

What's New in ILRR v8.0

This new release of the Integrated Land and Resource Registry is to accommodate a backend technology change from ESRI SDE to Oracle SDO. It should be a seamless change for end Users and **ILRR functionality remains the same.**

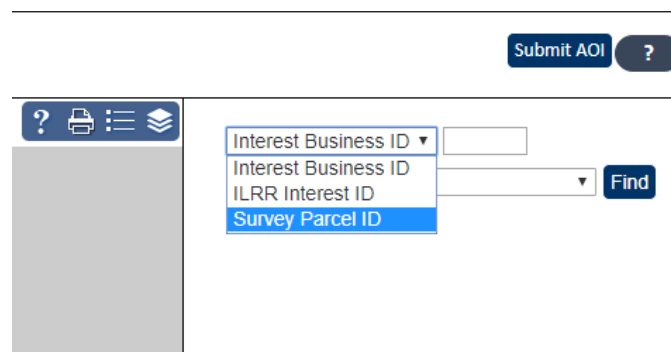

We were able to include one minor enhancement as outlined below:

- **Map Viewer Improvement**

- ❖ In the right side pane of the ILRR Map Viewer, in the Find dropdowns, users can now search for Survey Parcels by either PIN or PID.

- ❖ Select 'Survey Parcel ID' from the Search Type drop down.

- ❖ Then select either 'PIN' or 'PID' from the Survey Parcel Type drop down depending on the Identifier you have and what type of survey parcel you are searching for.

The screenshot shows a web interface with a 'Submit AOI' button and a help icon. Below is a search form with a 'Survey Parcel ID' input field, a 'Select Survey Parcel ID Type' dropdown menu, and a 'Find' button. The dropdown menu is open, showing 'PIN' as the selected option.

- ❖ Enter your PIN or PID and then click 'Find'.

The screenshot shows the search form with '1405690' entered in the 'Survey Parcel ID' field and 'PIN' selected in the 'Survey Parcel ID Type' dropdown. The 'Find' button is highlighted in yellow. Below the form is a table with search results.

Parcel ID	Description
1405690	SECTION 18, VICTORIA DISTRICT

- ❖ Search result(s) with a Legal Description (searching by PIN) or Ownership Class (searching by PID) will then populate below that with hyperlinks to zoom to the parcel(s).

The screenshot shows the search form with '1405690' entered in the 'Survey Parcel ID' field and 'PIN' selected in the 'Survey Parcel ID Type' dropdown. The 'Find' button is highlighted in yellow. Below the form is a table with search results, where the first row is highlighted in yellow.
