Dear Sirs/Mesdames:

Re: Supervisory Review of Proposed CFC Operating Agreement

I am in receipt of a letter dated June 9, 2016 from Wendy Baker QC, counsel for the Primary Processors Association of BC purporting to forward what are described as "Further Submissions" and enclosing an affidavit. I have not reviewed this material closely but I gather it is intended that it be part of the record for the Board's Supervisory Review. As such, I object to this material forming any part of the consideration of the Board.

The Board set out its schedule for completing this review by letter dated February 9, 2016. The schedule was extended somewhat but the evidence and submissions have been closed for some time and it is not appropriate for the Association to simply send in more argument and evidence after everyone has complied with the directions of the Board for the efficient completion of this review. I ask for the Board's confirmation that this material will not be considered by the Board in its Supervisory Review.

Yours truly,

Hunter Litigation Chambers
