Reporting Project (PARP)
2023 Reporting Period

Section 1: Sector Performance Targets

Table 1.1

1.1 Sector Performance Targets Template

***All commodity boards and commissions** are to identify between 3-5 board targets/goals that you think best demonstrate the strategic priorities and future direction of your sector.

*Some or all targets/goals may already be part of your strategic plan.

*Include an update on the targets set in the previous reporting period, **unless those targets were marked as complete in the previous report.**

*Target status: Completed; In Progress; To be started

*Use hyperlinks to provide supporting references where appropriate

For further information or examples of how to fill out the tables, refer to the PARP Templates and Reporting Guide document (pg 4-5) BCFIRB has provided

Target	Target description	Target status	Timeline
All BC chicken growers are required to be certified and retain annual certification in the National CFC Animal Care Program (ACP) and On-Farm Food Safety (OFFSP) programs.	Chicken Farmers of Canada (CFC) require all Canadian Provinces to participate in the CFC ACP and CFC OFFSP programs. Through BCCMB Field Service Representatives annual audits are performed on-farm for all registered chicken farms. These programs continue to encompass all the requirements formerly found in the Mandatory BC Bio-security Program which the Board eliminated to avoid duplication.	The Board deemed the continuation of on-farm audits effective March 2023, but were unfortunately delayed again in November 2023. 100% of audits in Interior and Vancouver Island regions were completed in 2023. 78% of audits in the Fraser Valley region were completed.	Due to AI pressures again in October 2023, on farm audits were once again suspended by the Board, with the intention to resume in early 2024. Records audits were undertaken to replace on-farm audits due to bio-security concerns. 58 audits in the Lower Mainland region were not completed in 2023. Estimated completion date is in the first quarter of 2024.
Achieve 100% utilization of BC's share of the CFC National Allocation on a cycle-by-cycle basis	The BCCMB works to ensure its policies and regulation enable BC chicken growers to produce 100% of our share of the national chicken allocation; allows BC chicken value chain to produce its share of the annual market for Canadian chicken.	BC produced 98.4% of its periodic allocation in 2023 (an increase from last year of 1.85%). The target was not met due to continued AI outbreaks causing continued shortages of hatching eggs and the destruction of product on 17 infected premises (7 specialty & 8 mainstream and 2 with both specialty and mainstream production).	A-180 to A-186
Establishing a Long Term Pricing Formula for Mainstream chicken through the BCFIRB Pricing Supervisory Review	As the first instance regulator for chicken, make a decision on a Long Term Pricing Formula (COP) after through stakeholder engagement and provide a report including rational and SAFETI to BCFIRB.	In Progress. On October 30, 2023 the BCCMB finalized its Long Term Pricing COP which was sent to BCFIRB for approval.	BCFIRB Supervisory Decision provided May 22, 2024
New Entrant Grower (NEG) Goals	Goals to be developed as part of the broader NEG Review taking place in consultation with producers.	In Progress.	Consultations to complete in 2024.

Section 2: Governance

Tables 2.1 - 2.6

*Effective, strategic and accountable delivery of legislated regulatory responsibilities by boards requires good governance and sound decision-making.

*All commodity boards are to complete tables 2.1, 2.2, 2.3, 2.4, and 2.5.

*Fill in the Comments/Examples column with a brief description and/or web link and/or evidence/examples.

*Status reporting: In place; In place & under review ; In progress; To be started.

For further examples of how to fill out the tables, refer to the [PARP Templates and Reporting Guide document BCFIRB has provided](#)

Table 2.1 General Governance Tools and Related Regulatory Requirements

	Indicator	In place/ In progress/ To be started	Comments/Examples
Planning and reporting	Strategic Plan	In Progress	Development and industry consultation pushed to January 2024 and finalized in April 2024.
	Annual Report	Completed	Circulated electronically to industry 2 weeks prior to AGM
	Annual General Meeting	Completed	Poultry Conference held in-person March 8th at the Coast Langley City Hotel and Convention Centre
	Copies of all minutes, orders, reports, rules & regulations forwarded to BCFIRB as they are made	In Place	SOP to forward to BCFIRB within 3 days of approval.
Rules	Consolidated Orders up to date & published	In Place	Amendments posted on website and emailed to industry
	BCFIRB approved election rules	In Place	Revision completed and approved by BCFIRB on August 15, 2023.
Board and staff	Current member job descriptions	In Place	Revised as required.
	Member orientation (e.g., mandate, role, responsibilities, regulatory framework, governance)	In Place	Reviewed by BCCMB as required.
	Member training (e.g., role of officers, ethics, conflict of interest, fiduciary duties, decision-making practices)	In Place	Ongoing. Board regularly attended COGA sessions. Board finding new sources with cessation of COGA sessions in 2024
	Staff orientation and training plans	In Place	Ongoing and amended as required. Continuing Education Programs supported by BCCMB
	Member and staff succession plan as applicable	In Place	Updated as required.
	Member performance evaluations (annual)	In Place	Conducted by BC COMB. SOP that Chair's evaluation provided to BCFIRB.
	Staff performance evaluations (annual)	In Place	Completed annually by managers and ED prior to year-end. ED evaluation conducted by Chair and Vice Chair. EA's evaluation conducted by ED in June.
Accountability	Member code of conduct signed	In Place	Mandatory for each new Board member prior to commencement of duties. Part of Onboarding process.
	Member conflict of interest signed and updated annually	In Place	Mandatory for each new Board member prior to commencement of duties. Part of Onboarding process.
Transparency	Governance and operational policies and controls up to date and public	In Place	On website. Updated annually as required.

Table 2.2 Financial Accountability and Related Regulatory Requirements

	Indicator	In place/ In progress/ To be started	Comments/Examples
Financial statements	Auditor appointed in accord with Scheme requirements (if applicable)	In Place.	New external auditor Manning Elliott in place (2023-2028) after successful RFP.
	Audited financial statements (annual)	In Place	BCCMB received clean audit report for 2023 from Manning Elliott
	Financial statements presented in annual report and at annual general meetings	In Place	2023 financial statements presented at March 8, 2024 in-person AGM.
Member expenses	Up to date approved member remuneration and expense policy consistent with legislation (where applicable)	In Place	Policy reviewed as required. Last updated in 2021. COMB survey occurs annually of all commodity boards.
Controls	Accounting practices are in accord with legislation and published standards	In Place	Management report provided to Board annually by external auditor. Policies found in Board Policy Manual.
	Internal financial controls are in place, and reviewed by auditors	In Place	No management letter issues - no areas of concern.
	Senior staff engaged with budget development & approval	In Place	Senior staff --> Finance Committee --> Board for final approval
Accountability	Operational, program and other expenditures using levies collected under the NPMA are in accord with purposes of the Scheme.	In Place	Scheme, NPMA, and BCFIRB Rainbow Decision used as guidance documents. Budget for upcoming year provided in Annual Report
	Financial accountability processes and policies in place with producer associations and other organizations that receive funding from boards to carry out delegated responsibilities under the NPMA .	In Place	Funding and Use Report from BCCGA published in BCCMB Annual Report. Quarterly review of BCCGA finances by Board Finance Committee.

Table 2.3 Communication and Consultation

	Indicator	In place/ In progress/ To be started	Comments/Examples
Communication	Active industry communication plan or strategy	In Place	E-newsletter circulated twice a month and other communique emails to industry as required.
	Crisis management communication plan or strategy	In Place	Designated media spokesperson in place. Plan in place and up-to-date.
Consultation	Consultation, as appropriate and meaningful, with stakeholders (e.g., producers, supply chain, BCFIRB, Ministry of Agriculture, national agencies) to address sound marketing policy and public interest questions.	In Place	PPAC, SMAC, BC representation at CFC, COMB, DEPI and ad hoc committees. Board and/or staff conducted weekly calls with CFIA and EOC and Ministry during AI as necessary.
	Stakeholder feed back actioned where appropriate (e.g., policy or program development)	In Place	BC COMB undertakes annual satisfaction survey of BCCMB. Conducted in fall.
Evaluation	Avenue for regular stakeholder feedback on board operations, processes, policies and communications.	In Place	Quarterly meetings with BCCGA and PPPABC. Board members/ED attend regional grower meetings whenever possible (monthly or every 2 months). BCCMB "townhalls" via Zoom or in person when required.

Table 2.4 Decision Making

	Indicator	In place/ In progress/ To be started	Comments/Examples
Requirements	Quorum confirmed prior to decision making	In Place	Chair confirms prior to commencement of each Board meeting; is noted in the minutes.
	Conflict of interest disclosure and recusals recorded	In Place	As above; recusals if any are noted in the minutes.
Process	Processes are fair, inclusive, transparent, effective and strategic based on the matter to be decided.	In Place	All decisions posed through SAFETI lens. SAFETI's posted on website (Schedule 15's) as necessary.
Outcome	Full rationale published for major decisions (e.g., including demonstrated application of consultation, market and other necessary information to reach sound marketing policy outcomes; demonstrated use of SAFETI in process & outcome)	In Place	SAFETI's posted on public side of website; noted in electronic newsletter with link to website.
	Prompt timing, delivery and publishing of decisions	In Place	See website and e-newsletter.

Table 2.5 Decision Assessment

Assessment of focus of appeals and supervisory reviews. Assessment of what triggered appeal(s) and/or reviews. Lessons learned (process and sound marketing policy outcomes).

Decision Assessment
<p>B&L Poultry Ltd appeal of OM levy for quota period A-180. The Board's decision was to not waive, forgive or grant relief. The hearing was scheduled for November 15, 2023 with a FIRB decision pending in 2024. The Board is looking for FIRB to uphold the 2003 Sunset Shiell FIRB decision.</p> <p>K&M Farms appealed a letter of the Board in which the Board refused to revisit a decision of January and March 2023 respecting a request to lease a premise for pastured production. As no appeal was filed within the 30 day requirement of the Board's original decision, the Board sought to have the appeal summarily dismissed. In October, K&M requested an adjournment of the proceedings as a result of the draft land ownership proposal from the Board, and the Board agreed to postpone the appeal until further notice. The Board's Land Ownership decision will be forthcoming come March 2024 after the consultation of industry and review by legal counsel. Of note: the CVO order remained in place, ordering all birds remain indoors until June 2024.</p> <p>Long Term Pricing Supervisory Review - see Table 1.1 -- Decision made May 22, 2024.</p>

Table 2.6: Compliance and Enforcement Process for Mandatory Biosecurity Program(s)*

	Indicator	Details
Mandatory Biosecurity Program(s) *Note: "Biosecurity Program" includes food safety, animal welfare, and disease-prevention measures	Mandatory biosecurity program(s) for the commodity	BCCMB General Orders -Part 32 - On-Farm Food Safety Assurance Program (OFFSAP), Animal Care Program (ACP) are BCCMB 2 Mandatory Programs, BCCMB General Orders- Part 30- Chronically Underperforming Growers, BCCMB General Orders - Part 31 - Disaster Flocks, BCCMB General Orders - Part 36- Transfer of Quota with Registered Premises, BCCMB General Orders - Part 42 - Lease of Quota with Registered Premises, BCCMB General Orders - Part 46 - Restrictions on Leases, Transfers, Sales and Relocations of Quota, BCCMB General Orders - Part 52 - Failure to Comply
	Number of farms audited (per program, if applicable)	BCCMB conducted 282 On-farm Food Safety (OFFSP) Audits and 282 Animal Care (ACP) Audits - 340 audits to conduct - 58 audits that could not be conducted due to Avian Influenza. (This is the first year ever that any audits were missed for any reason. Missed audits are prioritized the following year). - 340 minus 58 = 282 audits required - 282/282=100% of required audits of accessible premises completed. Additional Information Note, the following premise numbers do not match the audit numbers because multiple premises that are part of the same farm are audited at the same time and count as one audit. 385 Premises to audit\ 72 unable to audit due to AI\ 385 - 72 = 313 313 Premises audited = 100% of required and accessible premises completed.
	Type of audit(s) conducted per program (i.e. on-farm, paper, or other)	On-farm audits, records/self-declaration audits (paper)
	Type of auditor for each program, if applicable (i.e. commodity board staff, third party, or other)	Commodity board staff. Auditing staff are third party audited as well.
	Total Number of biosecurity program infractions (ie. non-compliant with program standards - all program areas)	In 2023 we had 350 biosecurity infractions or corrective actions (CAR's)
	Top 3 infractions from audits (non-compliant with program standards - all program areas/each program)	
	1st	Both On-farm Food Safety and Animal Care Program - Annual water tests completed and passed.
	2nd	Both On-farm Food Safety and Animal Care Program - SOP's and Flock Specific Records Form accessible for the audit
	3rd	Both On-farm Food Safety and Animal Care Program - Current version of the program manual being used.
	Compliance and Enforcement Process	Number of infractions that were resolved at each graduated stage:
Informal education & CARs		344 CAR's
1 st Warning Letter		6
Subsequent Warning Letter(s) (if applicable)		none
Sector-specific Penalties and/or AMPs		none
License/Quota suspension		none
License/Quota cancellation	none	
Transparency & Accountability	Did you make any updates or changes to the C&E process? (eg. biosecurity programs enforced by the process, sector penalties, timelines, or enforcement measures)	no
	If YES, describe the updates or changes and provide supporting documents	

Section 3: Sector Summary Part 1

Tables 3.1 - 3.7

Sector Basics

* **All commodity boards** are to complete the tables in Section 3, providing the following definitions and statistics.

* *Examples are included in italics with a "*" next to them. Please delete when filling in your own stats and information.*

For further information or examples of how to fill out the tables, refer to the PARP Templates and Reporting Guide document BCFIRB has provided

Table 3.1 Reporting Time Period

Define the start and end date of the period being reported on their PARP report.

Reporting Period	
Start date of reporting period	January 1, 2023
End date of reporting period	December 31, 2023

Table 3.2 Production Measurements Defined

Define the units of measurements used in the sector to measure production volume, and quota if applicable.

Production Measurement Definitions	
Quota Unit	KG (Live weight), 1 bird = 1.929 kilograms live weight
Production Unit	KG (Live weight)

Table 3.3 Regulated and Supply Managed Products Defined

* For all commodity boards: Define the regulated product(s)

* For regulated boards: Identify production volume (and crop type and/or other factor if applicable) where a licence is required (e.g. cranberries - > 2 acres)

* For supply managed boards: Identify production volume for personal exemption; small lot permit or small lot type program; and, volume where quota required.

Regulated Definition
Up to 200 chickens per person per calendar year is exempt if not for sale but is for home consumption; over 200 chickens to a maximum of 2,000 chickens must apply for \$20 permit; over 2,000 chickens requires quota.

Table 3.4 Production Type Definitions

Define the major production types within the sector, and provide a brief explanation for each.

Production Type Definitions	
Production Type	Explanation
Mainstream Quota	Is a class of quota expressed in kilogram of live weight for the production and marketing of chicken allotted by the Board. Mainstream quota is for the production of regular broilers, roasters, Cornish, or certified organic, and is derived from a commercially available broiler chick stock, such as, but not limited to Hubbard ISA, Cobb Vantress or Ross Breeders.
Regular Broiler	Is any chicken (with the exception of Asian chicken and chicken used for egg production) that is under 6 months of age, bred and raised specifically for meat production.
Organic Broiler	Is chicken certified by an agency accredited by the Organic Associations of British Columbia or such other certifying authority as has been recognized by the Board.
Specialty Quota: Asian Chicken	Is a class of quota expressed in kilogram of live weight for the production and marketing of chicken allotted by the Board. Specialty quota is designated by the Board for the production of specialty chicken including Asian chicken, such as Silkies, and Taiwanese Chicken. The Board may designate specialty quota for the production of innovative new products that do not currently exist in the marketplace including those derived from a traditional or heritage breed. Effective with the commencement of quota period A-126 (September 7, 2014) Rebro is no longer classified as Specialty Chicken.
Taiwanese	"Asian chicken" is chicken of a distinct genetic strain designated by the Board and includes Silkies and Taiwanese chicken.
Silkie	

Table 3.5 Producer Size Definitions

Create producer size categories based on production volume or quota units that are relevant to the sector

Please ensure there are no overlaps or gaps between size categories

Producer Size Definitions	
Small Producer	<i>50,000 kgs and under</i>
Medium Producer	<i>between 50,001 - 300,000 kgs</i>
Large Producer	<i>300,001 kgs and greater</i>

Table 3.6 Small Lot Type programs - Producers By Region

Program Name:	Program Description/Explanation
Permit Growers	<i>BC Residents can apply to grow up to 2,000 chickens per year for farm direct marketing. The permit administration fee is \$20 and permit holders must report their placement and slaughter records. In BC all meat offered for sale must be processed at a provincially or federally inspected and approved facility.</i>

*Use this table to report permit or small lot type program such as Producer-Vendor, Cottage Industry Program, Direct Vendor Grower or Small Lot Innovative Self Marketer or similar permit programs.

Small Producers per Region	
Lower Mainland	13
Vancouver Island	20
Interior	39
North	-

*Report the number of producers participating in small lot type programs per region, at the end of the reporting period.

Total Production Volume

* All commodity boards are to use these tables to report the amount of the commodity produced in B.C. over the full reporting period.

* Statistics are to be broken down by the total volume of the commodity that was produced, in each category in each region.

* Total production volume is to be the same across tables 3.11, 3.12, and 3.13.

* Supply managed boards are to report production volume per the table below:

Table 3.14A Federal Quota Utilization

*For Supply Managed Boards: please report the percentage of national allocated quota produced in the reporting period. Please report so that if over 100% this indicates the province is over produced and if under 100% this indicates the province is under produced.

Average Quota Utilization
98%

Table 3.14B Provincial Quota Utilization

*Only the BC Broiler Hatching Egg Commission, the BC Chicken Marketing Board, and BC Turkey Marketing Board are to report on the average provincial quota utilization across the reporting period. This represents the percentage of provincial quota utilized in order to meet national commitments.

Average Quota Utilization
98%

Processing

*Use these tables to report on federal and provincial processors within the commodity sector.

*All commodity boards are to provide regional counts of processors, broken down by Federal or Provincial licences.

*If applicable, provide the number and regional distribution of hatcheries and/or grading stations.

*If the total number of provincial and federal licences is more than the total number of physical processing plants in BC (E.G., if some plants have both a federal and provincial licence) please note this with an asterisk below Table 3.18.

Table 3.20 New Entrant Program Description

Program Name:	Program Description/Explanation
New Entrant Program for Growers	<p><i>The Board created an opportunity for persons chosen by random draw to enter the chicken industry on a small scale basis. Applicants must be over age of 19, be a BC resident, have never held SM5 quota in Canada, own land on which the quota will be situated, confirm day-to-day commitment to farm and have a processor sign off on their business plan which must be approved by the Board. The program was driven by processor needs in three regions of the province: Lower Mainland, Vancouver Island and the Interior. At the discretion of the Board, priority could be given to specific regions of the province based on demonstrated needs of a particular region. The minimum number of new entrants is one (1) per year. The maximum number is based on a methodology and formula found at Schedule 9 of the General Orders. Currently new quota is issued in an amount not to exceed 20,000 kg per 8-week cycle. Except where noted all General Orders apply.</i></p> <p><i>The NEGP will be reviewed and revamped in 2024 after the conclusion of industry consultation while at the same time the Board plans to exhaust existing wait lists under the old program. Persons on the waitlist have the opportunity to proceed under the current regulations or be expunged from the list and reapply under the new program (rules are not known at this time).</i></p>

* Use tables 4.4 to 4.9 to report on all quota transfers between producers, or applicable going concern sales. ☐

* Quota issued by boards is reported in tables 4.18, and 4.12-4.14. ☐

For further information or examples of how to fill out the tables, refer to the PARP Templates and Reporting Guide document BCFIRB has provided

Table 4.4 Quota Transfer Restrictions

* Use this table to report on any quota transfer restrictions (excluding BCFIRB directed restrictions) that affect how quota is transferred (e.g., regional movement restrictions).

Transfer Restrictions	
<i>Vanvouver Island and Interior New Entrant Growers - quota received by a grower from the Board (incentive quota) is tied to the region it was issued as long as there is an active processor in the region.</i>	
<i>A grower may not transfer a portion of its quota from the Interior to the Lower Mainland or Vancouver Island.</i>	
<i>Growers registered in the Interior for a least 2 years may apply to relocate their entire quota anywhere in the Province. Where the Board has not approved a relocation of quota to a new production unit, no transfer of the relocated quota will be approved by the Board before a date of 2 years following the date of the actual relocation of the quota.</i>

Tables 4.10 - 4.16

Growth Quota

* Use these tables to report any growth quota issued to producers due to an increase in overall quota holdings in B.C. that occurred during the reporting period.

* Statistics are broken down by established and new producers, and the number of producers who received quota within each category and the volume of growth quota they received.

For further information or examples of how to fill out the tables, refer to the PARP Templates and Reporting Guide document BCFIRB has provided

4.10 Growth Quota Basic Information

*If boards issued growth quota in the reporting period, report basic growth quota statistics. If no growth quota was issued, please indicate so.
