Temporary Emergency Assignment Management System

EMBC engages qualified public service employees to assist with emergency response efforts. TEAMS is the staffing system that maintains a resource pool of highly-qualified employees from various ministries who have the appropriate skills and experience to manage provincial emergency operations centres. These operations centres are activated in support of local communities during all-hazard emergencies and disasters.

TEAMS supports communities in BC's six regions

Why Volunteer?

Strengthen communities across the province

Utilize your skills and learn new skills

Support emergency response efforts of first responders, local authorities, other government agencies, and volunteers
