

Overall Rating - High

Summary

The Vulnerability and Risk Management (VRM) Team is aware that on October 4, 2023, Apple published security updates to address vulnerabilities in the following products:

- iOS – versions prior to 17.0.3
- iPadOS – versions prior to 17.0.3

Technical Details

Impact: A local attacker may be able to elevate their privileges. Apple is aware of a report that this issue may have been actively exploited against versions of iOS before iOS 16.6.

This vulnerability is rated as a **High** Severity.

Recommended Action

- Investigate how your area of responsibility is affected.
- Notify business owner(s) as required.
- *Ensure mitigation is performed at your next change window.*

Please notify [VRM](#) with any questions or concerns you may have.
