## Section 1: Sector Performance Targets

### 1.1 Sector Performance Targets Template

\*All commodity boards and commissions are to identify between 3-5 board targets/goals that you think best demonstrate the strategic priorities and future direction of your sector.

\*Some or all targets/goals may already be part of your strategic plan.

\*Include an update on the targets set in the previous reporting period, unless those targets are met.

\*Target status: Completed; In Progress; To be started

\*Use hyperlinks to provide supporting references where appropriate

For further information or examples of how to fill out the tables, refer to the PARP Templates and Reporting Guide document BCFIRB has provided

Target	Target description	Target status	Timeline
Establishing a new Strategic Framework for the Industry (previously "Build a joint BCBHEC-BCCMB industry framework")	The Commission will finalize its Pricing Decision as part of the Chicken Industry Pricing Supervisory Review. This will include COP finalization, mechanisms and efficiencies, hatchery margin, breeder chick costs and vaccine costs via a vaccine schedule.	In progress	2020-2022
Pricing & COP Review	BCBHEC is committed to the review of all pricing matters, such as the Linkage Agreement, hatching egg Cost of Production, hatchery margin, fowl and a Western Pricing Initiative with the three other western provinces.	In progress - Overall pricing file continues to be part of BCFIRB's Pricing Supervisory Review.	2020-2022
Quota Management - Review of Quota System	Review of BCBHEC's quota policies with respect to the Quota Assessment Tools Supervisory Review issued by BCFIRB. Determine if policies require change (e.g. 10/10/10, LIFO, New Producer Program, growth and utilization of quota, regional diversification and 80/20).	To be started	2021-2022
SE Mitigation Strategy Development and Implementation	The Commission will work in conjunction with Canadian Hatching Egg Producers and other stakeholders in developing a provincial SE mitigation strategy, and implementing the strategy. An integral component will be sourcing an insurance option on these long-life flocks.	Strategy - Completed Implementation - In progress	2020-2022
<b>New</b>			
Quota Management - Specialty (Asian Breeders) Production Management.*	The Commission will continue discussions and work alongside Regularized Producers to establish a Cost of Production pricing framework, a separate allocation by Canadian Hatching Egg Producers, continued production reporting, and production controls and reporting.	In progress	2021-2023

\* Purpose: to specifically identify Specialty production COP and allocation -- it is related to/an extension of the "Quota Mgmt - Review of Quota System" and "Pricing & COP Review" above.
