Integrated Land and Resource Registry (ILRR)

Report types in ILRR Reporter

Map Inquiry

This report returns all active ILRR Interests within a given Area of Interest. Output formats include PDF, CSV, GeoJSON and Shapefile.

AST Map Inquiry

This report returns both active and inactive ILRR interests within a given Area of Interest. Required for Auto Status tool. Output format is CSV.

FrontCounterBC Conflict and Constraint Report

Sourced from the ILRR database and the BCGW, this report returns conflicting legal interests and/or physical constraints that may or may not restrict or constrain certain activities on the land base within a given Area of Interest. Output formats include PDF and CSV.

Public Conflict and Constraint Report

Available to the public, this report returns non-sensitive conflicting legal interests and/or physical constraints that may or may not restrict or constrain certain activities on the land base within a given Area of Interest. Output format is PDF.

Land Owner Notification Report

This report returns known Crown land leases and private land within a given Area of Interest. Output format is PDF.

Wildfire Conflict and Restraint Report

Available to those with Wildfire credentials, this report returns information that may be important to Provincial wildfire fighting efforts.

AOI Overlap Report

This report returns values for the amount of an interest that is contained within a given Area Of Interest (AOI).
