Statement of Operations and Other Comprehensive Income (Loss) occurs when all of the following conditions have been satisfied:

- i) The amount of revenue can be measured reliably;
- ii) It is probable that the economic benefits associated with the transaction will flow to the Corporation;
- iii) The stage of completion of the transaction at the end of the reporting period can be measured reliably; and
- iv) The costs incurred, or to be incurred, in respect of the transaction can be measured reliably.

Accordingly, tolling revenue is recognized, net of promotions and discounts, for each vehicle crossing over the Port Mann Bridge provided it satisfies the above recognition requirements. Where customers have acquired monthly passes, revenue is initially deferred and subsequently recognized in the periods for which the benefit of the pass relates.

d) Cash

All cash is held with major financial institutions.

e) Impairment of Receivables

At the end of each reporting period, the Corporation uses objective evidence, such as an aging analysis, to determine the best estimate of any impairment associated with receivables. Impairment expenses on receivables are recorded in the Statement of Operations and Other Comprehensive Income (Loss) and adjusted in subsequent periods if the amount of the impairment changes.

f) Property, Plant and Equipment

Property, plant and equipment are recorded in the Statement of Financial Position, at cost net of accumulated depreciation and net of any impairment loss, provided the purchase amount is greater than \$10,000 individually or in aggregate within a group of similar items. All costs are initially recorded at fair value and subsequently measured at cost less accumulated depreciation and impairment losses.

Assets under construction consist primarily of highway infrastructure components under development including bridges, roadbeds, overpasses, underpasses, retaining walls and drainage systems. Their cost includes all costs which are directly attributable to the asset, inclusive of borrowing costs prior to the asset being available for use, net of any temporary investment income, and costs which are necessary to bring the asset into the location and condition for the operational use intended. The capitalization of costs ceases when the asset is re-categorized as available for use using the percentage of completion method.

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

For assets that are made available for use, depreciation charges commence when the asset is capable of operating in the manner intended by management using methods and rates determined to depreciate the cost of the property, plant and equipment over their estimated useful lives. The methods and rates are reviewed, and adjusted if necessary, on an annual basis. The depreciation method and useful lives for each asset class are as follows:

Asset	Depreciation Method	Useful Lives (in years)
Highway Infrastructure	Units of Production*/Straight Line	10 to 77
Port Mann Bridge	Units of Production*	25 to 77
Tolling and Traffic Systems	Straight Line	8 to 40
Office and Leasehold Assets	Straight Line	3 to 10

* Components of the Highway Infrastructure and the Port Mann Bridge units of production are based on the number of vehicles that cross the bridge during the fiscal year, relative to the expected traffic over the life of the asset.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gains or losses arising from de-recognition, calculated as the difference between the net disposal proceeds and the carrying value of the item, is included in the Statement of Operations and Other Comprehensive Income (Loss) in the year of de-recognition.

g) *Intangible Assets*

Intangible assets are comprised of land rights and recorded at cost. Amortization commenced December 1, 2012 on a straight line basis. The life of land rights is based on the term of the CA, 77 years, which expires in 2090.

h) *Investment Property*

Investment property, which includes land and a building, is initially recorded at cost, which approximates fair value, and is subsequently recorded at depreciated cost. Depreciation for the building is calculated on a straight line basis over an expected future life of 50 years.

i) *Impairment of Non-financial Assets*

Non-financial assets such as property, plant and equipment or intangible assets are tested for impairment when events or circumstances suggest that the carrying amount may not be recoverable. The recoverable amount is the higher of the asset's fair value less cost to sell or its value in use. Impairment losses are evaluated for potential reversals when events or changes in circumstances warrant such consideration.

j) *Borrowing Costs and Interest Capitalization*

Short-term debt borrowing costs include transaction fees and interest. Long-term debt borrowing costs include transaction fees, applicable premiums or discounts and interest. These costs are amortized over the life of the specific debt instrument, using the effective interest rate method. All borrowing costs are segregated between operating and capital costs based on the available-for-use rates and the current total expenditure for the asset, as compared to the total projected expenditure for the asset.

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

k) Pension Benefits

Pension benefits for employees of the Corporation are provided through the BC Public Service Pension Plan. This defined benefit multi-employer plan is accounted for as a defined contribution post-employment benefits pension plan. Payments for the cost of this plan are accounted for on an accrual basis.

l) Provisions

Provisions represent liabilities for which the amount or timing is uncertain. Provisions are recognized when the Corporation has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be necessary to settle the obligation, and the amount can be readily estimated. Provisions are not recognized for future operating losses.

m) Financial Instruments

IFRS requires that all financial instrument assets be classified as fair value through profit or loss, available-for-sale, held-to-maturity or loans and receivables. In addition, derivative financial instrument assets that are not accounted for as hedging instruments must be classified as held-for-trading. Financial instrument liabilities can be classified as fair value through profit or loss or as other liabilities. All financial instruments are measured at fair value on initial recognition. The subsequent measurement of financial instruments depends on the classification of the instrument.

Based on the classification of the financial instruments described below, the Corporation has measured its financial instruments subsequent to initial recognition at fair value as follows:

Financial Instrument	Classification	Subsequent Measurement	Recognition
Cash, restricted cash	Fair value through profit or loss	Fair value	Interest income and the effects of foreign currency translation are recognized in the Statement of Operations and Other Comprehensive Income (Loss) ("SOCI").
Trade and other receivables	Loans and receivables	Amortized cost, using the effective interest rate method	Interest income and impairment write downs are recognized in the SOCI.
Derivatives, where hedge accounting is applied	Derivative instruments in a qualified hedge relationship	Fair value, re-measured at each reporting period	The effective portion of the derivative relationship is recognized in Other Comprehensive Income. The ineffective portion is recognized in the SOCI.
Payables	Other financial liability	Amortized cost, using the effective interest rate method	Interest expense and the effects of foreign currency translation are recognized in the SOCI.
Short-term and Long-term indebtedness	Other financial liability	Amortized cost, using the effective interest rate method	Interest expense and the effects of foreign currency translation are recognized in the SOCI.

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

n) Leases

Leases are classified as finance or operating depending on the terms and conditions of the contracts. Currently, all leases held by the Corporation are classified as operating leases. Accordingly, all leases are expensed on a straight line basis.

o) Foreign Currency Translation

Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the rate of exchange in effect at the end of the accounting period. Changes in the Canadian dollar equivalent of these monetary assets and liabilities due to changes in the exchange rate are recognized in the Statement of Operations and Other Comprehensive Income (Loss).

p) Income Taxes

TI Corp is exempt from corporate income taxes.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of financial statements requires management to make estimates and judgments about the future. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Accounting estimates will, by definition, exhibit some variances to actual results.

The following categories set forth management's most critical estimates, assumptions and judgments.

Valuation of Assets under Construction

The Corporation utilizes the percentage of completion method to determine the cost of assets under construction. The determination of the percentage is estimated by the contractor and approved by the Corporation's representative. A variation of 1% of the total contract price would result in an estimation error of \$24 million. As the design build contract is a fixed price contract, any percentage of completion estimation errors will be corrected on final project completion.

Valuation of Assets Available for Use

The Corporation utilizes the percentage of completion method to determine the value of assets available for use. Assets are considered available for use when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management. The determination of assets available for use has a financial impact to the Corporation as the capitalization of borrowing costs ceases and depreciation commences when the asset is determined to be available for use.

Depreciation

The Corporation is required to make significant estimates involved in the calculation of depreciation. The estimates include the useful life of the assets, the depreciation method, the expected traffic over the life of the CA, the componentization of the assets and the percentage of completion described above. The determination

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

of these estimates can have a significant impact to the Corporation's Statement of Operations and Other Comprehensive Income (Loss).

Accounts Receivable

The Corporation has recorded allowance in regards to the collectability of certain revenue generated from tolling operations. The allowance methodology includes estimates related to recoveries under the "refuse to issue" program. The refuse to issue program refers to the enforced payment mechanism on outstanding tolls through the annual insurance renewal process and/or the license renewal process administered by the Insurance Corporation of British Columbia.

Provisions

As part of the CA, the Corporation is required to decommission the old Port Mann Bridge and accordingly, the Corporation included the decommissioning costs in the design build contract. The measurement of the provision is estimated by the contractor and approved by the Corporation's representative. The value of the provision is reviewed at the end of each reporting period and any adjustments are recognized in the Statement of Operations and Other Comprehensive Income (Loss).

Impairment

The Corporation assesses all assets for impairment considerations at the end of each reporting period. When assessing for impairment considerations, the Corporation utilizes judgment and any valuation estimations provided by contractors. As all impairment charges are recognized immediately in the Statement of Operations and Other Comprehensive Income (Loss), impairment charges may have a significant impact on the results of the Corporation.

5. RECENT ACCOUNTING PRONOUNCEMENTS

i. IFRS 9 – Financial Instruments: This is a revised version of IFRS 9 (2010) incorporating revised requirements for the classification and measurement of financial liabilities, and carrying over the existing de-recognition requirements for IAS 39 Financial Instruments: Recognition and Measurement. The effective date is not yet established. TI Corp does not expect a significant financial impact as a result of this change.

ii. IAS 32 – Financial Instrument: Presentation: This amendment provides further clarification on the application of the offsetting requirements of financial assets and financial liabilities. TI Corp will start the application of IAS 32 in the financial statements effective April 1, 2014. TI Corp does not expect a significant financial impact as a result of this change.

The Corporation did not early adopt either of the above accounting pronouncements where early adoption was permitted.

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

6. TRADE AND OTHER RECEIVABLES

Receivables (\$000's)

	March 31, 2014	March 31, 2013
Tolling related receivables	\$ 23,833	\$ 11,595

Additions	21,243	7,413	3,481	252	-	32,389
Disposals	-	-	-	-	-	-
Total	<u>26,006</u>	<u>8,759</u>	<u>4,623</u>	<u>980</u>	<u>-</u>	<u>40,368</u>
Net book value	<u>\$ 1,871,162</u>	<u>\$ 1,056,003</u>	<u>\$ 38,028</u>	<u>\$ 1,398</u>	<u>\$ 72,265</u>	<u>\$ 3,038,856</u>

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

The costs and accumulated depreciation amounts for the Corporation's property, plant and equipment at March 31, 2013 are as follows (in \$000's):

Cost	Highway Infrastructure	Port Mann Bridge	Tolling and Traffic Systems	Office and Leasehold Assets	Assets Under Construction	Total
Beginning balance	\$ -	\$ -	\$ -	\$ 638	\$ 2,330,047	\$ 2,330,685
Additions	289	-	-	1,740	543,040	545,069
Reclassifications	1,112,168	887,302	40,066	-	(2,039,536)	-
Disposals	-	-	-	-	-	-
Total	1,112,457	887,302	40,066	2,378	833,551	2,875,754
Accumulated Depreciation						
Beginning balance	-	-	-	472	-	472
Additions	4,763	1,346	1,142	256	-	7,507
Disposals	-	-	-	-	-	-
Total	4,763	1,346	1,142	728	-	7,979
Net book value	\$ 1,107,694	\$ 885,956	\$ 38,924	\$ 1,650	\$ 833,551	\$ 2,867,775

During Fiscal 2014, capitalized borrowing costs of \$21.9 million (2013 - \$69.8 million) were included as additions to assets under construction. The weighted average effective capitalized interest rate relating to the borrowing cost, including hedge amortization, in Fiscal 2014 was 0.67% (2013 – 2.71%).

9. INTANGIBLE ASSETS

TI Corp has entered into a licensing agreement with the BCTFA to use and occupy certain lands in order to permit the Corporation to comply with its obligations under the CA for the Project. The term of the license commenced on December 1, 2012 and ends on March 14, 2090. Credits are received from BCTFA for the unused portion of land not required for use. Amortization of these intangible assets commenced on December 1, 2012.

Land Rights (at cost) (\$000's)

	March 31, 2014	March 31, 2013
Beginning balance	\$ 122,880	\$ 126,388
Additions	3,474	3,820
Credits received for surplus lands	(4,507)	(6,932)
Amortization (note 21)	(1,609)	(396)
Total	\$ 120,238	\$ 122,880

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

10. INVESTMENT PROPERTY

TI Corp has purchased a small property on a temporary basis to facilitate construction activities. No portion of the investment property is for the use of TI Corp.

The assessed value for 2014 property tax purposes as determined by the British Columbia Assessment Authority was estimated to be \$830,500. Given the assessed value, the current net book value does not require any impairment adjustment.

The building was available for use and depreciation commenced on April 1, 2011.

Investment Property (at cost) (\$000's)

	March 31, 2014	March 31, 2013
Beginning balance	\$ 705	\$ 707
Additions	-	-
Depreciation (note 21)	(2)	(2)
	<u>\$ 703</u>	<u>\$ 705</u>

Included in above is land valued at \$619 (in \$000's) and is not depreciated.

Effective April 1, 2011, the remaining investment property was leased on a yearly basis and will be sold upon completion of the project. TI Corp recorded the following results from rental operations:

Rental Operations (\$000's)

	March 31, 2014	March 31, 2013
Rental revenue	\$ 6	\$ 7
Rental expenses		
Repairs and maintenance	-	2
Utilities	1	1
Depreciation	2	2
Total rental expenses	<u>3</u>	<u>5</u>
	<u>\$ 3</u>	<u>\$ 2</u>

11. RESTRICTED CASH

Restricted cash of \$10.5 million is held as collateral for a standby letter of credit issued by the Canadian Imperial Bank of Commerce (CIBC) in favor of the Receiver General for Canada on behalf of Fisheries and Oceans Canada (the beneficiary), to ensure TI Corp's compliance with their authorization for work or undertakings affecting fish habitat. TI Corp receives interest on this amount at a variable interest rate.

The standby letter of credit expires on June 29, 2014 and will be renewed annually until the letter of credit is rescinded or reduced as instructed by the beneficiary. If required, the standby letter of credit will also be automatically reduced by the amount of each drawing paid by CIBC to the beneficiary (see note 31 – Subsequent Events).

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

12. PAYABLES AND ACCRUED LIABILITIES

Payables (\$000's)

Design/Build contractor

Related party payables and accruals (Note 19)

Other trade payables and accruals

	March 31, 2014	March 31, 2013
	\$ 3,505	\$ 363,361
	43,853	36,334
	8,771	10,978
	<u>\$ 56,129</u>	<u>\$ 410,673</u>

All account payables are in the normal course of operations and are measured at the exchange amount. Related party values are negotiated between the respective entities and approximate market values. Payables and accrued liabilities include accrued interest on long-term debt.

13. CURRENT INDEBTEDNESS

TI Corp funds its construction and operations with a blend of long-term and short-term debt. Current indebtedness includes accrued interest and the principal value of the short-term debt. Short-term debt is commercial paper debt assumed by TI Corp that typically matures within 30 to 365 days. TI Corp has been authorized by the Minister of Finance to acquire up to a limit of \$1.3 billion (2013 – \$1.3 billion) in short-term debt from the Province of British Columbia. The fair values of the commercial paper debt instruments approximate their stated values. At March 31, 2014, the Corporation had short-term debt totaling \$867.2 million (2013 – \$764.8 million) with annual interest rates ranging from 0.87% to 1.16% (2013 – 0.90% to 1.17%) and maturity dates ranging from Apr 8, 2014 to Nov 18, 2014 (2013 – Apr 5, 2013 to Jan 10, 2014).

14. LONG-TERM INDEBTEDNESS

Long-term debt consists of a series of bonds due to the Province of British Columbia. With the approval of the Minister of Finance, sinking fund contribution payments have been temporarily suspended but will commence once sufficient cash flows from tolling have been generated to permit these contributions without the requirement to borrow additional funds. There are no debt maturities over the next five years. One new long-term debt instrument was issued during the current fiscal year. It is the intention of TI Corp management to hold all long-term debt instruments until maturity.

The interest to be paid on currently held long-term debt over the next five years totals \$113.3 million per year. During the construction phase of operations, a portion of the interest costs are capitalized as a part of the capital asset costs. Fair values have been provided by the Ministry of Finance as TI Corp's fiscal agent. The fair values have been determined using active market comparisons using relative yield curves provided by third party vendors. The fair value of the long-term debt is greater than the amortized cost due to declining interest rates.

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

At March 31, 2014, the Corporation had the following bond series outstanding (in \$000's):

Debt Series	Maturity Date	Face Value	Coupon Effective		March 31, 2014		March 31, 2013	
			Rate	Rate	Fair Value	Amortized Cost	Fair Value	Amortized Cost
BCCP148	9-Jun-39	\$ 78,188	4.99%	5.06%	\$ 92,709	\$ 77,428	\$ 100,167	\$ 77,414
BCCD-22	18-Jun-40	\$ 100,000	4.95%	4.76%	\$ 118,376	\$ 102,884	\$ 127,970	\$ 102,938

		<u>\$ 2,373,621</u>			<u>\$ 2,740,050</u>	<u>\$ 2,567,162</u>	<u>\$ 2,349,099</u>	<u>\$ 2,028,935</u>

15. PROVISION

TI Corp has the contractual obligation to decommission the old Port Mann Bridge upon completion of the new structure. Although the direct contracting costs amount to \$38.9 million, other indirect costs are likely to be incurred and are expensed as incurred. The design build contractor will determine the timing of this process, but it is anticipated to be removed by 2015. Due to the abbreviated time frame and the undetermined completion date of the decommissioning, net present value calculations were not utilized to determine the current year's valuation of this obligation.

Provision (\$000's)

Beginning balance

Payments

Current portion

Long-term portion

	March 31, 2014	March 31, 2013
Beginning balance	\$ 35,484	\$ 38,909
Payments	(19,411)	(3,425)
	<u>\$ 16,073</u>	<u>\$ 35,484</u>
Current portion	\$ 16,073	\$ 19,411
Long-term portion	\$ -	\$ 16,073

16. HEDGING AND DERIVATIVE FINANCIAL INSTRUMENTS

TI Corp entered into a number of hedging transactions during Fiscal 2009, through advanced rate setting (ARS), also known as bond forwards and forward starting swap instruments. The sole purpose in entering into hedging transactions is to mitigate interest rate risk by offsetting expected interest rates. The Corporation does not enter into derivative financial instruments for trading or speculative purposes and, accordingly, designates all hedging instruments as cash flow hedges. The Corporation has elected to apply hedge accounting rules, which permit hedging gains or losses to be matched against future interest expense over the life of the hedged debt instruments in accordance with IAS 39 Financial Instruments: Recognition and Measurement. By March 31, 2014, all derivative financial instruments unwound and therefore the Corporation had no outstanding hedging instruments (2013 – one hedging instrument) with the derivative and hedged amount totaling \$Nil (2013 – \$500 million).

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

During Fiscal 2014, TI Corp recorded the following changes in its derivative financial instruments' value:

Derivative Liability (\$000's)	March 31, 2014	March 31, 2013
Beginning balance	\$ 72,495	\$ 111,964
Unrealized loss adjustment	-	17,071
Realized loss adjustment	-	11,852
Realized gain adjustment	(8,420)	-
Allocated to accumulated hedging losses	(64,075)	(68,392)
Ending balance	<u>\$ -</u>	<u>\$ 72,495</u>

17. OTHER COMPREHENSIVE LOSS AND ACCUMULATED OTHER COMPREHENSIVE LOSS

Accumulated Other Comprehensive Loss (\$000's)	March 31, 2014	March 31, 2013
Derivative liability	\$ -	\$ 72,495
Accumulated hedging loss	219,417	177,138
Ending balance	<u>\$ 219,417</u>	<u>\$ 249,633</u>

The Statement of Operations and Other Comprehensive Income or Loss, consists of two components – Net Loss from Operations and Other Comprehensive Income or Loss. Net Loss from Operations recognizes the ineffective portions of fair value changes of financial hedging instruments (labelled "Hedge ineffectiveness loss"). Other Comprehensive Income or Loss recognizes the effective portions of both, the realized and unrealized, fair value changes of financial hedging instruments. The unrealized fair value changes are not amortized until the hedging instrument matures, at which time the fair values convert to realized changes and are amortized through borrowing costs, over the term of the debt assumed and accounted for in the accumulated hedging loss classification. During Fiscal 2014, TI Corp recorded the following changes in its accumulated hedging loss:

Accumulated Hedging Loss (\$000's)	March 31, 2014	March 31, 2013
Beginning balance	\$ 177,138	\$ 117,294
Additions	64,075	68,392
Amortization	(21,796)	(8,548)
Ending balance	<u>\$ 219,417</u>	<u>\$ 177,138</u>

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

The Hedge Ineffectiveness Loss, being the ineffective portion of fair value changes of the hedging instruments for Fiscal 2014 is \$Nil (2013 – \$78,000). The effective portions of fair value changes of the hedging instruments for Fiscal 2014 are recorded as follows (in \$000's):

	March 31, 2014	March 31, 2013
Unrealized Effective Hedging Loss		
Swap 1	\$ -	\$ (17,071)
	-	(17,071)
Realized Effective Hedging Gain (Loss)		
Swap 2	-	(11,852)
Swap 1	8,420	-
	8,420	(11,852)
	\$ 8,420	\$ (28,923)

18. SHARE CAPITAL AND CONTRIBUTED SURPLUS

	March 31, 2014	March 31, 2013
Share capital	\$ 100	\$ 100
Contributed surplus	149,999,900	149,999,900
	\$ 150,000,000	\$ 150,000,000

Authorized share capital as stated in the *Transportation Investment Act*, is one share with a par value of \$100, issued to the Minister of Transportation and Infrastructure.

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

19. RELATED PARTY TRANSACTIONS

TI Corp is related through common ownership to all Province of British Columbia ministries, agencies, Crown Corporations and all public sector organizations that are included in provincial Government Reporting Entity ("GRE"). A portion of the Corporation's suppliers are from within the GRE. Transactions with related parties are in the normal course of operations and are measured at the exchange amount, as determined through negotiations between these parties. The following is a list of the related parties and the nature of transactions with TI Corp:

Name of Related Party	Relationship	Nature of Transactions
Ministry of Finance	Parent	Debt financing and hedging instruments
Ministry of Transportation and Infrastructure	Parent	Technical services
BC Transportation Financing Authority	Associate	Occupy and use land and buildings
Partnerships BC	Associate	Administrative services
Ministry of Justice, Legal Services Branch	Associate	Legal services
BC Hydro	Associate	Utilities
ICBC	Associate	Services, vehicle look-up and insurance claim settlements
Public Service Agency	Associate	Employee benefits

The following shows the total amounts transacted with each related party as well as the outstanding balances at year end:

Related Party Transactions (in \$000's)	Amount Transacted During		Outstanding Balance At	
	Fiscal 2014	Fiscal 2013	March 31, 2014	March 31, 2013
Minister of Finance	\$ 765,249	\$ 912,947	\$ 33,593	\$ 29,652
BC Ministry of Transportation and Infrastructure	20,896	18,558	10,024	4,095

Investment property depreciation (note 10)	2	2
Depreciation reclassification	-	98
	<u>\$ 34,000</u>	<u>\$ 8,003</u>

22. BORROWING COSTS

Borrowing Costs (in \$000's)	Capital Portion		Operating Portion	
	March 31, 2014	March 31, 2013	March 31, 2014	March 31, 2013
Interest and fees	\$ 20,199	\$ 69,401	\$ 97,529	\$ 23,645
Premium/Discount amortization	(2,090)	(5,674)	(10,631)	(1,608)
Hedge amortization	3,648	5,669	18,148	2,880
	<u>\$ 21,757</u>	<u>\$ 69,396</u>	<u>\$ 105,046</u>	<u>\$ 24,917</u>

23. WAGES AND BENEFITS

The total wages and benefits included in the Statement of Operations and Other Comprehensive Income (Loss) for Fiscal 2014 is \$3.0 million (2013 – \$2.4 million). Compensation to key management has increased due to filling two positions during the year and is comprised of the following:

Key Management Personnel (\$000's)	March 31, 2014	March 31, 2013
Executive and Board compensation	\$ 568	\$ 385
Executive short term benefits	28	9
Executive post-employment benefits	7	-
Executive termination benefits	-	172
	<u>\$ 603</u>	<u>\$ 566</u>

24. DEFERRED REVENUE

Deferred revenue is comprised of customers who, at the end of the fiscal year, have a tolling credit balance in their account to be applied to future crossings.

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

25. CONCESSION AGREEMENT

TI Corp, Ministry of Transportation and Infrastructure (Ministry) and the BCTFA entered into a CA, dated March 10, 2010. The CA governs the duties, rights and responsibilities of each party with respect to the design, construction and tolling of the Port Mann Bridge and the surrounding highway infrastructure. The expiry date of the CA is March 14, 2090 and the tolling term expires on March 14, 2050.

TI Corp's duties as defined under the CA include:

- Manage and finance the construction of the Project.
- Undertake the ongoing operations, maintenance and rehabilitation of the Concession Highway.
- Develop and operate a tolling system during the tolling term.
- Collect and retain toll revenue.
- Maintain ownership of acquired capital assets.

Province's obligations as described in the CA include:

- Grant licenses and rights to TI Corp to permit the operation of a concession.
- Take possession of the capital assets at end of term.
- Permit the use of existing land and infrastructure.

BCTFA duties as defined under the CA include:

- Grant licenses for use and occupation of lands by TI Corp.

26. COMMITMENTS

Commitments (in millions)	Operational	Capital
	Commitments	Commitments
Fiscal 2015	\$ 22	\$ 113
Fiscal 2016	15	1
Fiscal 2017	15	-
Fiscal 2018	14	-
Fiscal 2019	14	-
Beyond	-	-
	<hr/>	<hr/>
	\$ 80	\$ 114

Included in Fiscal 2015 is a commitment to BC Ministry of Transportation and Infrastructure, a related party, totaling \$25 million (\$2 million to operational and \$23 million to capital). Although TI Corp has no additional significant contracts in effect at March 31, 2014, the Corporation may have a requirement to engage contractors in the future for continued operational purposes.

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

27. CAPITAL MANAGEMENT

TI Corp defines capital as cash, cash equivalents, derivative contracts, contributed surplus, share capital and short-term and long-term debt.

Pursuant to Section 24.23(2)(c) of the *Transportation Investment Act*, with the approval of the Minister of Finance, TI Corp may borrow the sums of money considered necessary to carry out its mandate.

TI Corp's objective in managing its capital is to monitor its cash, debt and the use of derivative financial instruments in order to minimize its cost of capital and its exposure to credit, market, currency, interest rate and liquidity risks, and to ensure that sufficient resources are available to fund the Project and ongoing operations. To achieve this objective, management reviews its capital management approach on a continuous and ongoing basis. Cash in excess of day-to-day operational requirements is invested in interest bearing bank deposits.

During the construction phase of operations, TI Corp utilizes short-term debt to fund construction and ongoing operations. Pursuant to TI Corp's long-term debt strategy and hedging plan, its construction and operations are funded with a blend of long-term and short-term debt.

28. FINANCIAL INSTRUMENT RISKS

TI Corp is exposed to certain risks through its financial instruments.

Credit Risk

Credit risk is the risk to TI Corp that a counterparty to a financial instrument will cause a financial loss by failing to discharge an obligation. TI Corp has entered into a derivative product transactions agreement with the Minister of Finance under which the Minister, as fiscal agent for the Corporation, may enter into derivative product transactions with third parties. Provincial Government policy is that derivative transactions are entered into only with counterparties, comprising Canadian Schedule A banks with a rating from Standard and Poor's and Moody's Investors Service Inc. of at least AA-/Aa3 or A+/A1. The Province also establishes limits on individual counterparty credit exposures and monitors these on a regular basis. At March 31, 2014 and 2013, TI Corp does not have significant counterparty credit risk on its derivatives as the fair value of the derivatives is \$Nil or in a liability position.

Additionally, in accordance with the Corporation's accounting policies, revenue is recognized when it is probable that economic benefits will flow to the organization. The main criteria include the ability to measure and apply the correct fees and to be able to successfully retrieve the customer's correct billing information. Credit risk arises with respect to the ability to bill customers and the rate of collection from these customers.

Cash and trade and other receivables do not present a significant credit risk because:

- An incentive mechanism under the Tolling Operator Agreement is designed to reduce the overall credit exposure;
- The enforced payment mechanism through the insurance renewal process and/or the license renewal process; and
- Cash is held at major banking institutions with strong credit worthiness.

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

Liquidity Risk

Liquidity risk is the risk that TI Corp will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. TI Corp has been given approval to spend up to \$3.319 billion on the Project, \$3.6 billion of total debt, with funding provided through the Minister of Finance as TI Corp's fiscal agent. The Corporation has implemented a debt management plan and monitors its spending and debt through budgets, forecasts and effective management of its contracts.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk includes currency risk, interest rate risk and other price risk.

Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency exchange rates. At March 31, 2014 and 2013, TI Corp has no foreign currency debt.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows will fluctuate because of changes in market interest rates. TI Corp is exposed to cash flow interest rate risk as a result of its requirement to assume short-term and long-term debt over the period of its infrastructure development and early stages of operations. As short-term debt must be renewed on a frequent basis, interest rate increases will lead to higher interest costs. For the 2014 fiscal year, a change of 1% to the short-term interest rate would result in an estimated short-term interest cost change of \$8.3 million (2013 – \$8.9 million). TI Corp has instituted a hedging strategy to mitigate the risk of higher long-term interest rates as discussed in note 16. At March 31, 2014, all of the Corporation's long-term debt is fixed rate debt; accordingly, changes in interest rates do not impact interest payments but may impact the fair value of such long-term debt.

Other Price Risk

Other price risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices other than those arising from currency or interest rate risks. Due to the nature of TI Corp's financial instruments, the Corporation is not exposed to other price risk.

Fair Value Disclosure

Fair value is the amount of consideration that would be agreed upon in an arm's length transaction between knowledgeable, willing parties who are under no compulsion to act. As fair values are dependent on a range of inputs used in making the measurements, a fair value hierarchy has been developed to disclose the basis of measurements used.

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

TI Corp has used the following fair value hierarchy to classify financial instruments recorded at fair value on the Corporation's Statement of Financial Position:

Level 1 – quoted prices (unadjusted in active markets for identical assets and liabilities);

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices), or indirectly (derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following outlines the fair value of certain financial instruments and their associated measurement level:

Financial Instrument (\$000's)			Measurement
	March 31, 2014	March 31, 2013	Level
Cash	\$ 21,180	\$ 61,153	1
Trade and other receivables	\$ 23,585	\$ 13,102	1
Prepays and deposits	\$ 270	\$ 1,781	1
Payables and accrued liabilities	\$ 56,129	\$ 410,673	1
Current indebtedness	\$ 867,237	\$ 764,801	1
Long-term indebtedness	\$ 2,740,050	\$ 2,349,099	2
Derivative liability	\$ -	\$ 72,495	2

The valuation of cash, accounts receivable, prepaids and deposits, accounts payable, and short-term debt approximated their fair values at year end because of the short-term maturities of these instruments. Long-term debt is valued on the Statement of Financial Position at its amortized cost using the effective interest rate method. The Ministry of Finance for British Columbia provides the fair value at year end.

The carrying value for derivatives hedging instruments which are over the counter instruments is established by use of discounted cash flow valuation models. The valuation models use market observable data for future interest rates in the estimation of fair value. The discount rate is based upon a risk free rate with a credit valuation adjustment for entity level or counterparty credit risk depending on whether the derivative is in an asset or liability position respectively. As TI Corp does not have an entity level credit rating the credit valuation adjustment takes account of credit rates for similar entities using market observable data where possible.

29. EMPLOYEE BENEFIT PLAN

In Fiscal 2010, both TI Corp and its employees commenced contributions to the Public Service Pension Plan (the "Plan"), a jointly trustee pension plan. The Public Service Pension Board of Trustees, representing plan members and employers, have oversight responsibilities for the management of the Plan, including investment of the assets and administration of benefits. The Plan is a multi-employer contributory defined benefit pension plan that shares risk between various entities.

The Corporation does not account for its participation in the multi-employer plan as a defined benefit plan because the Corporation does not have access to information about the plan that would enable the Corporation to record its share of the obligations of the plan, plan assets and costs of the plan. In addition, the plan exposes the participating entities to actuarial risks associated with the current and former employees of other entities, with the result that there is no consistent and reliable basis for allocating the obligation, plan assets and costs to individual entities which participate in the plan. Accordingly, the participation in the plan is accounted for using

Transportation Investment Corporation

Notes to the Financial Statements

For the year ended March 31, 2014

defined contribution accounting requirements. The Corporation accrues expenses for contributions which are contractually due as at the reporting period date to the plan for past service based on the contribution funding schedule of the Plan.

At March 31, 2014, the Corporation has approximately 30 employees contributing to the Plan which has more than 110,000 active and retired plan members.

Every three years, an actuarial valuation is performed to assess the financial position of the Plan and the adequacy of plan funding. The latest approximate valuation, as at March 31, 2013, indicated the basic account had assets of \$21.2 billion and liabilities of \$20.2 billion. The next valuation is due at March 31, 2014. The actuary does not attribute portions of any unfunded liability to individual employers. Total account contribution rates in effect for the year ended March 31, 2014, as a percent of salary, are as follows:

	Employee	Employer
Below year's maximum pensionable earnings for CPP	7.93%	9.43%
Above year's maximum pensionable earnings for CPP	9.43%	10.93%

In Fiscal 2014, the employees of the TI Corp contributed \$147,193 (2013 – \$127,319) and the Corporation paid \$173,576 (2013 – \$150,671) in employer contributions to the Plan.

30. CONTINGENCIES

The Corporation developed a Park & Ride Station known as the 202 Street Park & Ride Project. To develop the Project, TI Corp entered into an agreement with the Township of Langley ("Township"), which specifies that for a 15 year term, the Township is responsible to collect Specified Charges from any developer who develops Benefiting Parcels that connects the storm drainage system to the retention pond, which was built as part of the Project. Further, the Township is required to remit the Specified Charges collected to the Corporation at the beginning of the next calendar year and each calendar year thereafter, the Specified Charged collected from the previous year in respect of the development of Benefiting Parcels. Because the conditions outlined above are required to be met to collect the Specified Charges, the total amount to be received is considered conditional and unknown and, therefore, meets the definition of a contingent asset. At March 31, 2014, the Corporation has received \$Nil.

In the ordinary course of business, TI Corp can become a defendant or party to pending or threatened legal actions and proceedings. It is not possible to determine the ultimate outcome of such matters; however, based on all currently available information, management believes that liabilities, if any, arising from any pending litigation will not have a material adverse effect on the financial position or results of operations of the Corporation.

31. SUBSEQUENT EVENTS

Subsequent to March 31, 2014, the Corporation received correspondence from the Receiver General for Canada on behalf of Fisheries and Oceans Canada that authorized the reduction of the standby letter of credit by \$9 million, from \$10.5 million to \$1.5 million.
