Hi Wendy,

I have been appointed by the Primary Processors Association as the Project Liaison and primary contact for you for this review. I would appreciate the opportunity along with Blair Shier, the Association President, to have an initial discussion with you to understand your expectations regarding the process and to provide some context for the BC Processing industry in the Canadian marketplace.

If you could supply some dates and times that you are available to meet next week then we can coordinate schedules set up a meeting.

I look forward to working with you

Regards!

Craig
