Overall Rating - High

BRITISH
COLUMBIA

This notification is intended as an informational bulletin for technical audiences.

Summary

The Vulnerability and Risk Management (VRM) Team is aware that Citrix published a security advisory to address a vulnerability in the following product:

- Citrix Workspace app for Mac – version prior to 2402.10

Technical Details

A vulnerability has been discovered in Citrix Workspace app for Mac, which, if exploited, may result in elevation of privilege from a local authenticated user to a root user.

These vulnerabilities are rated as an overall **High** Severity.

Recommended Action

- Investigate how your area of responsibility is affected.
- Notify business owner(s) as required.
- *Ensure mitigation is performed at your next change window.*

Please notify VRM with any questions or concerns you may have.
