

# Gender Information Card

The Government of B.C., as of Nov. 1, 2018, allows for the following identification to display "X" in the sex field:

**B.C. Birth Certificate**

**BC Services Card**

**B.C. Driver's Licence**

**BC Identification Card**

This information card is provided to offer clarification to businesses, organizations and other government entities to affirm the validity of the "X" on the above identification.

This change aligns with emerging national and international standards as established by organizations including Passport Canada (<https://www.canada.ca>) and International Civil Aviation Organization (<https://www.icao.int>).

If you have further questions, please visit the B.C. government website at [gov.bc.ca/bcservicescard](https://gov.bc.ca/bcservicescard).
