

Overall Rating: Critical

This is a technical bulletin intended for technical audiences.

Summary

The Vulnerability and Risk Management (VRM) Team is aware SAP published security advisories to address vulnerabilities in multiple products. Included were critical updates for the following:

- SAP BusinessObjects Business Intelligence Platform – versions ENTERPRISE 430, 440

Technical Details

In SAP BusinessObjects Business Intelligence Platform, if Single Signed On is enabled on Enterprise authentication, an unauthorized user can get a logon token using a REST endpoint. The attacker can fully compromise the system resulting in High impact on confidentiality, integrity and availability.

This vulnerability is rated as a **CRITICAL** risk. Software updates exist to address these risks.

Action Required

- Locate the device or application and investigate.
- Notify business owner(s).
- Perform mitigating actions, as required.

Please notify [VRM](#) with any questions or concerns you may have at vulnerabilityandriskmanagement@gov.bc.ca
