About how many days have they been composting?

180

90

60

30

## Question 6

Mark makes these 3-D shapes.

Select the net below that he could fold to make one of the shapes above.

## Question 7

The students at Pascal Elementary purchase science kits and math kits.

Science Kit = \$40

Math Kit = \$25

They have \$200.

After purchasing the kits, they have \$5 left.

What did they buy?

1 science kit and 4 math kits

1 science kit and 2 math kits

2 science kits and 3 math kits

3 science kits and 3 math kits

## Question 8

The garden will need a fence.

4 m

8 m

Each metre of fence costs \$10.

How much will it cost to fence the perimeter of the garden?

It will cost \$

## Question 9

Students estimated the number of salmon returning to spawn.

**Salmon Return**

Year	Year 1	Year 2	Year 3	Year 4	Year 5
Number of Salmon	125	150	200	275	

If the pattern continues, about how many salmon will return in Year 5?

Drag the answer to the chart.

## Question 10

If there are 24 legs in the barn, how many cows and chickens are there?

What two combinations of cows and chickens are correct?

and

1 cow, 12 chickens

2 cows, 10 chickens

4 cows, 4 chickens

5 cows, 5 chickens

6 cows, 2 chickens

## Question 11

Marie's tally chart shows students' favourite sports.

She surveyed 33 students.

**Favourite Sports**

Basketball	
Field Hockey	
Soccer	?
Volleyball	

How many students chose soccer?

## Question 12

Charlie is painting this box.

He does not paint the bottom.

How many faces does he paint?

He paints  face(s).

- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9

## Question 13

Steve wants the smallest part of a garden plot.

Which fraction represents the smallest part?

$$\frac{1}{2}$$

$$\frac{1}{4}$$

$$\frac{1}{6}$$

$$\frac{1}{12}$$

## Question 14

Part of a 4 x 6 array has been torn away.

Select the image below that completes the array.

## Question 15

Susan is selling crafts at a fair.

How much money will she make on the 6<sup>th</sup> day?

Day	1	2	3	4	5	6
Sales	\$1	\$2	\$4	\$7	...	<input type="text"/>

## Question 16

Jonathan spins the spinner.

How likely is it that he will spin a number that has the digit 6 in the tens place?

- more likely
- even chance
- less likely
- Impossible

## Question 17

Students are put into teams for activity day.

- There are 9 teams.
- Each team has 8 students.
- There are 100 oranges for snack time.
- Each student has one orange.

How many oranges are left over?

## Question 21

Paula makes a chart to show how many bottles of water she buys each month.

**Bottles of Water**

Month	September	October	November	December	...	?
Water Bottles	19	16	13	10	...	1

If this pattern continues, in what month will she buy only 1 bottle of water?

January

February

March

April

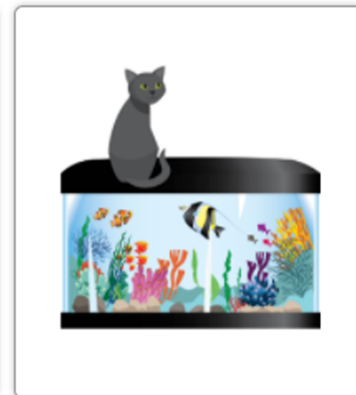

## Question 22

Match the three objects with the capacity that each could hold.

40 L

200 mL

4 L

## Question 23

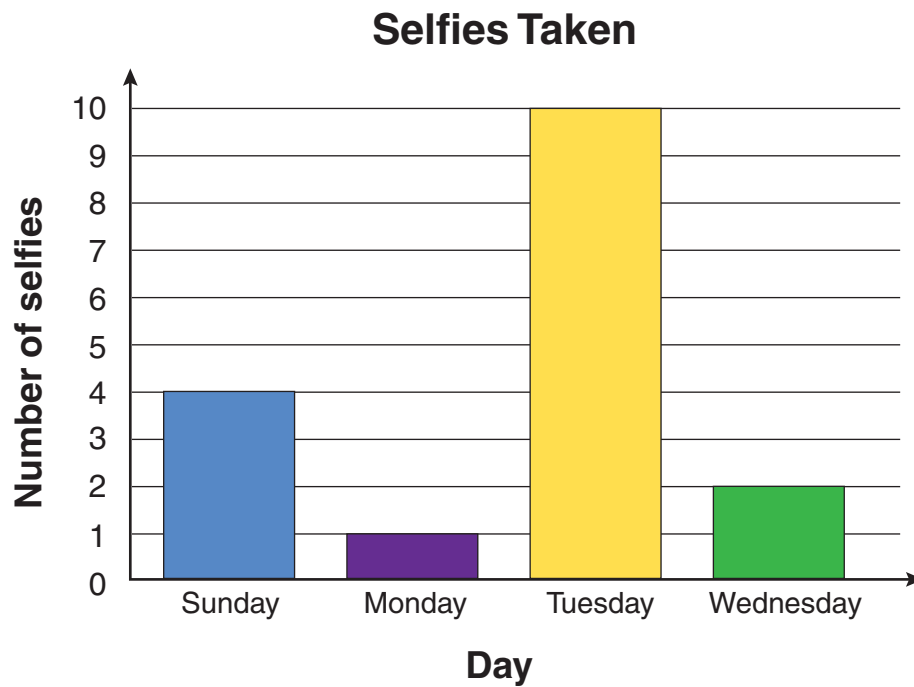

Jade stacks the cans in the following pattern.

If she stacks 7 rows, how many cans in total will there be?

## Question 24

Karl graphs the number of selfies he took so far this week.

How many selfies did Karl take in total?

## Question 25

Students have a goal to raise \$1000.

They have raised  $\frac{4}{5}$  of their goal.

Move the bar to show how much the students have raised so far.

## Question 26

Which pattern starts at 20 and decreases by one each time?

20, 21, 22, 23

20, 19, 17, 16

20, 21, 19, 17

20, 19, 18, 17

## Question 27

At snack time students eat fruit.

- 15 students choose apple slices.
- Each student eats 3 apples slices.

How many slices are needed?

## Question 28

Kate is slicing a dessert.

Which number expression shows how you can count the pieces?

$$5 + 3 =$$

$$5 + 5 + 5 + 5 =$$

$$3 \times 5 =$$

$$3 + 3 + 3 + 3 =$$

## Question 29

Click on the grid to complete the third figure in the pattern.

1<sup>st</sup>

2<sup>nd</sup>

3<sup>rd</sup>

4<sup>th</sup>

## Question 30

The school garden has a perimeter of 38 metres.

Select all the possible shapes of the garden.
