Dear Mr. Les,

Re: BC FIRB Decision Note

Attached is the BCEMB response to the BCFIRB July 28, 2014 decision note. Comments are provided on a point by point basis as presented in your conclusions section.

We trust you will find that we are making progress on many of the key recommendations in BCFIRB's decision document. We also provide additional information in support of our request to issue quota to all producers on a pro-rata basis. We look forward to further guidance from BCFIRB on matters pertaining to quota transfers as Part 2 of your decisions.

We feel that a face to face Directors meeting between our respective Boards would be beneficial at some future date but this meeting should not impede the importance to giving the Board support in the issuance of quota.

We look forward to future discussions.

Yours truly,

**BC EGG MARKETING BOARD**
