Reading Literature

The study of literature is at the heart of English language arts. Grade 7 students apply their reading skills to interpret and respond to an increasing variety of literary works that offer insights into human experience and thought, and convey important ideas about their own and other cultures. Through these experiences, literature can become a lifelong source of enjoyment.

MATERIALS
Most literature that Grade 7 students read has been written for young adults. However, they are often also asked to read myths and other traditional literature from a variety of cultures. The following suggestions indicate the range of literature and level of challenge appropriate for students in Grade 7.

◆ short stories (e.g., stories by Ray Bradbury, Morley Callaghan, Kevin Major, Jane Yolen, Paul Yee, Gish Jen, Christine Pinsent-Johnson)
◆ myths, folk tales, and other traditional forms (e.g., *Daedalus and Icarus, Arachne, Raven and the First People*)
◆ plays
◆ poetry (e.g., poems by Raymond Souster, Jean Little, E.J. Pratt, Joy Kogawa, Lillian Morrison)
◆ humour (e.g., parodies)

TYPES OF TASKS
In Grade 7, students explore a variety of ways of responding to, interpreting, and analyzing the literature they read. They are frequently asked to:

◆ write response-journal entries or blogs, contribute to WIKIs
◆ create visual representations (e.g., posters, image banks, storyboards, videos)
write summaries and character profiles
participate in class and small-group discussions (e.g., literature circles)
use graphic organizers (e.g., Venn diagrams, plot charts, two- and three-column notes, story maps)
read aloud or present poems using special effects
participate in role-plays or dramatizations
present oral or written reviews
create new works of their own, modelled on the literature they read

Prescribed Learning Outcomes

The BC performance standards for Grade 7 reading literature tasks reflect the following prescribed learning outcomes from Grade 7 of the English Language Arts K to 7 Integrated Resource Package. Using the reading performance standards in a comprehensive way will provide teachers with many opportunities to assess these learning outcomes.

PURPOSES (READING & VIEWING)
It is expected that students will:

- read fluently and demonstrate comprehension and interpretation of a range of grade-appropriate literary texts, featuring some complexity in theme and writing techniques [B1]

STRATEGIES (READING & VIEWING)
It is expected that students will:

- select and use various strategies before reading and viewing to develop understanding of text [B5]
- select and use various strategies during reading and viewing to construct, monitor, and confirm meaning [B6]
- select and use various strategies after reading and viewing to confirm and extend meaning [B7]

THINKING (READING & VIEWING)
It is expected that students will:

- respond to selections they read or view [B8]
- read and view to improve and extend thinking [B9]
FEATURES (READING & VIEWING)

It is expected that students will:

- explain how structures and features of text work to develop meaning [B11] Addressing this learning outcome can support students in using strategies to develop meaning, but in the Reading Performance Standards they are not asked to explain how they work.
Grade 7 Literature

This chart describes the general characteristics of literature suitable for most students in March-April of Grade 7.

</table>
# Rating Scale: Grade 7 Reading Literature

Student achievement in reading literature by March-April of Grade 7 can generally be described as shown in this scale.

<table>
<thead>
<tr>
<th>Aspect</th>
<th>Not Yet Within Expectations</th>
<th>Meets Expectations (Minimal Level)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>SNAPSHOT</strong></td>
<td>With support, the student is able to read simple and direct novels, stories, and poetry that are often quite short, but may be unable to finish all parts of an assigned task.</td>
<td>The student is able to read generally straightforward fiction and poetry (as described in the chart on page 204), but may have difficulty completing longer selections and tasks. Work may lack detail.</td>
</tr>
</tbody>
</table>
| **STRATEGIES** | • appears unable to monitor own reading; needs help to check for understanding  
• tends to sound-out new words without considering context or other clues  
• may be unaware of the features of various genres or unable to see their relevance for specific tasks  
• often frustrated by language that is not direct, concrete, and literal | • may need prompting to check for understanding and adjust strategies to deal with reading problems or challenging material  
• tends to rely on sounding-out and context to deal with unfamiliar language  
• when prompted, uses knowledge of familiar genres to predict, support, and confirm meaning  
• may not recognize figurative language and attempt a literal interpretation |
| **COMPREHENSION** | • identifies some main characters and events; may be able to explain some simple cause-effect relationships  
• predictions are often illogical guesses  
• makes some simple inferences about characters’ motivations and feelings; these are not always logical and are often unsupported  
• may offer inaccurate or irrelevant details in response to questions or tasks  
• may offer illogical interpretations of a theme or author’s message or be unable to provide an answer | • describes setting, main characters, events, and conflict in general terms, often using the exact words of the selection; identifies some simple cause-effect relationships (e.g., a story map); may miss some connections  
• makes logical predictions  
• makes some simple inferences about characters’ motivations and feelings; when asked, offers some specific evidence from the text as support  
• identifies relevant details in response to questions or tasks; may omit some  
• interprets simple themes or messages |
| **RESPONSE AND ANALYSIS** | • if prompted, makes some simple, concrete, and obvious personal connections  
• may make some logical connections to other selections with obvious similarities (e.g., two mysteries); often has difficulty because of limited repertoire of previous reading experiences  
• offers vague, unsupported reactions and opinions | • makes simple and obvious personal connections (e.g., can compare self to story character)  
• makes obvious connections to other reading or viewing selections, supported by some evidence  
• offers reactions and opinions about selections, characters, issues, and theme; may need prompting to provide support |

<tbody>
<tr>
<td>The student is able to read generally straightforward fiction and poetry (as described in the chart on page 204) and complete assigned tasks, including those that require an extended period of time. Work is accurate and complete.</td>
<td>The student is able to read fiction and poetry that feature complex ideas and language. The student’s work is precise, thorough, and insightful, often exceeding requirements of assigned tasks.</td>
</tr>
<tr>
<td>• checks for understanding; adjusts strategies to deal with specific problems or features of the material</td>
<td>• evaluates own understanding; makes deliberate and effective choices about how to approach challenging material</td>
</tr>
<tr>
<td>• uses context clues, word structure, illustrations, and classroom resources to figure out unfamiliar words or expressions</td>
<td>• independently uses context clues, word structure, illustrations, and classroom resources to figure out unfamiliar words or expressions</td>
</tr>
<tr>
<td>• uses knowledge of story structure and familiar genres to predict, support, and confirm meaning</td>
<td>• uses knowledge of an increasing range of genres to support predictions, understanding, and interpretations</td>
</tr>
<tr>
<td>• recognizes and attempts to interpret figurative language</td>
<td>• interprets figurative language</td>
</tr>
<tr>
<td>• accurately describes setting, characters, main events, and conflict in own words, and explains how they are related (e.g., a story map)</td>
<td>• describes setting, characters, events, conflict, and theme with some detail and interpretation; explains relationships (e.g., a story map)</td>
</tr>
<tr>
<td>• makes and justifies logical predictions about the selection and about events “beyond the story”</td>
<td>• makes and justifies logical and sometimes insightful predictions about the selection and about events “beyond the story”</td>
</tr>
<tr>
<td>• makes inferences that show some insight into characters’ motivations and feelings; provides support with specific evidence from the selection</td>
<td>• makes inferences that show insights into characters and events; provides support with specific evidence from the selection</td>
</tr>
<tr>
<td>• identifies relevant details in response to questions or tasks</td>
<td>• identifies specific, relevant details in response to questions or tasks</td>
</tr>
<tr>
<td>• offers logical but obvious interpretations of the theme or author’s message</td>
<td>• offers logical interpretations of the theme or author’s message; may deal with some complex or subtle ideas</td>
</tr>
<tr>
<td>• makes logical, relatively straightforward connections between the selection and own ideas, beliefs, experiences, and feelings</td>
<td>• makes logical connections between the selection and own ideas, beliefs, experiences, and feelings; may extend or experiment with the ideas and take risks to offer a divergent response</td>
</tr>
<tr>
<td>• makes and supports connections to other reading or viewing selections that go beyond the obvious; with direction, can compare themes</td>
<td>• relates themes and other features of the selection to other reading or viewing experiences; provides convincing evidence</td>
</tr>
<tr>
<td>• offers reactions and opinions about selections, characters, issues, and themes with some support</td>
<td>• offers reactions and opinions about selections, characters, issues, and themes supported by reasons and examples</td>
</tr>
</tbody>
</table>
Sample Task: Interview With Icarus or Daedalus

CONTEXT
In this classroom, students had frequent opportunities to practise developing and answering higher-level questions during activities such as reciprocal questioning and role-playing interviews with story characters.

Before beginning this activity, students had read, discussed, and completed a variety of assignments related to myths.

PROCESS
The class brainstormed a list of things they knew about the characters who appear in myths. They also provided examples from myths they had studied. The teacher explained that they were going to read a myth about a father and son, then asked each student to make two predictions about the myth. Students shared and explained their predictions.

Students were asked to read the myth *Icarus and Daedalus* independently and then develop questions and answers in the form of an interview with one of the characters (i.e., Daedalus or Icarus). The teacher reviewed some strategies they had learned for developing questions (e.g., 5Ws; on/between/beyond the lines). The class discussed criteria for the assignment. They agreed that their interviews should demonstrate that they understood:

◆ the basic story events
◆ the relationship between the characters
◆ the characters’ feelings and motivations
◆ “between the lines” information (i.e., including questions/answers that demonstrated higher-level thinking)

The teacher explained that they should include a minimum of five questions and a maximum of ten.

NOTE:
This was an integrated reading/writing assignment. However, the evaluation presented in this sample only describes the reading aspects of the task.
NOT YET WITHIN EXPECTATIONS

Teacher's Observations

This interview deals only with the most concrete, “on the lines” aspects of the story. The student was unable to generate higher-level-thinking questions when prompted.

◆ identifies some main characters and events  
◆ makes some simple inferences about characters’ motivations and feelings

**Interview with Icarus**

**Q:** What did Daedalus use to guide himself to the far end of the labyrinth?
**A:** A ball of golden thread.

**Q:** What was the horribal stench in the cave?
**A:** The corpse of the Minotaur.

**TRANSCRIPT**

**Interview with Icarus**

Q: What did Daedalus use to guide himself to the far end of the labyrinth?
A: A ball of golden thread.

Q: What was the horribal stench in the cave?
A: The corpse of the Minotaur.

Q: What did Daedalus make?
A: Wings for men. The inventor of human flight.

Q: Was it important to stay at a certain height?
A: Yes, not to low and not to high.

Q: What was the reaction of the people on the ground as you flew over top of them in the air?
A: Everyone of them was amaized. They stoped what they were doing to watch.
MEETS EXPECTATIONS (MINIMAL LEVEL)

Teacher's Observations

This student could identify most of the main ideas and events of the myth, but was unable to put them into his own words.

- describes setting, main characters, events, and conflict in general terms, often using the exact words of the selection
- makes simple inferences about characters’ motivations and feelings
- identifies relevant details, but omits some (e.g., why Icarus fell from the sky)

**TRANSCRIPT**

**Character: Daedalus**

Q: Where were you going with your son?
A: We were cast into the prison.

Q: What were you going to do?
A: We were going to make wings, one pair each person.

Q: What was Icarus doing?
A: He was watching my hands watching small feathers waver in the heat above the lamp and the wax dripping down in slow and sometimes he would help me.
Q: What did you want to do with the wings?
A: I wanted to fly in the sky with them.

Q: What happened to Icarus’s wing as he flew higher?
A: the wax on his wings began to melt slowly. A feather slipped from it, fell drifting, turning, down towards the sea. Other feathers followed, singly at first, but then more and more of them at once.

Q: What happened to Icarus?
A: He fell down

Q: What did you say to your son about flying?
A: I said “he musn’t fly too low, too near the sea, for the feathers once will not carry him

Q: What did you build?
A: I built an elaborate underground maze, from which the Minotaur could not escape.
FULLY MEETS EXPECTATIONS

Teacher's Observations

This student attempted to ask higher-level-thinking questions that went somewhat “beyond” the selection.

- work is accurate and complete
- accurately describes setting, characters, main events, and conflict in own words and explains how they are related
- makes and justifies logical predictions about the selection and about events “beyond the story”
- makes inferences that show some insight into characters’ motivations and feelings; provides support from the selection
- identifies relevant details in response to questions

TRANSCRIPT

Reading For Literature

Q: Daedalus, why did you stop watching your son. You knew he was just a little boy, right?

A: Well of course I knew he was just a little boy. He is my son. I was just so caught up with daydreaming about the gods that I failed to watch the Flight of Icarus.

Q: Daedalus, when King Minos sent you and your son to labyrinth why didn’t you just find your way out right away since you built it.

A: Your right, I did build it, but still how was I supposed to remeber? It was still very complicated.
Q: Daedalus, How did you feel when you saw your son drown in the sea?
A: Well obviously I was very sad. I felt as if it was all my fault because I was
daydreaming when I could have been warning him.

Q: How did you feel when you found that the wings that you created worked?
A: I felt I was the greatest. I was a wonderful father and I felt like a god.

Q: What did you mean when you said “Icarus my son, remeber that King Minos
does not rule the sky.”?
A: Well this was when I thought of the wings when I saw all the feathers from
the birds I thought of the sky. Although King Minos rules us and he sent us
to prison, he does not rule the sky.
EXCEEDS EXPECTATIONS

Teacher's Observations

This student’s work goes “beyond” the story in logical and insightful ways.

- describes setting, characters, events, conflict, and theme with some detail and interpretation; explains relationships
- makes and justifies logical and sometimes insightful predictions about the selections and about events beyond the story
- makes inferences that show insights into characters and events
- offers logical interpretations of the theme; deals with some complex or subtle ideas
- offers reactions and opinions about characters and issues

---

An interview with Daedalus

1. Q: If you had known this would happen, would you still have defied the gods?
   A: Definitely not. Oh, I was a fool. If I hadn’t defied the gods, maybe they would have stood guard over him. My dear son!

2. Q: How did it feel being cast into your own prison?
   A: Terrible! But I was prepared. When the young man, Theseus, killed the Minotaur, I knew I was in for trouble. So I prepared the threads, the wax and I thought of this plan. We got out, it was not too hard.

---

TRANSCRIPT

An interview with Daedalus

Q: If you had known this would happen, would you still have defied the gods?
A: Definitely not. Oh, I was a fool. If I hadn’t defied the gods, maybe they would have stood guard over him. My dear son!

Q: How did it feel being cast into your own prison?
A: Terrible! But I was prepared. When the young man, Theseus, killed the Minotaur, I knew I was in for trouble. So I prepared the threads, the wax and I thought of this plan. We got out, it was not too hard.
Q: What should you have done to prevent Icarus from suffering this fate?
A: First, as I said, I should not have defied gods. Secondly, I should have watched over him to make sure that she didn’t get too near to the water or the sun. Thirdly, I should have stressed the importance of staying with me when he was sober and not too excited. But there is no way to bring him back now.

Q: What do you plan to do now?
A: There is nothing I can do. I have given up inventing because that brought about my downfall and the death of my son. I am thinking of serving Zeus at the great temple in Athens, sort of to repent and ask for forgiveness. Maybe he will bless me with another son.

Q: If you had another son, what would be two things that you would teach him?
A: First, I will tell him to respect the gods. Secondly I will always teach him to not let pride or curiosity get the better of him. I have learned my lesson and do not want him to suffer the same fate as Icarus.

Q: Did you start a search for Icarus since you did not see him dead?
A: No. Icarus is dead. It was the gods’ punishment for my arrogance. They certainly will not return Icarus to me. I doubt anyone will find my son’s body.
Throughout their schooling and in their lives outside of school, students apply their reading skills in order to acquire, organize, and interpret information. These skills are fundamental to their success in a variety of curriculum areas. The ability to deal with technical and reference materials is also essential for success in most careers and in many leisure activities.

MATERIALS
The following suggestions indicate the range of informational material and level of challenge appropriate for students in Grade 7.

- Grade 7 textbooks (e.g., science, social studies, mathematics, information technology)
- non-fiction (e.g., biographies, historical accounts, primary documents, speeches)
- periodicals (e.g. *National Geographic, Voices and Choices* from Scholastic)
- newspapers (including articles, editorials, special features, infographics)
- popular special interest magazines (e.g., sports, computer, and teen magazines)
- print and digital reference materials (e.g., Guinness Book of Records, online and print encyclopedias, web sites, blogs, WIKIs)
- digital information from various sources (e.g., CD-ROMS, web sites)
- written instructions for simple procedures
- advertising and promotional materials

TYPES OF TASKS
In Grade 7, students frequently perform tasks such as the following as they read, interpret, and analyze information:

- make notes in a variety of forms, including graphic organizers (e.g., Venn diagrams, concept maps, charts)
- create visual representations (e.g., posters, illustrations, diagrams)
- participate in class and small-group discussions, debates, and information circles
- write or present reports based on information from several sources
- summarize and paraphrase selections
- respond to written or oral questions
explain why they agree or disagree with information or ideas presented
use information they have read in performance tasks where they make decisions, solve problems, create new products, dramatize situations

Prescribed Learning Outcomes

The BC performance standards for Grade 7 reading for information tasks reflect the following prescribed learning outcomes from Grade 7 of the English Language Arts K to 7 Integrated Resource Package. Using the reading performance standards in a comprehensive way will provide teachers with many opportunities to assess these learning outcomes.

PURPOSES (READING & VIEWING)

It is expected that students will:

- read fluently and demonstrate comprehension of grade-appropriate information texts with some specialized language and some complex ideas [B2]

STRATEGIES (READING & VIEWING)

It is expected that students will:

- select and use various strategies before reading and viewing to develop understanding of text [B5]
- select and use various strategies during reading and viewing to construct, monitor and confirm meaning [B6]
- select and use various strategies after reading and viewing to confirm and extend meaning [B7]

THINKING (READING & VIEWING)

It is expected that students will:

- respond to selections they read or view [B8]
- read and view to improve and extend thinking [B9]
FEATURES (READING & VIEWING)

It is expected that students will:

◆ explain how structures and features of text work to develop meaning [B11] *Addressing this learning outcome can support students in using strategies to develop meaning, but in the Reading Performance Standards they are not asked to explain how they work.*
Grade 7 Informational Materials

This chart describes the general characteristics of informational materials suitable for most students in March-April of Grade 7.

| LANGUAGE | • includes specific scientific or technical terms that may be highlighted or in boldface type  
|          | • presents technical vocabulary in context as a footnote, or in a glossary  
|          | • some repetition of key words and phrases when new concepts are introduced  
|          | • variety in sentence structure and length, simple to complex  
| IDEAS AND INFORMATION | • information ranges from specific and concrete to some complex ideas  
|          | • “signal words” make explicit the relationships among ideas (e.g., sequence, cause-effect, main idea-details)  
|          | • variety of paragraph lengths  
|          | • titles, headings, and subheadings signal changes in topic  
|          | • some reference texts present concept spreads with an array of related illustrations and text—there is no intended sequence to the ideas  
| GRAPHICS AND FORMAT | • some information is presented in feature boxes and sidebars—not part of the flow of the text  
|          | • illustrations and other graphics support and provide content  
|          | • clear relationships between text and illustrations, often supported with captions or labels  
|          | • processes are often represented graphically and in words  
|          | • includes charts, graphs, maps (with legends), or diagrams  
|          | • book sections tend to have specific functions (e.g., table of contents, glossary, unit summaries)  
|          | • books are usually 50 to 150 pages in length  

## Quick Scale: Grade 7 Reading for Information

This Quick Scale is a summary of the Rating Scale that follows. Both describe student achievement in March-April of the school year.

<table>
<thead>
<tr>
<th>Aspect</th>
<th>Not Yet Within Expectations</th>
<th>Meets Expectations (Minimal Level)</th>
<th>Fully Meets Expectations</th>
<th>Exceeds Expectations</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>SNAPSHOT</strong></td>

# Rating Scale: Grade 7 Reading for Information

*Student achievement in reading for information by March-April of Grade 7 can generally be described as shown in this scale.*

<table>
<thead>
<tr>
<th>Aspect</th>
<th>Not Yet Within Expectations</th>
<th>Meets Expectations (Minimal Level)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>SNAPSHOT</strong></td>
<td>With support, the student may be able to read brief, straightforward information and procedures (including simple illustrations and other graphics), but is often unable to complete all parts of an assigned task.</td>
<td>The student is able to read straightforward information and procedures, including illustrations and other graphics, that include some specialized language and complex ideas (as described in the chart on page 220), but may have difficulty completing longer selections and tasks. Work may lack detail.</td>
</tr>
<tr>
<td><strong>STRATEGIES</strong></td>
<td>• appears unable to monitor own reading; needs help to check for understanding</td>
<td>• needs prompting to check understanding and adjust strategies to deal with reading problems or challenging material</td>
</tr>
<tr>
<td></td>
<td>• tends to sound-out new words without considering context or other clues</td>
<td>• relies on sounding-out and context to deal with unfamiliar language; if reminded, may try to use word parts to figure out technical or specialized language</td>
</tr>
<tr>
<td></td>
<td>• has difficulty making logical predictions about content; may offer illogical guesses</td>
<td>• makes simple, logical predictions about content by recalling prior knowledge and looking at the text features</td>
</tr>
<tr>
<td></td>
<td>• may not understand the function or usefulness of text features (e.g., headings, diagrams) without assistance</td>
<td>• may need prompting to use text features to preview and locate information</td>
</tr>
<tr>
<td><strong>COMPREHENSION</strong></td>
<td>• responses to comprehension questions or tasks are often inaccurate, vague, or incomplete</td>
<td>• responses to comprehension questions or tasks are generally accurate, but may be somewhat vague, with parts incomplete</td>
</tr>
<tr>
<td></td>
<td>• identifies some main ideas; may have trouble distinguishing between main ideas and supporting details</td>
<td>• identifies most main ideas, but may have difficulty restating them in own words</td>
</tr>
<tr>
<td></td>
<td>• locates some relevant supporting details; may omit a great deal of material</td>
<td>• locates some relevant supporting details (including those in graphics such as illustrations and charts); may omit some</td>

Sample Task: Comparing Mozart and Van Gogh

**CONTEXT**
This activity was part of a unit on reading biographies. Students had received prior instruction in note-making and using graphic organizers to outline similarities and differences between two people.

**PROCESS**
Students worked in small groups to brainstorm a list of the types of information biographies usually offer. They shared their lists as a class.

Students were then asked to work independently to:

- read two biographies, one on Van Gogh and one on Mozart (two pages each)
- make notes on a template provided
- complete a comparison chart

The class reviewed what they knew about recording and organizing information and agreed that their notes and charts should be:

- complete
- accurate
- written in their own words
- logically organized
- relevant (only include useful information)
- include “between the lines” information (inferences)

Some students needed assistance to read the article and/or support to complete their notes and charts.
NOT YET WITHIN EXPECTATIONS

Teacher's Observations

This student needed some support from the teacher at all stages of the task.

- appears unable to monitor own reading; needs help to check for understanding
- responses are often inaccurate, vague, or incomplete
- identifies some main ideas; has trouble distinguishing between main ideas and supporting details
- locates some relevant supporting details
- needs a template and ongoing support to make simple notes

TRANSCRIPT (NOTES)

Van Gogh

Personal/Family
[blank]

Achievements
[blank]

Life Timeline

Van Gogh, the son of a Lutheran minister, was born in the Netherlands in 1853. His cousin was a well-known landscape painter Anton ———— and tow of his uncles were art delers working in a art gallery in The Hague when he was 16 and was transferred to England where he fell in love.
Career Influences
[blank]

Interesting facts
perspective was unusual and his paintings ———— his ideas of the ————

Mozart
Personal/fam
• In the spring of 1791 Mozart became depressed. He was deeply in debt and his health was declining.
• He was visited by a stranger who asked him to right a Requiem, a mass for the ———— of the dead for which he would be well paid. Mozart agreed to write it, but doing so depressed him further because he was convinced he was writing his own funeral ————.

Achievements
• Wolfgang Amadeus Mozart was a child genius who grew up to be one of the most creative composers of all time.
• During his lifetime Mozart wrote 41 symphonies which are musical works in three or four movements played by an opera

Life timeline
• He was born in Salzburg, Astria, in Jan of 1756.
• He was 26 and Constan was 18 when they wed.
• He died in December of 1791 at the age of 35.
• When he was only 14 he heard the choir in the Sistine Chapel in Rome sing the Mi———

Career Influences
• When Mozart was young man he fell in love with a young lady who was a singer. He wanted to give up his career to ———— but his parents forbade it.
• Mozart loved playing the organ. While on tour as a small boy, he had visited a monastery, where he played and organ for the first time in his life. The monks that heard the boy declared him a genius.

Interesting
• While touring, Mozart composed, gave performances and played to organ in many churches.
• He and his older sister, Anna Maria, toured Europe with their parents, playing ———— from the time they were very young.
**TRANSCRIPT (COMPARISON CHART)**

**Different: Van Gogh**
- born in 1853
- Van Gogh was a very good painter
- born at another far place in the world
- moved to a not so famous city.
- elegant and handsome young man.
- stod morisl with his wife.

**Different: Wolfgang Amadeus Mozart**
- born in 1756
- Mozart was a pianist and a very good one at that.
- born on an island called Australia
- moved to a famous city.
- weird and ugly person.
- got divorst with his wife and never got marid again.

**Same**
- Thay where both yung protiges.
- They both had a lot of achievevments when thay where young like when Wolfgang Amadeus grew up to be the most creative composers of all time. And when Van Gogh created a revolution in painting.
- both mared young at the time.

**NOTE:**
— — — — means handwriting is illegible.
**MEETS EXPECTATIONS (MINIMAL LEVEL)**

**Teacher's Observations**

This student read and worked independently, but responses tend to be vague and lack detail.

- responses are generally accurate but somewhat vague (e.g., “took lessons”)
- identifies most main ideas, but has difficulty restating them in own words
- uses logical categories to make notes; includes too much information

**NOTE:**
The note-taking part of this student’s work is not available.

**TRANSCRIPT (COMPARISON CHART)**

**Different: Mozart**

- musician/composer
- married once in his time
- played for kings and queens
- had a sister
- died because of poor health
- born in 1756
- began composing at 5 years
- wrote operas

**Van Gogh**

- began making money when they were adults
- became famous
- relationships did not go well
- both died young

• a genius
• wrote his funeral music
• died in a December
• worked alone

**Different: Van Gogh**
• cut off one of his ears
• was sent to a psychiatric hospital
• painter
• never married
• had a brother
• attempted suicide
• died from being shot
• born in 1853
• began working in an art gallery at 16 years
• took lessons
• went to theology school
• wasn’t very mentally well
• died in a July
• worked with a partner for a while
• fought with his partner

**Same**
• began making money when they were dead
• got a lot accomplished in their lives
• became famous
• relationships didn’t go well
• both died young
• both died around mid – late 30’s
• were once in a state of depression
• both religious (CHRISTIAN)
• weren’t rich
• barely got payed at all for their work
• creative
FULLY MEETS EXPECTATIONS

Teacher's Observations

This student recognized some relationships among ideas and used these to generalize similarities and differences.

- responses to task are accurate and complete
- accurately restates main ideas in own words
- locates relevant details to respond to task
- makes accurate, organized notes by creating categories that reflect most of the main ideas

TRANSCRIPT (NOTES)

Mozart

Personal/Family
- He and his sister toured Europe with their parents
- Parents forbid Marage but came back to try again and she spurred him

Achievements
- grew up to be one of the best composers of all time
- Wrote 41 symphonies 3 he completed in six weeks and one of his symphonies he wrote the day before the performance
• he wrote “The Marriage of Figaro”
• He wrote the overture in the opera “Don Giovanni”

Life timeline
• When 14 heard Miserere whent back to room and wrote Entire score from memory
• Married constance At age of 26 and constance was 18 years old
• I 1791 stranger asked him to write a mass for the souls of the dead
• Died in 1791 of pleuge at the age of 35
• When Five years old Played violen

Career Influences
• Father realised his son was a genius

Interesting
• Monks declared Mozart a genius
• Shortend his name to Mozart Amadaus Wolfgang
• made money by teaching Music lessons selling compositions and by giving performances

Van Gogh

Personal Family
[blank]

Achievements
• Became famos after death

Life timeline
• Born in 1853
• When 16 worked in art gallery
• 1886 moved to paris
• 1888 moved to Arles a southern town of france
• July 27 1890 shot himself
• Died July 29 1890

career influences
• Cousin landscape painter
• 2 uncles art dealers
• brother encouraged him and paiting

Interesting
• Cut off own ear
TRANSCRIPT (COMPARISON CHART)

**Different: Mozart**
- Was composer
- Lived in few places
- Knew how to play many instruments
- Was talented from young age
- Was declared genius
- Got married
- Died of pleuge
- Didn’t die of natural causes

**Different: Van Gogh**
- Was painter
- Lived in many places
- Knew to paint in different styles
- Learned to paint at older age
- Cut off part of ear in insanity attack
- Stayed un-married
- Died of bullet wound
- Died of un-natural causes

**Same**
- Both became famous after their death
- Both grew up without much money
- Both died at young age 37 and 35
- Both encouraged by family members
- Both talented in own fields
- Both influenced by other people
- Both visited Europe
- Both made many works
EXCEEDS EXPECTATIONS

Teacher's Observations

This student worked confidently to produce a thorough comparison. Relationships among ideas are used effectively to generate similarities.

- responses are precise and thorough, and include insights
- accurately restates main ideas in own words and explains how they are connected to each other
- locates specific, relevant details
- makes accurate, detailed notes

TRANSCRIPT (NOTES)

Van Gogh

Personal/Family
- son of Lutheran Minister
- cousins was known landscape painter
- 2 uncles were Art dealers
- cousins name is Anton Mauve who was well known landscape artist
- Brothers name was Theo

Achievements
- Went to Academy of Art
- Sold one painting while alive
- Work very popular after his death
• Created a revolution in painting
• 100 paintings in life time
• developed own way of painting

Life Time-Line
• Born Netherlands, 1853
• Worked in art store at 16
• 1886, became acquainted with impressionists
• 1886 — moved to Arles
• July 27, 1890 — shot himself.
• July 29, 1890 — died
• became popular

Career Influences
• Anton Mauve, 2 uncles
• impressionists in paris w thier colour
• paintings
• Peasants
• brother Theo encouraged him to paint

Interesting Facts
• Mentally ill
• shot himself
• attack of insanity made him cut off his ear
• When he moved to Arles, he painted his house

**Mozart**

Personal/Family
• Older sister, Anna-Marie
• Father devoted
• married to Constance, 18

Achievements
• Played for Kings and Queens at early age
• Was child progidy
• wrote entire musical score from memory
• wrote Marrage of Figaro
• wrote 41 sym

Life Time Line
• Born is Salzburg Austria, Jan 1756
• 14 played for monks
• fell in love, mar
• younger sister
• Became depressed
• in debt
• Died Dec 1791, 35 age
Career Influences
• Father
• Monks
• loved attention

Interesting Facts
• wrote own funeral music

TRANSCRIPT (COMPARISON CHART)

Different: Van Gogh
• was a painter
• born 1853
• died 1890 age 37
• became insane
• cut off ear
• shot himself
• Lived in France
• Created revolution in painting
• brother encouraged him
• killed himself
• tried many things before painting
• painted his surroundings

Mozart
• was a musician
• a child prodigy
• born 1756
• died 1791 age 35
• fell in love and married
Different: Mozart

- was a musician
- a child prodigy
- born 1756
- died 1791 age 35
- fell in love and married
- lived in Austria
- wrote 47 symphonies
- Wrote one piece the night it was being performed
- wrote own funeral music
- died out of depression and sickness

Same

- both did a form of art
- became famous now after death
- died at early age
- never made much money
- very talented
- many different types of their own art
- strong family influences
- best work right before death
