- completing the hard-copy feedback form and leaving it with a member of our team
- filling out the feedback form online at: gov.bc.ca/bchwy1-projects
- mailing your feedback form to:

Ministry of Transportation and Infrastructure
ATTN: Hoffman's Bluff to Jade Mountain Project
447 Columbia Street
Kamloops, BC V2C 2T3

Please provide us with your feedback by December 10, 2017

About the Hoffman's Bluff to Jade Mountain Project

The project will upgrade approximately 12 kilometres of Trans-Canada Highway 1 from two lanes to four, and will tie into the four-laning improvements that were carried out east of Kamloops between Monte Creek and Hoffman's Bluff. The west limit of the project begins approximately 19 km east of the Highway 97 junction at Monte Creek and extends through the Neskonlith Indian Reserve to the Village of Chase before its eastern termination on Jade Mountain. The project will increase safety and capacity on the highway and will provide safer connections to local roads and businesses.

1. The current design has moved the westbound highway exit approximately 1.5 km closer to town than what was presented at the May 2016 open house. Please indicate your level of agreement with this.
