

I want a copy of my application

You may want to a copy of your application for future reference. Unfortunately, the system does not currently allow you to save a copy for your own reference.

However, you can save completed individual web pages as you move through the process:

1	At each webpage and before you click the  button in the bottom right hand corner, you can click the  in the top right hand corner of the webpage.
2	Next, click 
3	Now click the Save button in the print preview 
4	Next, you can name the document and save it in a location of your choice for future reference. 

After completing the application process a confirmation web page will be displayed with your application number. **Please keep a copy of the number for future reference.** The above process may be helpful for making that record.
