

# Notice of Proposed Cowichan Valley Trail - Holt Creek Bridge No. 10543 Replacement

The Ministry of Transportation and Infrastructure gives notice, pursuant to the *Canadian Navigable Waters Act*, that it has submitted a "No Interference With Navigation Notification of Work" to Transport Canada for the Cowichan Valley Trail – Holt Creek Bridge No. 10543 Replacement Project, west of Duncan.

The ministry intends to construct a single-span steel bridge across Holt Creek along the Cowichan Valley Trail. The new bridge will be built on the same alignment as the existing timber trestle and the existing trestle will be removed. No work is planned in the waterway and no changes will be made to the waterway's height or depth.

Construction of the new bridge is expected to begin in spring 2024, subject to funding approval.

A detailed description of the project is available on the federal Common Project Search site at [cps.canada.ca](https://cps.canada.ca) under registry number 8477.

Anyone wanting to comment on this work's effect on marine navigation should do so by **March 15, 2024**, in the comment section on the above website or by email to [npppac-ppnpac@tc.gc.ca](mailto:npppac-ppnpac@tc.gc.ca).
