Dear Sirs/Mesdames:

Re: Supervisory Review of Proposed CFC Operating Agreement

I writing in response to the two communications forwarded to me on June 13, 2016.

With respect to the CFC letter to FIRM concerning the special vote amendment, the Chicken Board has no submissions.

With respect to the "Further Submissions" forwarded by the Processors Association, the Chicken Board reiterates the position taken by it in my letter of June 10, 2016. The deadline for submissions has long passed and the FIRB should not entertain further argument unless it feels the necessity to open up the Review process entirely. We ask that the "Further Submissions" not be presented to the panel. If they are presented, we request two weeks to provide a substantive response, having in mind other commitments of Board personnel.

Yours truly,

Hunter Litigation Chambers
