

"Shipping on the Shore"

An informative evening for parents and students (grades 9-12)

Come and join us for an evening presentation featuring contracts won by SEASPAN, a World Class Shipyard, and look at the width and breadth of employment opportunities coming in the near future. Representatives from SEASPAN will give an overview, not just of the Trades opportunities, but a whole host of career pathways. Check out: www.seaspan.com

"From the beginning, we were "In It to Win It", and now the work begins to build Canada's shipbuilding future, right here on the West Coast of British Columbia. Seaspan Marine was awarded a coveted \$8 billion federal contract to build seven new non-combat ships. We've been building ships in Vancouver since 1902, and now we're sharing our passion with a new generation of shipbuilders."

February 11, 2014
6:30-7:30pm

Education Services Centre
Mountain View Room
2121 Lonsdale Avenue, North Vancouver
