

Project Information for NPP Application

January 2021 version

1. Name of the waterway

2. Is there evidence of past or current use (of the waterway) by the public for navigation?

Past Use?

Current Use?

No Evidence of Use

3. Outline how the waterway is used for navigation by the public (e.g. used for recreational fishing, only used by small craft such as kayaks or canoes, commercial vessels or jet boats, etc.)

4. Description of the site location

5. Body of Water Details

Width (m)	Length (m)	Bottom Type	Current

6. Description of the Body of Water

Project Information for NPP Application

January 2021 version

7. *Potential obstructions, such as natural/man-made, other works, navigation aids, etc...*

--

8. *Information about Navigation Vessels (What Size of Boat can Use the Waterway?)*

Maximum Vessel Length (m)	Maximum Vessel Width (m)	Maximum Vessel Draft (m)

9. *Description of Project*

--

10. *Method of construction such as temporary works, activities, etc.*

--

10b. *If the project involves existing bridge removal, need a description of how the existing bridge will be removed, including potential navigation impacts (e.g. what is happening with existing piers in the water).*

--

11. *Anticipated impacts to the waterway including severity, duration, mitigation measures, marking/signing, waste/debris management, etc.*

--

--

12. Expected construction start and end dates

Start Date	End Date

13. Consultation: Summarize any public consultation undertaken (i.e. open houses, feedback received via e-mail etc). Detail any First Nations consultation, letters of support etc. Provide documents where possible.

--

14. Send the Following Documents to the Rail and Navigable Waters Specialist:

- Map Showing Project Location
- Drawings showing plan, profile, and general arrangement
- If an existing bridge is being removed, send drawings of existing bridge (plan, profile and general arrangement). Drawing should show what is happening with existing piers in water (if applicable).
- Hydrotechnical Report
- Site Photos

***Please also provide the location in Decimal Degrees
