

British Columbia's Remedial Program

The Responsible Driver Program (RDP) is a remedial education program for alcohol and/or drug affected drivers. RoadSafetyBC has partnered with the Centre for Addiction and Mental Health (CAMH) to deliver the Responsible Driver Program.

The program consists of the following three components:

1. Screening

The purpose of the screening is to assign you to either the 8-hour (Level 1) or 16-hour (Level 2) workshop. Workshop placement is dependent on a number of factors, including driving history.

2. Workshop

Level 1 or Level 2 group workshop: Both workshops present information on topics such as how alcohol and other drugs affect your ability to drive safely, and how to separate drinking and other drug use from driving.

3. Follow-up

A one-on-one follow-up discussion takes place 6 months after the workshop component and is an essential component of the RDP. The purpose of the follow-up is to review the skills gained and goals set at the workshop.

It may take up to 11 months to complete the entire program. Prompt registration is strongly advised.
