Hi Samantha.

I checked our electronic and paper records, and did not find any information more recent or contradictory to the S52 authorization to cut. It is valid until the Section 16 map reserve (file 5402797, which expires July 29, 9999) remains in place.

Best regards,

*Cyndy Grant, R.P.F.*

Hi Sam, I am no longer with the North Island Central Coast Resource District but Amy Beetham is the current supervisor overseeing this Crown Land tenure in the district.

Amy, if one of your staff can do a quick review of Land File 5402797 for any correspondence suggesting the S52 authorization was rescinded (very low chance), this will be enough to answer Samantha's question.

Thanks Amy.

Good morning Sheldon,

I've attached a copy of the Section 52 for MoTI's Klonnick Pit that was granted in October of 2013 and wanted to verify if it was still valid (the document states it is for as long as the Ministry holds tenure over the area, which we do). Since a few years have passed, I wanted to double check.

Please let me know if you have any questions.

Thank you for your help with this.
