Dear Neighbour:

Re: Lower Lynn Improvements Phase 2 – Keith Road Underpass Pile Driving

Pile Driving associated with the East and West Abutment of the new Keith Road Underpass will commence shortly. Details of the area of work are shown on the back of this letter with both the East and West abutment represented.

Understanding the impact pile driving can have on nearby residents; we are making every effort to complete this work as quickly and safely as possible. To avoid further disruptions and minimize the impact to residents we will be completing all work during daytime hours.

Note the East abutment pile driving will commence on the **27th of June** and continue for approximately three weeks. This will be followed by pile driving on the West abutment.

More information on this project, including regular updates, is available at:

gov.bc.ca/lowerlynninterchanges.

We appreciate your patience while we complete this important work. If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Lafarge Canada Inc.
