

What is a StrongStart Centre?

- A program that offers today's families an opportunity to provide their young children with problem-solving skills, self-esteem building practices, and the social skills that will help them successfully manage in school.
- A program that recognizes parents and caregivers as the key factor in the success of a child's educational career.
- A program that teaches family literacy and the importance of family involved education.

Conrad StrongStart Centre

Conrad StrongStart Centre

A school based early learning free program for 3 - 5 year old pre-school children and their parents or caregivers.

GIVING CHILDREN THE BEST FOR THEIR EDUCATION AND FUTURE.

The parent is the first and most important teacher in a child's life. Increased involvement in their child's education contributes to success.

WHAT HAPPENS AT CONRAD'S STRONGSTART CENTRE AND WHEN IS IT?

A Time for Play

Through play based activities, children can develop the reading

and number concepts they need to have in place for success in kindergarten.

A Time to Learn

Conrad's StrongStart Centre introduces parents to the school system and delivers a range of play based, problem solving activities in a culturally sensitive environment. A 'readiness to learn' program is offered and parents are educated about child development community resources and how they can best support their child's learning through a family literacy and numeracy program.

A Time for Stories

The parent/child relationship is the first and most important influence on literacy learning. Parents reading with their children is valuable and can help to foster life-long readers.

A Time for Culture

Conrad's StrongStart Centre will offer a focus on First Nations culture through song and stories provided by First Nations role models within our community.
