Subject: 2015 Government Assisted Refugees Bulletin - Syrian Resettlement in BC

Immigrant Services Society of British Columbia

British Columbians are ready to lend a helping hand in Canada's largest refugee resettlement movement of this generation.

To assist and empower individuals and refugee-serving organizations to help in the resettlement process, ISSofBC in partnership with the Province of British Columbia have created an online Refugee Readiness Hub (<http://www.issbc.org/prim-corp-nav/our-work-with-refugees/refugee-readiness-hub>). The hub is a work in progress; new sections and information will be added on an ongoing basis.

Through the Refugee Readiness Hub users can learn about Syria, read the latest status of the arrival of refugees and find local resettlement programs and services.

Our first two newsletters can be found on our website (<http://issbc.org/prim-corp-nav/our-work-with-refugees/refugee-readiness-hub/newsletters>). Newsletters will be published on a weekly basis until February (and monthly thereafter).

The navigation panel on the left at the Newsletter home page (see link above) provides links to other ISSofBC refugee-related information and materials.
