Term	Definition
Administrator	A person who has a valid British Columbia teaching certificate and is employed by a school board or authority to provide administrative duty in schools. Includes Principals, Vice-Principals, and Directors of Instruction.
Average Age	The total age of all educators/teachers/administrators divided by the total number of educators/teachers/administrators based on September 30 of the reported year.
Average FTE Salary - base only	Includes base (gross) salary only. Calculated by dividing total gross salary of all educators/teachers/administrators by the total number of educators/teachers/administrators based on September 30 of the reported year.
Average FTE Salary - including all allowances	Includes base (gross) salary and all allowances but excludes benefits. Calculated by dividing total gross salary and all allowances of all educators/teachers/administrators by the total number of educators/teachers/administrators based on September 30 of the reported year.
Educator	A teacher or administrator (vice-principal, principal, or director of instruction) having BC teacher certification. Educator populations are calculated by headcount. An educator is employed by a public school board in British Columbia. Educator excludes a person appointed by a board as superintendent of schools or assistant superintendent of schools.
Full-Time	Includes educators who work full-time in a school district.
Full-time Equivalent (FTE) Educators/Teachers/Administrators	A measure equivalent to the number of educators/teachers/administrators who work full-time in a school district.
Msk	Abbreviation for Mask. When reporting data, the number or percentage must be suppressed (or "masked") if they are elements of a population that is one through nine. For example, 8 students in a school write the Japanese 12 exam. The results for these students are masked. However, if 15 students write the exam in the school, with 8 achieving a letter grade of C, the results are not masked (as the total population is greater than nine).  Historical note: prior to October 2009, masking was applied to populations of one through four. Part-Time	Includes educators who work part-time in a school district. Educators who work in more than one school district are counted in each school district in which they are employed.
School District	A geographic area in British Columbia constituted as a district under the <i>School Act</i> . There are currently 59 school districts and one Francophone Education Authority.
Teacher	An individual who has a valid BC teaching certificate and is employed by a school board to provide an educational program to students or to administer or supervise the provision of an educational program to students. Includes: Regular Classroom Teachers, Supervisors of Instruction, Teacher Consultants, Co-ordinators, Helping Teachers, Other Instructional Support, Testing & Assessment – Professional Staff, Department Heads, and Teachers who have administration duty but are not Department Heads. Teachers may be employed in more than one district; therefore, the total number of teachers reported at the provincial level may exceed the actual number of teachers in the province. Teacher populations are calculated by headcount.

\* Note: Beginning in September 2014, teacher statistics are provided by the BC Public School Employers' Association via EDAS (Employment Data and Analysis System). Older reports were based on a data collection that used slightly different criteria, and should not be compared with newer data.
