Dear Sirs/Mesdames:

Re: Allegations Supervisory Review

We write further to the Review Panel Chair's July 28, 2022 correspondence inviting submissions on Hearing Counsel's July 27, 2022 recommendations for the appropriate next steps in this supervisory review.

Prokam has filed an application for judicial review of the Review Panel's July 14, 2022 decision. In that petition proceeding, Prokam seeks, *inter alia*, an interlocutory stay of this supervisory review pending the outcome of its judicial review application. Accordingly, Prokam's position is that no further steps should occur in this supervisory review before the Court hears and determines Prokam's stay application.

Prokam intends to make substantive submissions on Hearing Counsel's recommendations in the event the Court dismisses its application to stay this supervisory review.

Yours truly,

Hunter Litigation Chambers
