BC Cranberry Marketing Commission

Public Accountability and Reporting Project (PARP) 2019 Reporting Period

Section 1: Sector Performance Targets

Table 1.1

1.1 Sector Performance Targets Template

* <u>All commodity boards and commissions</u> are to identify between 3-5 board targets/goals that you think best demonstrate the strategic priorities and future direction of your sector.

* Some or all targets/goals may already be part of your strategic plan.

Target	Target description	Target status
1. BC Aggregate Production increases year over year	Cranberry production is highly variable due to weather events in BC; however progressive growers are adopting new varieties and implementing management practices to achieve the best production they can in a given year. 2018 was an exceptionally good year.	2019 production was 631,045 barrels the lowest in 8 years due to perennial bearing, winter damage, and harvest frost. Expectation was 1,000,000 barrels.
2. Yield per acre over number of planted acres	Perhaps more important than overall barrels produced is an increase in yield. 2018 had a yield of 211 barrels per planted acre. As noted above 2019 was a very difficult year for producers.	Yield per acre was 94.78 barrels for total planted acres in 2019.
3. Number of education sessions (and number of attendees)	As producers learn more about beneficial production practices they can produce higher quantity and/or quality berries, receiving higher incentives.	There were four events in 2019: Cranberry Congress (65 attendees); Field Day (120 attended); Spring Open House (16 attended) Fall Drop in (no attendance taken).
 Number of industry research projects coordinated in part with the BCCMC 	The BCCMC Research Committee determines research priorities, issues a request for proposals and adjudicates research projects annually.	In 2019, the BCCMC approved 4 research projects.
5. Confirmation all registered producers adhere to a pest management program	All Registered producers must comply with Canadian Pesticide regulations. Producers submit their records to agencies if delivering to an agency, producer vendors submit their records for self marketed berries directly to the commission. The agency confirms adherence for their producers.	All agencies and producer vendors were compliant with pesticide regulations in 2019.

Section 2: Governance

Tables 2.1 - 2.5

* Effective, strategic and accountable delivery of legislated regulatory responsibilities by boards requires good governance and sound decision-making. * All commodity boards are to complete tables 2.1, 2.2, 2.3, 2.4, and 2.5.

* Fill in the Comments/Examples column with a brief description and/or web link and/or evidence/examples.

noted in the Natural Products Marketing (BC) Act Regulations 3(m) a ajority constitutes a quorum for decision making y conflicts of interest disclosures and recusals are recorded in the nutes. The minutes are sent to FIRB upon final BCCMC approval. processes apply equally to any persons under the scheme in that group class, all forms are transparent and available on the website, the ocesses are reviewed annually to ensure they are effective and strategic in ation to the strategic plan or matter to be decided. e only major decision with respect to marketing policy was late in the ar in providing exemptions to producers whose fruit was rejected from e agency and was delivered to a producer vendor. The minutes reflected e decision process and the stakeholders were made aware of this in the cember quarterly newsletter to all producers and stakeholders. An tline of the SAFETI principles and approach for this issue was sent to FIRB. e time of the knowledge of the issue to resolution was within one month th publication of the results within 10 business days.

Assessment of focus of appeals and supervisory reviews. Assessment of what triggered appeal(s) and/or reviews. Lessons learned (process and sound marketing policy outcomes).

Section 3: Sector Summary Part 1

Tables 3.1 - 3.6

Sector Basics

* <u>All commodity boards</u> are to complete the tables in Section 3, providing the following definitions and statistics.

* Examples are included in italics. Please delete when filling in your own stats and information.

Table 3.1 Reporting Time Period

Define the start and end date of the period being reported on their PARP report.

F	Reporting Period
Start date of reporting period	01-Apr-19
End date of reporting period	31-Mar-20

Table 3.2Producer Size Definition

Create producer size categories based on production volume or quota units that are relevant to the sector

Prod	ucer Size Definitions
Small Producer	Less than 35 acres
Medium Producer	Between 35 and 100 acres
Large Producer	More than 100 acres

Table 3.3 Production Type - no categories

Define the major production types within the sector, and provide a brief explanation for each.

Produc	ction Type Definitions
Production Type	Explanation
[Туре 1]	
[Type 2]	
[Type 3]	
[Туре 4]	

Table 3.4 Production Measurement

Define the units of measurements used in the sector to measure production volume, and quota if applicable.

Production	Measurement Definitions
Quota Unit	no quota
Production Unit	barrels (100 lbs)

Table 3.5 Estimated Farm Cash Receipts

Report the total farm cash receipts of all production in B.C. in the reporting period.

Total Farm Cash Receipts	
\$25.500.104 (est)	

Table 3.6 Producer-Vendors - license

Producer Vendors are growers that are engaged in the production and marketing of the regulated product other than to a designated agency

Total Production Volume

* All commodity boards are to use these tables to report the amount of the commodity produced in B.C. over the full reporting period. * Statistics are to be broken down by the total volume of the commodity that was produced, in each category in each region.

* Total production volume is to be the same across tables 3.10, 3.11, and 3.12. * Supply managed boards are to report production volume per the table below:

Table 3.10 Total Production by Producer Type and Region

Producer type	L.M.	V.I.	Interior	North	Total Production
Established Producers	401,866	20,725	-	-	422,591
New Producers	204,035	5,007	-	-	209,042

Section 4: Quota Management & Movement Part 2

Tables 4.4 - 4.9

Quota Transfers

* Use tables 4.4 to 4.9 to report on all quota transfers between producers, or applicable going concern sales. 🛛

* Quota issued by boards is reported in tables 4.18, and 4.12-4.14.

* On August 7, 2019 BCFIRB amended its quota transfer directions to the Milk Board to allow for assessment free transfers of quota to non-family members off the quota exchange under specific conditions. A condition of the amendment was that the Milk Board is to report annually via PARP on the amount of quota being transferred off the Exchange, broken down by family transfers and non-family transfers.

* On September 13, 2019, BCFIRB extended the PARP reporting requirement for separating out non-family/family quota transfers to all supply managed boards, regardless of whether there is a quota exchange.

Table 4.4 Quota Transfer Restrictions

* Use this table to report on any quota transfer restrictions (excluding BCFIRB directed restrictions) that affect how quota is transferred (e.g., regional movement restrictions).

Transfer Restrictions
