BRITISH COLUMBIA

This notification is intended as an informational bulletin for technical audiences.

Summary
The Vulnerability and Risk Management (VRM) Team is aware Android has published a security bulletin to address vulnerabilities in Android devices.

Technical Details
The Android Security Bulletin contains details of security vulnerabilities affecting Android devices. Security patch levels of 2023-08-05 or later address all these issues. The most severe of these issues is a critical security vulnerability in the System component that could lead to remote (proximal/adjacent) code execution with no additional execution privileges needed. User interaction is not needed for exploitation.

How to check a device's security patch level, see: Check and update your Android version.

These vulnerabilities are rated as an overall **High** Severity.

Recommended Action
- Investigate how your area of responsibility is affected.
- Notify business owner(s) as required.
- *Ensure mitigation is performed at your next change window.*

Please notify VRM with any questions or concerns you may have.
