A. Introduction

In collaboration with the Columbia Basin Alliance for Literacy (CBAL) and other community agencies and partners, SD 10 has had a long and productive history over the past thirteen years of collaborative and evidence-based literacy planning. The school district, CBAL and numerous agencies and organizations, have all worked hard to foster literacy programs and initiatives which address the needs of children from infancy through school age, of adults, and of seniors.

In the past, CBAL has taken a primary leadership role in literacy leadership, creating our community/school district literacy plans and coordinating both adult and family programs as well as school-age children programs. The most recent Community Literacy Plan through Literacy Now, was written by CBAL with extensive input by the CLAC (Community Literacy Advisory Council) in September 2004 after an extensive community consultation process.

We have named our 2008 Literacy Plan a “Community Literacy Plan”. This name honours the hard work that our community partners, especially CBAL, have invested in creating a climate of sustained literacy in our communities already. Our 2008 Community Literacy Plan plan calls for continued collaborative community and district literacy planning, and, impels us forward with renewed vision for broadening community literacy. Working together for literacy is deeply embedded throughout our communities and our school district. The 2008 plan is therefore a process rooted in practice, not just words. We will continue to re-visit and re-tool the goals, the strategies and structures, and evaluate our progress in literacy. Our goal is that the Community Literacy Plan is a living document, owned by all our community literacy partners.

B. Community Literacy Plan Process

i. 2008 Community Literacy Plan Development Process:

Phase 1 – Meetings with CBAL and District Literacy Team: Review of 2004 Community Literacy Plan

October – November 2007

- In October 2007, the School District Literacy Planning Team met with our local Columbia Basin Alliance for Literacy team.
- Together with CBAL and school district literacy partners, we attended the Ministry DLP Regional meeting together in Castlegar
- In October 2007, the District Team and CBAL reviewed the current 2004 *Community Literacy Plan* and noted areas requiring updating and change.
- The District and CBAL literacy team noted that more literacy programs and partners had emerged since the September 2004 had been written, and that some goals set then, had indeed come to fruition.
- The Literacy team began an inventory of literacy programs implemented since the 2004 *Community Literacy Plan*. The following were noted:
 - The Strong Start Centre at Nakusp Elementary School, for example, has increased access to literacy programs for very young children and their families.
 - The School District has also increased literacy structures with the appointment in November 2006 and January 2007 respectively, of a Literacy Coordinator, and an Early Literacy and Numeracy Coordinator.

- Ministry of Education funding through the *Literacy Innovation grants* has been crucial in assisting the District to provide structures such as Literacy Coordinators, to assist in implementing innovative programs such as the School and Community Writers Festivals, to enhance wise literacy practices and staff development in the district, and to purchase professional and at level literacy resources for teachers and for children.
- We were pleased to note that in many areas of the 2004 plan, we had implemented literacy initiatives that remain sustainable and vital in our community. Indeed, many programs such as *Mother Goose*, *One to One Reading*, *Roots of Empathy*, and *Homework Club* as well as the *Nakusp CAP Centre* have gained momentum, and have become important parts of our school district and community literacy cultures.
- The team noted that some literacy initiatives such as the successful *School and Community Writers Festivals* were under review, with the aim of making them even more powerful and evidence – based.
- Aboriginal learners and parents were also noted as a group where we have begun to have conversations about literacy needs through meetings in 2006-07, but where substantive work is still required.

Phase 2 – Expanding Literacy Partners and Planning for Consultation

November 2007 – March 2008

- The team identified the need to increase potential literacy partners representing an even broader community base, and to include the smaller communities in our area (Burton, Fauquier, Edgewood, New Denver, and Silverton)
- The team identified aboriginal literacy partners and added these partners to the list.
- An expanded and updated list of literacy partners and stakeholders was created.
- The team made initial plans for a Community/District Literacy planning consultation meeting with broad community representation.
- Facilitators for this Community/District Literacy meeting were contacted.
- Letters, phone calls and invitations to our Community/District Literacy Plan consultation meeting were made.
- The CBAL/District Literacy team (many of whom had been on the previous Literacy Action Council) reconvened as a steering committee of the 2004 CLAC (Community Literacy Action Council).
- The steering committee reviewed and updated an inventory of all existing and current community literacy initiatives.
- The steering committee began discussions about structures and ways to enhance literacy programs for aboriginal learners and ways to respectfully increase aboriginal voice in creating our Community/District Literacy Plan.

Phase 3 – Community Literacy Partner Consultation Meeting

March 2008

- With the facilitation of Ev Surgenor and Denny Kemprud, we held a very successful community literacy planning meeting in March 2008.
- Literacy partners from communities across the district, from our aboriginal community, from CBAL and other literacy groups came together to review the 2004 plan, talk about new initiatives and programs, and collaborate about future directions and set goals and action plans for 2008.
- Participants from the following groups were represented at this meeting:

- School District 10 – Chairperson, Trustees, Superintendent, Literacy and Numeracy Coordinators, Principals and vice-principals
 - Columbia Basin Alliance – Coordinator, Family Literacy Coordinators
 - Outreach Employment Services
 - New Denver Nursery School
 - Nakusp Strong Start Centre
 - Stepping Stones Children’s Centre
 - Success By Six Coordinator
 - Public Health
 - Southern Zone Parents and Tots
 - Selkirk College – Adult Basic Education
 - Arrow and Slocan Lakes Community Services
 - Nakusp Public Library – Librarian
 - Reading Centres (New Denver, Burton, Fauquier)
 - Municipalities – Silverton Village Council
 - Slocan (New Denver/Silverton) and Nakusp Chamber of Commerce
- The redrafted community literacy plan vision and goals were then collated and drafted into a document distributed to the literacy steering committee.

Phase 4 – Redrafting the Plan

April 2008 – July 2008

- Taking all the input from the broader literacy community, the literacy plan steering committee began redrafting the plan.
- Goals for each pillar were written from the information gathered at the community consultation meeting, and was informed by the community and school data
- The Community Literacy Plan draft was approved on July 14th, 2008 by the Board of Education
- Essentially – this is where we are in the process – we have a draft plan, approved by the Board, and next to be approved by our literacy partner groups.

Phase 5 – Approval of the Community Literacy Plan

September 2008 - December 2008

- The plan will be sent out to each of our literacy partners for their input and feedback will be gathered in the fall of 2008.
- District Literacy partner groups will be asked to join a Community Literacy Advisory Group (CLAG) to meet, review the draft plan, and meet on an ongoing basis to update and confirm the Community Literacy Plan
- A consultation meeting with the Community Literacy Advisory Group will be held in October/November where we will present the draft literacy plan, share feedback from literacy partners to date, incorporate any further revisions, and work towards approval of the plan.
- The approved Community Literacy Plan will be posted on the SD 10 website and shared with all community literacy partners.
- Ongoing review of the plan will be made at least twice per year by the literacy steering committee and the Community Literacy Advisory Group.

ii. Community Literacy Plan 2008: Our Vision and Definition of Literacy Revisited

Definition of Literacy:

The definition in the 2004 Community Literacy Plan was based on the International Adult Literacy Survey (IALS, 1995). That definition is as follows:

“Literacy is the ability to understand and use printed information in daily activities at home, at work and in the community to achieve ones goals, and to develop ones knowledge and potential”.

The IALS expands upon this definition by describing three components. They are as follows:

1. Prose literacy: the knowledge and skills needed to understand and use information from texts including editorials, news, stories poems and fiction
2. Document Literacy: the knowledge and skills needed to locate and use information contained in various formats, including job applications, payroll forms, transportation schedules, map tables and graphs
3. Quantitative Literacy: the ability to work with numbers and conduct quantitative operations, such as balancing a check book, figuring out a tip, completing an order form or determining interest on a loan.

Feedback from participants at the March 2008 Consultation meeting suggests that the definition of literacy in our 2008 Community Literacy Plan should now read:

“Literacy is comprised of a complex set of social, printed and oral language and numeracy skills necessary for daily life, employment, citizenship, self-esteem and personal enjoyment in our modern and diverse society. Literacy permits and enhances the individual’s ability to communicate, process information, and interact effectively in the community”.

Vision:

The vision statement in the 2004 Community Literacy Plan was as follows:

- “Building healthy communities across the Arrow and Slovan Lakes”

Feedback from participants at the March 2008 Consultation meeting suggests that the Vision Statement in our 2008 Community Literacy Plan should read:

- “Building active, participatory connections for healthy learning communities for all individuals across the Arrow Slovan Lakes Region”

C. District and Community Context

1. Community Data

i. Our Community Profile:

a. A Brief History - From our First Peoples to now

3000-5000 years ago, three First Nations Bands came into this area - the Shuswap from the Okanagan, the Colville from Washington and the Kutenai from the East Kootenays. The Sinixt people hunted and fished in our communities for at least 1500 years. Pictographs, arrowheads, pit houses, all remain as evidence of the aboriginal presence and Sinixt people as well as other First Nations and Metis people remain a vital part of our community.

b. Gold, Silver and Forests – a history of settlement from the 1800s

The first white man on the Arrow Lakes was Finan McDonald, one of David Thompson's men, who arrived just north of Revelstoke in August 1811. The first settlers arrived in the area in 1890. The first steamer 'Forty Nine' was launched in Washington to carry freight and passengers to the gold fields during the Big Bend Gold Rush (1865). Nakusp's settlement history begins in 1892 when the town site was put up for sale by the Rand Brothers. Twenty-five foot lots sold for \$300 each. Speculation was that Nakusp would become a mining town. Since there were no roads or railways between the Kootenay mining areas and Vancouver, goods had to be shipped by water transport from Nakusp to Revelstoke where the main CPR line was located, and for a time Nakusp became a thriving community on this shipping route. The first post office, the first store and the first sawmill opened in 1892. *The Nakusp Ledge*, the first newspaper, was first published on October 5, 1893. The first church opened its doors in 1898. The first school opened in 1895 with an enrollment of 9 in the one room. Communications came in 1905 with telephone service. The first hospital opened in 1908, and the first bank in 1909. Power arrived in Nakusp¹ in 1920 along with the first volunteer fire brigade. In 1905 Nakusp had a population of about 300 residents.

¹ Electrical power to the entire Arrow and Slokan Lakes area has not yet been established. Trout Lake received power in 2001. There is no cell service, except in downtown Nakusp. High speed internet is only available in downtown Nakusp.

c. Villages of Nakusp, New Denver and Silverton-History and context

The Village of Nakusp was incorporated November 24, 1964 with Joseph Parent as the first mayor. The current population is about 1750 people in the village of Nakusp, and 3500 in the entire Arrow and Slocan Lakes region. The area covers more than 8000 square kms, making it the largest community area of the Columbia Basin. The area compares in size to the area covered by Squamish to the north, south of Vancouver along the west coast and to Hope in the east, yet the Arrow and Slocan Lakes area hosts a small population, sparsely spread over this large geographically challenging area where travel is especially difficult in the winter months. Ferries connect the region in the north to Revelstoke, and in the south to the Okanagan.

The Village of New Denver was incorporated in 1929. New Denver is located 50 kms south of Nakusp. The village was at the heart of the mining boom of the 1880's. It served as home to many Japanese interns during World War II. Today it hosts a population of 600. Employment is mainly based on retail trade, health and social services and forestry. Silverton, 3 km south of New Denver, is British Columbia's smallest municipality. The village is home to 225 people, and like New Denver, Silverton shares a mining heritage.

d. SD # 10 (Arrow Lakes) - District Schools Profile:

Lucerne Elementary-Secondary School (LESS) serves the communities of New Denver, Rosebery, Silverton and Hills. There is a preschool and a Facilitated Learning Centre co-located at LESS and in September 2008, there will also be a Strong Start Centre. Trout Lake, Galena Bay and Beaton to the north of Nakusp were boisterous mining towns a century ago. The area is now frequented by cottagers and fishermen, and hosts a year round population of under 100 people. To the southwest of Nakusp are the communities of Burton, Fauquier and Edgewood. Schools are located in Burton (grades K-3) and in Edgewood (grades K-7). Edgewood also has a CAP (Community Access Program) site. Edgewood is a 65 km drive (plus a ferry) from Nakusp. These three communities host a combined population of around 1000 people.

e. Economy of the area

Forestry overtook mining as the main economic driver for the area in the early 1950s and continues to be foundation of the economy of our communities. Celgar began operations in 1951, and Nakusp became the centre of a large pole and lumber industry. Interfor now operate the main forestry operation in Nakusp, and several mills are currently in operation though precariously so. Likewise, in the New Denver area, logging contractors and the log dump at Rosebery are working, but remain responsive to fluctuations in softwood lumber prices, the American dollar, and other aspects of the lumber trade. With the cyclical nature of the forestry industry, the communities in the area are looking for ways to diversify and attract visitors. There is one molybdenum mine open in the Trout Lake area and a silver/zinc mine in Sandon, just outside New Denver. The area is home to natural hot springs. The Village of Nakusp owns and operates the Nakusp Hot Springs, a viable community asset.

Corky Evans, MLA for Kootenay-Columbia and former Administrator for Arrow and Slocan Lakes Community Services, had this to say about the Nakusp area:

Nakusp is a typical Canadian rural community in transition and at risk of decline. It is a community built on an economic base of mining, forestry, and agriculture, which is struggling toward transition in an era where these economic drivers are no longer capable of sustaining the community or of offering employment to its youth. It is a proud and independent community not interested in living off government assistance and not willing to go quietly into a pastoral memory of itself.

Nakusp is the perfect metaphor for rural Canada. It is a community that has lived through the boom and bust cycles of all of our major industries, and is therefore a perfect laboratory for positive change. The community is just isolated enough to still function as a homogeneous community and just connected enough to outside culture to experience all of the stresses of modern rural life.²

f. The Columbia River Treaty

The signing of the Columbia River Treaty in 1964 had a huge impact on this area. Dams were built on the river, and the area was flooded out.

² *Bootstrap Proposal to Western Economic Diversification 2001, p 3.*

Suddenly the resident land owners were dealt an emotional impact package that made living in the area hectic, like being inside a giant sized kaleidoscope that wouldn't stop turning long enough to enable a pattern to be seen.³

The flooding was a controversial subject among community members, but the reality was that in 10 short years, homes and farms would be leveled, graveyards and rich agricultural land would be under water. Today, when the reservoir is full, the Arrow 'lake' is beautiful; however, the reservoir is only full for a short time in the summer months. The remaining months unearth buried treasures from the past and produce sandstorms along the miles of dry shoreline. This history and the grave history of the area's First Nations people have led to a great deal of sadness among the people living in this area.

g. The Sinixt People

An Interior Salishan band, the Sinixt (*People living in the Place of the Bull Trout*) settled in the Arrow Lakes area. Prior to European contact, they numbered in the tens of thousands in the Columbia Mountains of southeastern B.C. Carbon-dated remains and unique burial practices document historical Sinixt territory: from Revelstoke, B.C. south to Northport, Washington, from the Monashee Mountains east to the shores of Kootenay Lake. The Canadian Government declared the Sinixt extinct in 1956. Some Sinixt People sought refuge among neighbouring bands to the east and west, and many had gone south to the U.S., the southernmost reaches of their traditional territory. The signing of the Columbia River Treaty providing the U.S. with vast amounts of water resources contained within Sinixt territory in exchange for a cash settlement to Canada. The Sinixt People, scattered widely, received no compensation. Research into their past was discouraged by their lack of official status and gradually, knowledge of their existence began to fade.⁴

h. The Community Literacy Demographics and Profile:

School District #10 Arrow Lakes and Selkirk College serve the three incorporated municipalities of Silverton, New Denver and Nakusp, and the unincorporated areas of Hills, Rosebery, Trout Lake, Burton, Fauquier and Edgewood. There are five schools with a total student population of 608 students. Of these 608 students, there are 63 (10.4% of the population) with special needs.

³ *Whistle Stops Along the Columbia River*, p 405.

⁴ Sinixt Nation, June 2005 <http://sinixt.kics.bc.ca/history-home.html>.

The average family income in 2004 in the area was \$20 000 less than the provincial average. Close to 20% of the population lives below the low-income cut-off. 25% of the population has less than Grade 12 education, with 50% not having completing Grade 12. 37.8% of 18 year olds did not graduate between 2002-2004, as compared to the provincial average of 24.9%. In 2007, the graduation rate was 82% - 18% did not graduate – an improving statistic, but as the cohort sizes are so small, this data must be weighed over time to be statistically measurable. Unemployment is the highest in the Kootenays at 15.2%. Youth unemployment is 40.7%.⁵

Partnerships with Selkirk College, School District #10, Nakusp Public Library, Arrow and Slocan Lakes Community Services and the Columbia Basin Alliance for Literacy have also provided a number of literacy resources and services for the area to address the early learning needs, but more resources are needed to change the above situation.

ii. Early Development Indicator (EDI) Summary – 2005 and 2007

The Early Development Indicator in 2005 placed the Arrow Lakes area in the high vulnerability range in the categories of physical health and wellbeing, social competence, language and cognitive development, and communication skills and general knowledge.⁶ In 2007, the EDI results improved substantially as seen in the summary below.

2007 Early Childhood Development Data - Indicates decreasing trend in vulnerability

All domains of development, with the exception of Emotional Maturity, had decreases in vulnerability.(We are one of the six districts demonstrating improvement in this Wave of Assessment).

The District's continued early literacy work and commitment to networking with its partners – the Columbia Basin Alliance for Literacy and the Healthy Families Group – may in large part be responsible for this improvement. We remain however, cautious of interpreting large swings in trends, as our district population consists of very small samplings.

⁵ Local Health Area 10-Arrow Lakes Statistical Profile

⁶ Early Development Indicator Community Map Highlights (Clyde Hertzman et al).

2007 EDI Data

	%vulnerable		+/- % change
	2005	2007	Change
	2005	2007	
Physical Health & Well-being	17.9	6.3	- 11.6
Social Competence	17.9	12.7	-5.2
Emotional Maturity	10.3	12.7	+2.4
Language and Cognitive Development	15.4	11.4	- 4
Communication Skills and General Knowledge	17.9	15.2	-2.7

iii. Our Current Community and District Literacy Resources and Services

a. Our main resource: a commitment to working together to improve literacy.

We plan, innovate, and act best together by building incrementally and wisely on the literacy assets that already exist in the community.⁷

Some of the assets pointed out by the participants of the community literacy planning session held in Nakusp on September 28, 2005 and confirmed in March 2008 at our District Consultation meeting consist of the following:

- ❑ The positive impacts on children, their joys in learning to read and being read to.
- ❑ The growth in the family literacy programs, and the successes in bringing out parents who have not been involved in the past.
- ❑ Strong parental support for children's learning and literacy development.
- ❑ Greater partnerships between the School District #10, Selkirk College, Arrow and Slovan Lakes Community Services and the Columbia Basin Alliance for Literacy. The recognition of the mutual supports that are possible by working together, and an awareness that no one agency can do it all for everybody.
- ❑ Early assessment and intervention with elementary school children facing reading and writing challenges.
- ❑ The expansion of SMART Reading instructional strategies in our schools.
- ❑ Homework clubs and the One-to-One Reading programs in the schools.
- ❑ The District Writers' Festival which celebrates literacy throughout SD 10.

⁷ Gavin Perryman, September 28, 2005.

- ❑ The supportive work of learning and teaching assistants in the schools.
- ❑ The adult ABE programs run by Selkirk College, and the positive successes with adult learners.
- ❑ The fact that there are diverse literacy programs and resources to refer people to.
- ❑ The capacity and ingenuity of the communities and local people to create resources that ensure that people are as up to date technologically as in urban areas.
- ❑ The commitment of local non profit organizations and their boards to literacy work.
- ❑ Students who continue to excel under difficult circumstances.
- ❑ CAP sites in Edgewood, Burton and Nakusp.
- ❑ The branching out of literacy programs to the smaller communities.
- ❑ The beginning roots of the idea of a learning community.
- ❑ Greater awareness and support for the idea that learning does not just happen in schools.
- ❑ The use of the library, the range of information that people are seeking from the library, and the range of materials at the library.
- ❑ Available space in closed schools and offices.

2. School District Data.....

i. District Assessment Data – Early Learning data

The district uses PM Benchmarks, the Early Literacy Screener, and the Early Numeracy Interview to assist in planning for learning for primary children. As identified in our Achievement Contract, our data continues to show vulnerability in our early learners and therefore our efforts to improve early success will persist as important goals both in our Community Literacy Plan and in our Achievement Contract.

Kindergarten Data for 2005 – 2008 shows that children entering Kindergarten in our area continue to show high vulnerability.

Percentage(%) Vulnerable as identified on the screener

The literacy assessments conducted in the 2005/06 cohort of kindergarten children indicates 7 of the 37 children, or 18.9% of the children, have been identified “at risk” in language development. The 2006-07 kindergarten cohort literacy assessment indicates that 8 of 35 or 22.8 % are at risk. The data from spring 2008 assessment indicates that 14 of 33 children or 33% of the children leaving kindergarten experience challenges in early literacy skills. This data in part is supported by data provided in the Hertzman study.

Kindergarten Vulnerability- in 3 more area of screener
 2007-2008

Vulnerable in 3 or greater areas		Performance Level Unknown			Number Vulnerable	% Vulnerable	Target % Gr 1 Reduce 5%
	#	#			#	%	%
Kindergarten	37	0			14	38	33

2006-2007

Vulnerable in 3 or greater areas		Performance Level Unknown			Number Vulnerable	% Vulnerable	
	#	#			#	%	
Kindergarten	35	0			8	35	

2005-2006

Vulnerable in 3 or greater areas		Performance Level Unknown			Number Vulnerable	% Vulnerable	
	#	#			#	%	
Kindergarten	37	0			7	19	

The kindergarten screening data 2008 specifically indicates that a great number and percentage-14 children of the 33 or 38%- of our kindergarten children experience challenges with phonological awareness, letter recognition and concepts about print.

With this understanding, additional resources in terms of learning assistance and print resources will be provided to the individuals identified and instructional strategies such as assessment for learning will be further embedded in classroom practice. Connections with other early learning literacy partners and programs such as Strong Start will also continue to focus our resources on these vulnerable children.

ii. District Assessment Data – Grades 3-8 Reading; Grades 2-10 Writing

a. District Reading Assessment Data

- Background and context for district reading assessments

The district assesses students' achievement in reading using the Whole Class Reading Assessment from Grades 3-8. April 2008 marks the second year we have used the WCA reading assessment and we now have reliable baseline data in reading across the district.

Reading assessments are assessed collaboratively by teachers from across the district using the BC Performance Standards in Reading. Results are disaggregated for boys and girls, for aboriginal students, for special needs students and are also tracked over time by cohort group and PEN numbers.

2008 District Reading assessment results

Comparison of 2007 baseline reading data to 2008 results

- Student achievement has increased in some grades across the district in reading.
- More students are approaching, meeting or exceeding expectations in 2008 than 2007.
- Struggling students (those not yet meeting or minimally meeting) have shown the least improvement from 2007 to 2008.
- Grade 7 students across the district as a group have shown the greatest improvement in writing at all levels of the performance scales; in reading, at some levels.
- Indications for improving student achievement for each grade across the district are noted in the Literary Data Analysis report. These indications suggest specific strategies and structures to improve student achievement across the district.
- Our 2008 data shows that students need more skills overall in
 - these **Reading** aspects: Main Ideas/Important Ideas/Note-taking
 - Extracting Information from text and text features
 - Inferences/Connections/Conclusions and Interpretations

**b. 2008 District Writing Assessment Data
 - Background and context for district writing assessment**

Writing is assessed by the district each April using an impromptu writing task and BC Performance Standards in Writing. Students in Grades 2 – 10 participate in the district writing assessment. Writing assessment data has been collected and assessed over the past two years by means of a collaborative marking model with teachers from across the district trained using exemplars and performance standards in writing.

The data is used to inform staff development initiatives, to focus our goals in the district Achievement contract and Community Literacy Plan. At the school level, the data is used by School Planning Councils and school staff to inform School Growth Plans, and to determine progress in meeting those goals. Results are disaggregated for boys and girls, for aboriginal students, and for special needs students and are also tracked over time by cohort group and PEN numbers.

District Writing assessment results

Comparison of 2007 baseline writing data to 2008 results:

- Student achievement has increased somewhat in most grades across the district in writing.
- More students are approaching, meeting or exceeding expectations in 2008 than 2007.
- Struggling students (those not yet meeting or minimally meeting) have shown the least

- improvement from 2007 to 2008.
- Grade 7 students across the district as a group have shown the greatest improvement in writing at all aspects of the performance scales
 - Our 2008 data shows that overall students in the district need more skills in these **Writing** aspects: Style (Clarity/Variety/Impact of Language)
Form (Beginning/middle/end; Sequence/Connecting words)
Conventions (Complete Sentences/Spelling/Grammar/Capitals)

iii. FSA Scores

2008 FSA results show similarities and also differences when compared with district data as shown in the tables below.

A. Grade 4 Reading – FSA and District Literacy Assessment Data Comparison

2008 District Reading data: 36% minimally meeting; 55% approaching; 9% fully meeting

2007 District Reading data: 3% not meeting; 37% minimally meeting; 54% approaching; 6% fully meeting

2008 FSA Reading Data: 15% not yet meeting; 60% meeting; 17% exceeding

There is a small decrease of students not yet meeting but overall the results from 2007 and 2008 remain almost identical

FSA results show a higher number of Grade 4 students not yet meeting as well as exceeding expectations than district assessment

C. Grade 7 Reading – FSA and District Literacy Assessment Data Comparison

2008 District Reading data: 6% not meeting; 24% minimally meeting; 44% approaching; 24% fully meeting; 2% exceeding

2007 District Reading data: 4% not meeting; 30% minimally meeting; 51% approaching; 15% fully meeting

2008 FSA Reading Data: 18% not meeting; 61% meeting; 7% exceeding

Students in this cohort have generally improved their achievement. There are 6% fewer students minimally meeting expectations. Though the number of students approaching expectations has dropped 7%, the number of students fully meeting expectations has risen 9% to a total of 24%. 2% of students in this cohort now exceed expectations.

FSA results show a much larger group of students not meeting grade level expectations (18%) in reading than is shown in the district assessment (8%).

D. Grade 7 Writing – FSA and District Literacy Assessment Data Comparison

2008 District Writing data: 11% not yet meeting; 34% minimally meeting; 23% approaching; 21% fully meeting; 11% exceeding expectations

2007 District Writing data: 9% not yet meeting expectations; 22% minimally meeting; 33% approaching; 35% fully meeting; 1% exceeding expectations

2008 FSA Writing data: 7% not yet meeting; 70% minimally meeting; 9% exceeding expectations

District data shows a slight decrease in achievement in Grade 7 writing with 2% more students not yet meeting and 12% more students in the minimally meeting categories.

Likewise, there are 10% fewer students in the approaching expectations category.

14% fewer students are in the fully meeting category but these are likely shown as the additional 10% of Grade 7s exceeding expectations.

The FSA results match the district writing assessment results closely.

iv. Graduation and Transition Rates Graduation Completion Rates 2002 – 2007

Graduation completion rates remain above the provincial average and generally show an increase over time. However, since the size of the cohort groups remains small, caution in interpreting this positive data trend is advised. From year to year, the composition of the graduating classes varies in the two secondary schools located in the district. Overall however, we are focusing on tailoring graduation programs to meet the needs of all of our learners and thereby increasing their success.

The success of aboriginal learners (9.40% of our district population) in completing graduation remains higher than the provincial average. Again, though cohort size and composition of aboriginal learners graduating varies, we are continuing to work on improving aboriginal literacy and graduation rates. Our Aboriginal Enhancement Agreement draft and Achievement Contract align with this goal.

	2001-02	2002-03	2003-04	2004-05	2005-06	2006-07	6 yr avg
Grad Rate	87	88	95	93	98	-	
Dogwood	85	78	77	73	90	83.7	81.6 %

** (awaiting confirmation)

Current tracking indicates that in the 2006/07 cohort 4 student out of 31 registered in grade 12 did not meet all course credit requirements

v. 2008 Writers Festival data

One of the district's innovative literacy practices is our annual Writers Festival. Writers from across the region, the province and Canada work with our students to improve their writing skills and celebrate their writing achievements. In 2008, we hosted lengthier "writers in residencies" for students in four of the five district schools to much success. The data summary of this year's Writers Festival is below.

2008 Writers Festival Data:

Qualitative and quantitative data from students and from teachers indicates that almost all strongly agree or agree (94%) that

- students “learned to become better writers” as a result of the Writers Festival residencies and workshops.
- Qualitative data from teachers indicates that they learned skills in teaching writing from the professional writers, and that teachers saw growth in their students’ learning as evidenced in student writing.
- Grade 11/12 students at Lucerne completed BC Performance Standards assessments of their poetry before and after the writers festival. 100% of these students improved their skills in using voice, descriptive language and imagery.

vi. Network of Performance-Based Schools – Online Lit Circle data

We have been at the forefront of this literacy-enhancing instructional practice for the past two and half years. This year, we embarked on a Network of Performance-based Schools inquiry project to ascertain the impact of our work using Online Literature Circles on student learning. Our results mirror the positive qualitative feedback and data that students and teachers have given over the past two years and show improvements especially for struggling students. Here are the results:

Fall 2007 data – Performance standards in Reading	Spring 2008 data – Performance standards in Reading
2	3
2	3
3	3.5
3	3.5
4	3.5
3	3.5
3	3
3.5	4
2	3
2	3
3.5	4
2	3
1	3
4	4
3	3.5
2	3.5
3.5	4
3	3.5
3	3.5
3.5	3.5

Summary of NPBS 2007-08 Online Literature Circle Data	
5 % Not Yet Meeting 30 % Approaching 55 % Meeting Expectations 10 % Exceeding Expectations	0 % Not Yet Meeting 0 % Approaching Expectations 80 % Meeting Expectations 20 % Exceeding Expectations

As a result of these results, we have expanded the online literature circles this spring to classrooms across the district from Grades 5 – 12. The use of diverse texts and text with aboriginal voice or content are a foundation of the online literature circles as well as an increase of reading volume as a result of the instructional design of this practice.

D. Literacy Context

i. Community Literacy Assets

As a result of rich and long term literacy partnerships between CBAL, Selkirk College, our Healthy Families network, preschools, and Public Library and Reading Centres, we have a wide array of programs that help enhance community literacy. Our aim is therefore to continue to enhance these partnerships, to collectively identify areas of gap and challenge, and to do our best to improve literacy amongst all four pillars in our Community Literacy Plan.

Inventory of Current Arrow/Slocan Lakes Community Literacy Assets

I. Selkirk College/CBAL/ & Community (Pillars 3 & 4)

- A. Adult One on One Tutoring Program (Nakusp)
- B. Senior's Reading Program (New Denver Pavilion)
- C. Senior's Computer Classes (Nakusp)
- D. ESL Group Tutoring (New Denver)
- E. CAP Sites (Edgewood, Nakusp)
- F. Basic Skills upgrading
- G. Support for Distance Ed. Learning
- H. Continuing Education
- I. High School completion
- J. Community Education
- K. Raise a Reader – Literacy Development Program (Edgewood)

II. CBAL/Preschools/SD10/Community (Pillars 1, 2 & 4)

- A. Parent Child Mother Goose (New Denver, Nakusp, Edgewood)
- B. LAFF (Learning Adventures for Families) (Nakusp, Edgewood)
- C. Family Story Time (Nakusp, New Denver)
- D. CAPC Family Programs (Nakusp)
- E. Books for Babies (Burton, Fauquier, Edgewood, Nakusp, New Denver)
- F. Ready, Set, Learn (Burton, Fauquier, Edgewood, Nakusp, New Denver)
- G. Success by Six
- H. Bursaries for Preschool (Nakusp/New Denver)
- I. Communication Centre (Fauquier)

III. CBAL & SD 10 (Pillars 2 & 4)

- A. One to One Reading (Burton, Nakusp, New Denver)
- B. Home Work Club/Interact (Nakusp, New Denver)
- C. Roots of Empathy (Nakusp, New Denver)
- D. Home Work Club/Interact (Nakusp, New Denver)
- E. Youth Writer's Group (Nakusp)
- F. Youth Book Club (Nakusp)
- G. Youth Movie Nights (Nakusp)
- H. CAP Sites (Edgewood, Nakusp)
- I. Community Radio Station*SD10/CBAL (Nakusp)
- J. Strong Start Centres (Nakusp and, in Fall 2008, also New Denver)
- K. Family Movie Nights(Fauquier)

IV. Community Futures (Pillars 2, 3 &4)

- A. Adult Workplace Literacy
- B. Trades Training
- C. Supported Employment: Youth/Adult
- D. A.C.C.E.S.S.

V. Regional/Provincial (Pillars 1 & 2)

- A. Supported Child Care
- B. FASD

VI. Public Health (Pillars 1 & 2)

- A. Public Health Nursing
- B. Community Dental Health
- C. Books for Babies

VII. Libraries/SD10/CBAL/Community (Pillars 1, 2, 3 & 4)

- A. Classes visit the public library regularly from NES
- B. Five 12-16 year old volunteers at the Public Library
- C. Monthly book discussion at the Public Library
- D. Individual tutoring of students at the Public Library
- E. Summer Reading Program
- F. Computers for public use
- G. Places for children and adults to study and read
- H. Free Library card available to all students in SD #10
- I. BC One card available to everyone
- J. “Step into Reading” and a “Leap into Reading” collection for parents
- K. Preschool Reading time
- L. Monthly BiblioBus

ii. Alignment with CBAL Community Literacy Plan (2004)

As identified in the Introduction of our Community Literacy Plan, this current plan is built upon the structure and the vision of the 2004 Columbia Basin Alliance for Literacy (Literacy Now) Community Literacy Plan.

CBAL Literacy Coordinator, Jennifer Cliff-Marks, remains on the Community Literacy Advisory Committee and the plan steering committee. In our March 2008 Community Consultation meeting, the 2004 CBAL plan was reviewed and refined. Our community literacy definitions, vision and goals were therefore developed in respectful concert with CBAL and our plan is aligned with previous CBAL Community Literacy planning.

iii. Alignment with District Achievement Contract Literacy Plan

Development of the District Achievement Contract and the Community Literacy Plan are aligned. In addition, our Literacy Innovation Grant goals and structures align with both the District Achievement Contract and the Community Literacy Plan. Indeed, we work closely together in the district to ensure that planning for literacy matches with school identified needs and with data derived from district and provincial data sources. Our strategies and structures in the Achievement Contract then, dovetail with those identified in the Literacy Innovation Grant and the Community Literacy Plan. Likewise, goals in all district documents also intersect and strengthen one another.

iv. Draft Aboriginal Enhancement Agreement

The district has been working for several years now with our aboriginal and First Nations partners to develop an Aboriginal Enhancement Agreement. In May of this year, our first draft agreement was written, based on input from the Arrow Lakes Aboriginal Advisory Council (ALAEAC) over these past years.

Areas of alignment in premise and purpose between the draft agreement and the Community Literacy Plan include the following:

- A holistic educational approach to improve the knowledge, understanding and awareness of aboriginal culture throughout the school district.
- Educational programs and services that are broad-based and inclusive and reach out to all students of aboriginal ancestry as well as non-aboriginal students.
- Targeted educational support for at-risk students of aboriginal ancestry.

Furthermore, congruence in goals for aboriginal students as identified in the draft enhancement agreement also match with the Community Literacy Plan as follows:

- To increase awareness, knowledge, appreciation and respect for aboriginal culture and history for all students. Through this shared experience, students of aboriginal ancestry have the opportunity to enhance their sense of belonging and pride in their aboriginal ancestry.
- To a) improve aboriginal student achievement in Reading, Writing, Numeracy, Science and Social Studies.
and b) provide specific support to at-risk students
- To provide interventions in the context of supporting the “whole child” – ie: physical and emotional health
- To create a commitment statement within our adult aboriginal community in year two of the agreement which focuses on finding ways to heal, embrace, and promote aboriginal cultural diversity.

E. Challenges and Gaps

Based on community and district data, we have identified the following gaps which therefore have informed our Community Literacy Plan goals:

- The need for continued focus on early learning. Our children remain vulnerable as shown by both EDI and district early literacy screener data.
- The need for increased partnerships and work with all our district literacy partners to improve literacy across the four pillars. Our Community Consultation meetings were successful in broadening the base of literacy partners across the entire geographically dispersed range of our school district and rural communities.
- The need to further focus our efforts to improve literacy for our school-aged children.

F. Community Literacy Plan Goals and Actions

F.1. Background and Context for Goal Development from March 2008 Community Literacy Plan Consultation meeting:

What is Literacy?

Literacy is the complex set of skills necessary for daily life, employment, citizenship and personal enjoyment of our modern and diverse society.

Literacy is the gateway to a better-educated community.

Why is Literacy Important?

- It is a widespread issue affecting all British Columbians
 - It influences labour market supply and demand
 - Employment and earnings are closely linked to literacy
 - It impacts our health and quality of life
 - Improved literacy reduces criminal behaviour
 - Particular segments of society are dramatically affected
 - Some barriers to learning are hidden and require intervention
 - Our social and economic prosperity depends on it
- Premier's Advisory Panel on Literacy (February, 2005)

BC Stats

- 25% of our children arrive at kindergarten unprepared to learn
- 20% of our grade 4 and 7 students are not reading at expected levels for their age
- 44% of our Aboriginal students are not reading at expected levels in grade 7
- 20% of our students are not graduating within 6 years of entering grade 8
- 54% of our Aboriginal students are not graduating within 6 years of entering grade 8
- Approximately 40% of adults in British Columbia have low literacy skills

Being more literate means:

- More of our children arrive in kindergarten ready to learn
- More of our school children are skilled in the basics of reading, writing and mathematics
- Our completion rate for grade 12 is higher
- A higher proportion of our adults have the literacy skills to participate in a knowledge-based economy and society
- We have an accessible and coordinated literacy plan

F.2.1 Pillar One - Young Children:

1. Goal One -

We will reduce the number of children who come to school unprepared to learn utilizing the EDI data and Early Literacy Screener as baseline data

Implementation Plans/Action

- Strong Start Centres both at Nakusp Elementary (since Sept 2007) and Lucerne Elementary Secondary (starting in September 2008)
- Ready Set Learn
- Co-location of pre-school and Strong Start centres in district elementary schools
- Raise a Reader program
- Partnerships with early learning community partners (Oral Language)
- Understanding the Early Years research in 3 Kootenay districts (Kim Adamson) – EDI – complement and extend EDI work – student and adult surveys

Evaluation

- Participation levels in these early learning activities across the district.
- Performance on the EDI and Early Literacy Screener by Kindergarten students

2. Goal Two –

We will continue to work with the community pre-schools, families, Columbia Basin Alliance for Literacy(CBAL), Healthy Families Group, Strong Start Centres, and through Public Library and community Reading Centres on language development activities to increase language skills prior to kindergarten. This goal is connected to the District Achievement Contract.

Implementation Plans/Action

- Continue Healthy Families committee networking to improve success for early learners
- Implement Strong Start Centre in New Denver at Lucerne School
- Offer collaborative inservice with Erica Warkentin in SMART oral language development for all community early learning partners

Evaluation

- Participation levels in these early learning partnerships across the district.
- Qualitative feedback from early learning partners.

F.2.2 Pillar Two - School Age Children:

1. Goal One –

We will reduce the number of children reading and writing below grade level in Grade Three to Ten as identified in District Literacy Assessments and FSAs

Implementation Plans/Action

- Build teacher literacy capacity in SMART Learning, reading strategies, assessment for learning, differentiated instruction, online literature circles etc., by offering a variety of professional collaborative learning groups. This plan coincides with the District Achievement Contract strategies and is shown in more detail in Appendix IV.
- Increase use of performance standards in reading and writing and of classroom-based assessment for learning practices to inform and guide instruction.
- Increase school and teacher participation in the Network of Performance-based Schools
- Expand Literacy teacher team representation to all district schools
- Increase use of at –level and aboriginal and diverse text in all classrooms; increase guided reading to intermediate levels; increase online literature circles and other practices that increase reading volume and just-right reading text

Evaluation

- Participation levels in professional learning groups, the Literacy teacher team, and Network of Performance-based schools
- Survey staff for baseline and use of performance standards and classroom-based assessment for learning strategies; identify teacher needs for inservice; summative data of teacher use of AFL and performance standards to improve student learning
- Expanded resources available to all schools: at level text, diverse text, and aboriginal and culturally diverse text.
- Data from 2008 District Reading and Writing assessments.

2. Goal Two –

We will increase the number of students graduating with Dogwoods and School Completion certificates. (Currently we have a graduation rate of 82%)

Implementation Plans/Action

- Graduation Transition Plans in place for all students identifying post-secondary goals and steps to achieve graduation
- Identify and support at – risk students through Special Education, Counselling, and Learning assistance
- Investigate post-secondary/high school Trades Training trailers to augment apprenticeship and trades training opportunities
- Liaise with Selkirk College ABE program to provide augmentative support to struggling students

Evaluation

- Increase in Dogwood/School Completion certificates

F.2.3 Pillar Three - Adults:

1. Goal One –

Increase our collaboration with post-secondary adult learning programs to enhance adult literacy outcomes.

Implementation Plan/Actions

- Community Literacy Plan Steering Committee to work more closely with Selkirk College
- Work with newly appointed Transitions Coordinator at Selkirk College
- Gain greater access to Selkirk Trades programs or other post-secondary Trades training programs

Evaluation

- Inclusion of Selkirk College on Literacy Plan Steering Committee
- Report on trades and other transitions training opportunities

2. Goal Two –

Increase literacy partnerships and programs for adults in our communities across the entire district.

Implementation Plans/Actions

- Increase library service to New Denver, Silverton, Hills and the southern zone (Burton, Fauquier and Edgewood)
- Enhance presence of Selkirk College programs throughout the region
- Increase Family literacy programs for New Denver, Silverton, Hills, Burton, Fauquier and Edgewood communities

Evaluation

- Library services increased to outlying communities in the district
- Marketing of Selkirk College programs
- Increase of Family Literacy programs in the outlying communities

3. Goal Three –

In our work with CBAL, Raise a Reader and Selkirk College, enable a higher proportion of our adults to develop the literacy skills they need to participate in a knowledge-based economy and society.

Implementation Plan/Actions

- Family and Community training in Raise a Reader
- One to one Reading for adults and children
- Seniors computer classes/ CAP site access

Evaluation

- Participation in Raise a Reader, One to One Reading, and Seniors computer classes
- CAP site use

F.2.4 Pillar Four – Aboriginal

1. Goal One -

We will maintain the high rate of success enjoyed by Aboriginal students in SD 10 (Arrow Lakes) as determined by Grade Seven reading levels and Graduation rates.

Implementation Plans/Actions

- Seek for the first time, MOE funding to support aboriginal learners
- Inquiry – based Aboriginal Network of Performance – based Schools project(s)
- Continue to purchase learning resources with First Nations content, voice and authorship
- Increase aboriginal cultural opportunities for all students and community members

Evaluation

- Ministry support for aboriginal learners, resources and cultural activities
- Participate in Aboriginal NPBS project
- Purchase of aboriginal text and learning resources
- At least one aboriginal cultural experience for schools/community

2. Goal Two –

We will complete the local Aboriginal Enhancement Agreement in 2008-09

Implementation Plans/Actions

- Approval of the Draft Agreement in Fall 2008 by ALAEAC (Arrow Lakes Aboriginal Education Advisory Council)
- Celebration of the signing of the Aboriginal Enhancement Agreement

Evaluation

- A signed agreement in place by July 2009.

F.3 Overall Community Literacy Plan Goals:

- **F.3.1 Goal One** - We will educate and inform our region as to the importance of literacy and the work we are doing within each Pillar..

Implementation Plans/Actions

- School district literacy website developed and publicized in local media
- Community Literacy pamphlet in Reading Centres, Libraries, Selkirk College, pre-schools, Strong Start Centres and other community places
- CBAL links – both print and online

Evaluation

- Literacy websites developed and hosted by school district and CBAL
- Community literacy pamphlet created and distributed

- **F.3.2 Goal Two** - We will formalize our relationship with the Arrow/Slocan Lakes Regional Development Council, given the importance literacy plays in economic renewal and social planning.

Implementation Plans/Actions

- Seek a literacy voice on the Regional Development Council

Evaluation

- Representation/literacy champion on the Arrow/Slocan Lakes RDC

- **F.3.3 Goal Three:** Research ways of gathering local/regional statistical data on Pillars One and Three.

Implementation Plans/Actions

- Investigate Probation stats and link to literacy rates
- EDI and Understanding the Early Years (UEY) data

Evaluation

- Continue involvement in the EDI and UEY projects
- Adult literacy data from Ministry of the Attorney General/Community Services

- **F. 3. 4 Goal Four:** Enhance role of Community Literacy Steering Committee

Implementation Plans/Actions

Enlarge Steering Committee to comprise representation from each of the Four Pillars and that this Committee, working through the Superintendent,

- I.A.1 Meet prior to July to read, revise, edit and confirm the District Literacy Plan.
- I.A.2 Meet a minimum of two times a year to ensure that the plan is being implemented as planned, that opportunities to share training opportunities as well as resources, and expertise are actively considered, and that the initiatives within the “ Four Pillars “ are carried out in a coordinated and cohesive fashion.
- I.A.3 Consider and write joint funding proposals where appropriate to do so.
- I.A.4 Have a joint meeting with representatives of the Arrow/Slocan Lakes Regional Development Council to explore ways in which the Literacy Initiative can be closely connected to Economic Development and Social Planning.

G. Process for approval of the Community Literacy Plan

The Community Literacy Plan has undergone the following process for approval:

COMMUNITY LITERACY PLAN PARTNERS				
Name	Occupation/literacy interest	Literacy Plan Session	Steering Committee	Original CLAC Member
Jennifer Cliff-Marks	CBAL – Adult Literacy Coordinator	X	X	X
Karen Marsden	School District #10 LA Teacher	X		X
George Harding	School District #10 Elementary Principal; Aboriginal Coordinator	X		X
Kees van der Pol	School District #10 Secondary Principal			
Rhonda Palmer	Nakusp Strong Start Centre CBAL – Family Literacy Coordinator	X	X	X
Charlene Alexander	New Denver Nursery School	X	X	X
Nancy Bone Maria Volansky	Stepping Stones Children’s Centre Success by Six Coordinator	X	X	X
Tana Wethal	Outreach Employment Services	X

1. Draft suggestions and feedback garnered from community partners.
2. Present Community Literacy Plan written by members of the Community Literacy Plan Steering Committee.
3. Approval by the Board of Education on July 14, 2008.
4. The Community Literacy Plan will be sent for approval to all the district literacy partners involved in the community consultation process in the fall of 2008.

Appendix A

BUILDING TEACHER CAPACITY **PROPOSED TEACHER LEARNING TEAMS – 2008-09**

The district is looking at ways to allow as many teachers as possible to be involved in learning teams next year so we've designed teams that parallel teacher interests that have been expressed over the year...

Here are the proposed learning teams for 2008-09. What fits for you? How could your work with students be improved by these professional learning opportunities? We'll visit all schools in early September to explain more, but.. hopefully while planning your summer full of recreation and fun *away* from school, this list also whets your professional appetite...
Walter Posnikoff, Terry Taylor, Sally McLean

1. LITERACY - TEACHER LEARNING OPPORTUNITIES

- A. TRAIT WRITING** - lesson study format – 7 teachers
 - i. 6 half days release time – one for each trait
 - ii. Model lesson shared for each trait, each teacher tries it on in their classroom
 - iii. Lesson studies developed and shared using Moodle Discussion Forums
 - iv. Feedback and reflection on “what works”/ “could be better” in Forums
 - v. Augment school library collections, create lists of books that teachers know and use to teach the traits of good writing, use school LR budgets for the Trait books for each teacher involved (\$50.)

- B. ONLINE LIT CIRCLES USING MOODLE**
 - i. 1/2 day launch – 4 – 7 pm x 7 teachers - Snacks served
 - ii. How to use online lit circles to engage students, increase literacy skills, connect with other learners and other teachers in district and across the province
 - iii. Teachers supported online through teacher Moodle discussion forums
 - iv. List of online lit circle titles and questions provided

- C. SOCIAL STUDIES INFORMATION CIRCLES USING MOODLE**
 - i. Interested teachers co-create theme – based SS units using diverse texts
 - ii. Use Moodle for student online info circle discussions about SS themes
 - iii. 2 NES; 3 NSS; 2 Literacy team – 7 teachers

- D. “WHEN KIDS CAN’T READ” ONLINE BOOK CLUB** – Kylene Beers –
 - i. Launch ½ day and reflect ½ day in-service for up to 6 teachers
 - ii. Online discussion forums to sustain the conversation and build community
 - iii. Cost of “Why Kids Can’t Read” book for each teacher covered by district
 - iv. Final Dinner meeting; summary of impact of these reading strategies in our classrooms to help kids read

E. PROFESSIONAL LEARNING SERIES WEBCASTS

- i. Teachers can choose to view any or all of the 18 professional learning series webcasts in groups, as a staff, or independently
- ii. Webcasts are Mondays – Nov 3 – April 13 for 1 hour – 3:30 – 4:30 pm
- iii. Post discussions and ideas to online discussion after the webcast
- iv. Book prizes and DVDs; cool gift certificates – drawn after each webcast & forum participation

F. THE DAILY FIVE LEARNING TEAM

- i. Each participant gets a copy of the book, **The Daily Five**, by Mosure and Bouchey (for K-7) – powerful ways to engage students in the classroom who are not in a guided reading or lit circle group while doing guided reading/lit circles with other students
- ii. Initial launch meeting in September, and then meet once a month for three months: Oct/Nov/Dec– 4 meetings in total
- iii. Moodle discussion forums as a support network for teachers in the project
- iv. Final dinner celebration/sharing at last meeting

G. DISTRICT LITERACY TEAM

- 1. Faye Brownlie sessions** (November and February) x 8 Lit team teachers
 - i. Release time for two days, conference registration, and travel
- 2. Literacy Team meetings**
 - i. ½ day meeting to pull exemplars for collaborative marking,
 - ii. ½ day post-Faye sessions
 - iii. 2 - ½ days SMART learning sequence planning and reflection
 - iv. Moodle discussion forums to share ideas and learning sequence results

H. FAYE BROWNLIE LEADERSHIP ACADEMY SESSIONS (Nov and Feb)

- i. 2 teachers (in addition to Literacy team teachers) to attend Faye sessions
- ii. Travel costs, registration and TOC costs for these two teachers

I. SMART / AASSESSMENT FOR LEARNING ROUNDS WITH KRISTI CROWE

- i. 3 SMART/ AFL Learning Rounds x 8 teachers
- ii. Observe – plan – teach – reflect cycle
- iii. Release time covered
- iv. Online Moodle discussion forums to connect teachers across the district and share learning sequences
