3. DETAILED PERFORMANCE SPECIFICATIONS

3.1 Routine Maintenance Services

The Contractor must:

- a) separate and stack the different types of refuse (e.g., scrap metal, timber and wood waste, household waste, batteries and tires, etc.);
- b) push loose refuse into pits;
- c) compact and cover refuse in pits;
- d) dig new pits;
- e) obtain the necessary permits and burn timber and wood waste;
- f) crush scrap metal; and
- g) maintain refuse sites in an environmentally safe manner;

Note: The Province will arrange for the periodic removal of salvageable waste, e.g., tires, batteries and scrap metal). The Contractor must cooperate with the Province in accommodating this.

3.1.1 Performance Time Frames

The Contractor must perform the services as required to keep the sites neat, tidy and environmentally safe.

3.2 Quantified Maintenance Services

Not applicable to this Local Area Specification.

3.2.1 Performance Time Frames

Not applicable to this Local Area Specification.

3.3 Materials

Not applicable to this Local Area Specification.

4. WARRANTY

Not applicable to this Local Area Specification.
