WHAT YOU NEED TO KNOW ABOUT AI

Stay safe

Be careful about the information you share with AI tools. Keep your personal information private and let your teacher or an adult know if something feels uncomfortable.

Ask for help

If you ever feel confused or need help, ask your teacher or another trusted adult. They're there to support you.

Ask questions

Don't hesitate to ask your teacher questions about AI and if it could help you with what you are working on.

Learn about AI

Ask your teacher questions and learn about AI. Understanding what AI is and how to use it will help you make smart choices.

Use AI as a helper

Think of AI as a helper. But remember, it's not a replacement for your own thinking and learning.

Use other tools too

Don't use only AI tools. Use and explore different resources and tools too.

Make it your own

You might want to use AI to spark your thinking but be sure to add in your ideas too.

Check what AI generates

AI can produce biased or wrong content. Double-check everything AI generates.
