6. *Statements of the receipts, classified by source, and of the expenditures, classified by purpose, of the registrant for each fiscal year of the registrant ended since the close of the latest fiscal year for which such information was previously reported. These statements should be so itemized as to be reasonably informative and should cover both ordinary and extraordinary receipts and expenditures; there should be indicated separately, if practicable, the amount of receipts pledged or otherwise specifically allocated to any issue registered, indicating the issue.*

Certain information concerning revenue and expenditure of the registrant is included in Exhibit (d) hereto and is incorporated by reference herein.

7. (a) *If any foreign exchange control, not previously reported, has been established by the registrant (or if the registrant is other than a national government, by its national government), briefly describe the effect of any such action, not previously reported.*

None.

- (b) *If any foreign exchange control previously reported has been discontinued or materially modified, briefly describe the effect of any such action, not previously reported.*

Not applicable.

### **Special Note Regarding Forward-Looking Statements:**

This document, including the exhibits hereto, contains forward-looking statements which may be identified by their use of words like “plan,” “expect,” “will,” “project,” “estimate,” “should,” “anticipate,” “forecast” or other words of similar meaning. Such statements are subject to certain risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. You should understand that many important factors, in addition to those discussed or incorporated by reference in this annual report, could cause the Province’s results to differ materially from those expressed in the forward-looking statements. Among the key factors that have or will have a direct bearing on the Province are the world-wide economy in general and the actual economic, social and political conditions in or affecting the Province. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this annual report might not occur. The forward-looking statements speak only as of the date they are made and the Province undertakes no obligation to update publicly or otherwise revise any forward-looking statements, whether as a result of new information or future events or otherwise, except as may be required by law.

## **DEBT OF THE PROVINCE**

### **Direct and Guaranteed Debt**

The direct debt of the Province includes debt for government purposes, as well as funds borrowed by the Province and loaned to its provincial government bodies. Direct borrowing by the Province for lending to provincial government bodies commenced in 1983.

With few exceptions, government bodies rely on the Province for fiscal agency loans to meet their borrowing requirements. The terms and conditions that apply to fiscal agency loans respecting payment of interest, principal and premium, generally match those in the Province's original borrowings.

Direct debt includes both funded and unfunded debt. Funded debt is defined as all debt having a maturity of one year or more from date of issuance; unfunded debt has a maturity within one year from date of issuance.

The final component of provincial debt relates to financial instruments that have been unconditionally guaranteed by the Province. Most of this debt was incurred by provincial government bodies prior to the introduction of fiscal agency loans in 1983. It also includes financial instruments issued by selected municipalities, improvement districts and local government entities, as well as all loan guarantees extended by the Province, including those extended to private entities and individuals.

The Warehouse Borrowing Program takes advantage of low interest rates to borrow money in advance of actual requirements. The debt will eventually be allocated to either the provincial government or provincial government bodies.

Non-guaranteed debt includes debt of the BC Assessment Authority, BC Housing Management Commission, BC Immigrant Investment Fund, BC Pavilion Corporation, BC Public School Employers' Association, BC Transportation Financing Authority, Canadian Blood Services, Columbia Basin Trust, Columbia Basin Power (joint venture), Community Social Service Employees' Association, Post-secondary institutions' subsidiaries, Provincial Rental Housing Corporation, and School Districts, Universities, Colleges and Health Authorities (SUCH sector). At March 31, 2016, \$4,656 million of this debt is classified as taxpayer supported and \$802 million is classified as self-supporting.

Financial statements for 2015/16 show that the Province's total net debt (excluding non-guaranteed debt of \$5,458 million) increased by \$2,147 million; debt for government purposes decreased by \$2 million and debt for government corporation and warehouse program purposes increased by \$2,149 million.

<sup>(1)</sup> In compliance with generally accepted accounting principles (GAAP), defeased debt is added to government purposes debt and the related defeased trust funds are added to sinking fund investments.

<sup>(2)</sup> Represents direct borrowing by the Province for relending to government corporations on identical terms

Note: Debt payable in foreign currencies is recorded at the relevant March 31, 2016 exchange rates after giving effect to any currency exchange agreements.

Direct unfunded gross debt of the Province (Promissory Notes) on March 31, 2016 totalled \$7,636 million . This short term debt was comprised of \$3,528 million in fiscal agency loans to government corporations and \$4,108 million in loans for government. Further, all direct unfunded debt consisted of issues denominated in Cdn.

## **Financing**

The financing requirements of the Province are met through short, medium and long term borrowing in public and private markets in Canada and abroad, including the federal Canada Pension Plan (the "Plan"). Under the Plan, the Province and other provincial government bodies may refinance maturing Canada Pension Plan Investment Board debt with new debt equal to or less than the matured nominal amount.

The majority of British Columbia's borrowing requirements are met through public domestic borrowings and Canada Pension Plan Investment Board loans. During the 2015/16 fiscal year, the Province borrowed or refinanced \$39 million from the Plan.

## **Sinking Fund Management**

Sinking funds are no longer established or maintained on new or existing debt issued for government capital financing purposes. However, sinking funds do continue to be established and maintained relating to new or existing debt of the Province incurred to make loans to provincial government bodies. Consequently, provincial government bodies (with the exception of the British Columbia Hydro and Power Authority, BC Transportation Financing Authority and Transportation Investment Corporation) who have received or are to receive fiscal agency loans from the Province with a term of five years or more will continue to be expected to make sinking fund contributions for the purpose of repayment of some or all the corresponding Provincial debt issues.

At March 31, 2016, the Province has \$1.6 billion in sinking fund investments related to direct and guaranteed funded debt, including those held in trust on behalf of government corporations.

## TRADE BALANCE

### **Exports and Imports (all figures in nominal dollars):**

Based on the provincial economic accounts 2014 estimates (November 2015), BC's exports of goods and services totaled \$93.2 billion during the 2014 calendar year. International exports comprised \$53.1 billion (57.0%) of BC's total exports, and represented 8.5 % of Canada's total international exports, while inter-provincial exports accounted for \$40.1 billion (43.0 %) of BC's total exports. BC's imports of goods and services totaled \$116.4 billion, consisting of \$67.0 billion (57.6%) international imports and \$49.4 billion (42.4%) inter-provincial imports.

The Province's international imports accounted for 10.4% of Canada's total international imports. In 2014, the Province registered a trade deficit of \$23.2 billion, which consists of a \$13.9 billion deficit in trade from abroad and a \$9.3 billion deficit accruing from inter-provincial trade. In 2013, the Province registered an overall trade deficit of \$20.3 billion. BC had an \$11.3 billion deficit in international trade in 2013, as well as a \$9.0 billion deficit in inter-provincial trade.

International exports of goods originating from the Province (computed by BC Stats using customs based data) were \$36.0 billion in 2015, an increase of 0.6% compared to \$35.8 billion in 2014. This increase was modest, largely due to a 44.2% decline in the value of natural gas exports partially offsetting gains in other export categories such as machinery and equipment, agriculture and food, and wood products compared to the previous year.

The United States remained BC's principal international export market in 2015, accounting for 52.1% of the international exports of goods.
