

The Student Learning Survey

The Student Learning Survey has been administered every year in B.C. public schools since 2001. It is the only source of province-wide information on your learning experiences. It is very helpful in providing data for districts and schools, the Ministry of Education, Ministry of Health, and the Representative of Children and Youth to help improve the wellbeing of youth in B.C. and support school planning and programs.

We have worked hard with students like you, teachers, and others to improve the survey and make it more useful for students, teachers, and schools. We added questions that students suggested, and we are looking forward to finding out how we can improve your learning experiences.

This survey is **not a test!**

There are **no right or wrong answers.**

This survey is **voluntary.** You do not have to answer any of the questions.

It is important for you to know that your responses are kept **confidential (private)** under the Freedom of Information and Protection of Privacy Act, sections 26(c) and (e). The results will be used only in unidentifiable forms and will only be shared with people like teachers, principals, and others who are interested in improving education.

Please do not provide any specific names in your responses to the survey and/or any personally identifiable information about yourself. If any personal or identifying information is provided, it will be deleted before results are stored.

We encourage you to answer as many questions as you can because you will be helping to improve learning for all B.C. students.

Thank you!

If you have any questions about the collection of this personal information, please contact:
