Section 1: Sector Performance Targets

Section 1: Sector Performance Targets

1.1 Sector Performance Targets Template

*All **commodity boards and commissions** are to identify between 3-5 board targets/goals that you think best demonstrate the strategic priorities and future direction of your sector.

*Some or all targets/goals may already be part of your strategic plan.

*Include an update on the targets set in the previous reporting period, **unless those targets were marked as complete in the previous report.**

*Target status: Completed; In Progress; To be started

*Use hyperlinks to provide supporting references where appropriate

Target	Target description	Target status	Timeline
Complete a strategic plan and performance targets for the next three years.	Develop a collective understanding of the internal and external environment in which the BCMVC is operating. Build consensus on strategic direction and renew the Commission's strategic framework. Identify key priorities and action steps. Provide a high-level strategic plan.	The 2021-23 strategic plan was completed in early 2021. Key strategic priorities were developed and discussed implications for the industry. Continue to engage stakeholders to review accomplishments, strategic priorities, performance against key indicators, and validation of the established work plan.	2021-23
Restructure the Commission to add independent Commissioners	Amend the vegetable marketing scheme to allow for the appointment of non-producer representatives to the board. Restructure the Commission to enhance diversity of expertise and experience and the ability to maintain quorum when members are required to recuse themselves due to an actual or perceived conflict of interest.	Effective July 31, 2021 the British Columbia Vegetable Scheme, B.C. Reg. 96/80, was amended to allow for two members who are not commercial producers to be appointed by the Commission using a merit-based selection process approved by BCFIRB. By December 2021 the Commission appointed two independent members. Any individual who is a director of a designated Agency of the Commission is not eligible for election or office as an elected member.	2021
Governance	Build structure and capacity. Continuity and consistency of Commission and Management. Discuss best practices and trends in governance with the view to incorporate them into the Commission's governance structure. Develop Committee structure and terms of reference. Develop skills matrix and strategy to get members interested in serving on the Commission.	Governance and finance committees have been established in addition to restructured advisories. Completed skills matrix and implemented as part of the merit-based process established to appoint independents to the Commission and members to advisories.	2021-23
Regulatory Improvements	Development of Agency Accountability Framework: Agencies licensed by the Commission are very much true "agents" of the Commission, and they exist to further the Commission's objectives of orderly marketing, and the maximization of producer returns through coordinated marketing. It is the Commission's responsibility to ensure that designated agencies and agency applicants are provided with clear and understandable rules that reflect the Commission's policy objectives. Furthermore, the Commission must ensure that its designated agencies are accountable to the Commission in order to ensure that the Commission's policy objectives are served by their actions.	Effective in 2021, Amending Order No. 54 to PART XIV Designated Agencies of the General Order permits new agency applicants to submit applications that precisely address the relevant considerations that clearly convey the Commission's policy objective of promoting the interests of the industry as a whole through coordinated marketing that will maximize the returns to all producers. These considerations are also applied to the review of existing Agencies and set the foundation on which the agency accountability framework is to be developed.	2021-23
Establish a governance operating model for Agencies	The BCMVC sub-delegates marketing authority to licensed Agencies whose regulatory role is to market regulated product on behalf of registered producers. Agencies exist to further the Commission's objectives of orderly marketing and maximizing producer returns through coordinated marketing. The governance operating model provides for a clear understanding of 1. the Commission's oversight, 2. expectations on operating processes, business structure, management systems, 3. culture 4. performance standards, and 5. reporting requirements of Agencies.	This target was adjusted and reformatted as the Performance Target: "Regulatory Improvements"	NA
Add Clarity to the rules in the General Order that address access to the market by Storage Crop Agencies	Delivery allocation is applied to storage crops to manage the flow of product to the market and make it possible for fair and equitable sharing of market access amongst all producers. It is a mechanism that provides for orderly marketing by allocating production. Designated Agencies are responsible for managing delivery allocation of each of their Producers. Growth ambitions of any particular Agency must take into account the collective view of market growth and expansion opportunities.	Delivery Allocation Policy has been implemented. Further development of policy is in process for the 2023-24 crop year.	2022-24

Table 2.4 Decision Making

	Indicator	In place/ In progress/ To be started	Comments/Examples
Requirements	Quorum confirmed prior to decision making	In Place	All decisions by the board are made with quorum. Two civil suits filed against specific Commissioners and the General Manager have made it difficult to attain quorum on certain matters before the Commission.
	Conflict of interest disclosure and recusals recorded	In Place	Included on meeting agenda, and recusals are recorded in the minutes.
Process	Processes are fair, inclusive, transparent, effective and strategic based on the matter to be decided.	In Place	The Commission refers to its S.A.F.E.T.I. guidance document when developing the process, and engages an evidence based approach to decision making.
Outcome	Full rationale published for major decisions (e.g., including demonstrated application of consultation, market and other necessary information to reach sound marketing policy outcomes; demonstrated use of SAFETI in process & outcome)	In Place	All major decisions are published on the BCMVC website.
	Prompt timing, delivery and publishing of decisions	In Place	Continual review of office procedures to ensure decisions are communicated timely and appropriately.

Table 2.5 Decision Assessment

Assessment of focus of appeals and supervisory reviews. Assessment of what triggered appeal(s) and/or reviews. Lessons learned (process and sound marketing policy outcomes).

Decision Assessment
Ongoing management of reasonable apprehension of bias and conflict of interest amongst elected commissioners. The Commission restricts commercial producers who are directors of agencies from holding a member position on the Commission. Advisories are engaged for retaining access to industry knowledge and expertise. In addition to the advisory groups, the current structure of the Commission has changed to include two independents who are not commercial producers.

Section 3: Sector Summary Part 1

Tables 3.1 - 3.7

Sector Basics

* **All commodity boards** are to complete the tables in Section 3, providing the following definitions and statistics.

* *Examples are included in italics. Please delete when filling in your own stats and information.*

Table 3.1 Reporting Time Period

Define the start and end date of the period being reported on their PARP report.

Reporting Period	
Start date of reporting period	<i>January 1, 2021</i>
End date of reporting period	<i>December 31, 2021</i>

Table 3.2 Production Measurements Defined

Define the units of measurements used in the sector to measure production volume, and quota if applicable.

Production Measurement Definitions	
Production Allocation	<i>Market access tool for Greenhouse Production: square meters of greenhouse space (M2)</i>
Delivery Allocation	<i>Market access tool for Storage Crops: tons of storage crops (Tons)</i>

Table 3.3 Regulated and Supply Managed Products Defined

*For all commodity boards: Define the regulated product(s)

*For regulated boards: Identify production volume (and crop type and/or other factor if applicable) where a licence is required (e.g. cranberries - > 2 acres)

*For supply managed boards: Identify production volume for personal exemption; small lot permit or small lot type program; and, volume where quota required.

Regulated Definition
<i>"Regulated Area" means that part of the Province south of the 53rd parallel north, including Vancouver Island and the Gulf Islands and excluding the Queen Charlotte Islands.</i>
<i>"Regulated Product" / "Regulated Vegetables" means the crops listed on Schedule II of the General Order that were grown within the Regulated Area. (see Table 3.4 production definition types)</i>
<i>"Producer" means a Person who operates a Farm on which one tonne or more of the Regulated Product has been produced during the immediately preceding 12 months and includes a Producer who is producing Regulated Product that has been certified as organic.</i>

Section 3: Sector Summary Part 1

Tables 3.1 - 3.7

Table 3.4 Production Type Definitions

Define the major production types within the sector, and provide a brief explanation for each.

Production Type Definitions	
Production Type	Explanation
Greenhouse (Organic and Conventional, for fresh and processing use)	Means an enclosed structure where a regulated vegetable is grown. Regulated vegetables include tomatoes (all types) , peppers (all types), cucumber (all types), and lettuce ("Lettuce" means 'Any of various Lettuce plants, cultivated in a greenhouse for its edible non-bitter leaves. Included cultivar groups are: Iceberg (Crisphead), Summer Crips (Batavian), Romaine (Cos Lettuce), Butterhead (Butter Lettuce), Loose-Leaf.').
Storage Crops (Organic and Conventional, for fresh and processing use)	Means Beets (tops off), Green Cabbage, Red Cabbage, Carrots (tops off), Parsnips, Potatoes (all types, varieties), Rutabaga, White (purple top) turnips, Yellow onions, and any other crop designated by the Commission
Processing Crops (Organic and Conventional, only for processing use)	Includes peas, beans, corn, cauliflower, broccoli, brussels sprouts, strawberries, potatoes, and any other crop designated by the Commission that are destined for processing or manufacturing.

Table 3.5 Producer Size Definitions

Create producer size categories based on production volume or quota units that are relevant to the sector

Producer Size Definitions	
Greenhouse	
Small Producer	Less than or equal to 6,000 M2
Medium Producer	Greater than 6,000 and less than 60,000 M2
Large Producer	Greater than or equal to 60,000 M2
Storage Crops & Processing Crops	
Small Producer	Less than or equal to 200 Tons
Medium Producer	Greater than 200 and less than 1,000 Tons
Large Producer	Greater than or equal to 1,000 Tons

Growth Quota

* Use these tables to report any growth quota issued to producers due to an increase in overall quota holdings in B.C. that occurred during the reporting period.

* Statistics are broken down by established and new producers, and the number of producers who received quota within each category and the volume of growth quota they received.

For further information or examples of how to fill out the tables, refer to the PARP Templates and Reporting Guide document BCFIRB has provided

4.10 Growth Quota Basic Information
