INTRODUCTION

This program guide sets out the requirements and standards for Work Experience 12A and 12B and is intended to support school district staff in meeting the requirements for Ministry of Education-authorized Work Experience (WEX) courses. As per the Elective Work Experience Courses and Workplace Safety Policy, WEX 12A and 12B are each worth four credits toward graduation and include in-school time spent on specific workplace orientation, safety instruction, and ministry curricula. However, students must spend most of the course time in authentic work experience placements. The program standards and delivery guidelines outlined in this guide apply only to ministry-authorized WEX courses. This guide does not cover the requirements for Youth Work in Trades (WRK) or the options used to fulfill the mandatory 30 hours or more of career-life exploration required for graduation as outlined in Career-Life Connections. For more information on the career-life explorations component requirement, please see the Career Education 10-12 Guide.

School district staff are responsible for providing access to WEX courses for all interested students and delivering the WEX program according to the provincial policy and operational standards outlined in this guide. The guide was developed by the Ministry of Education, in consultation with B.C. educators, to ensure that it reflects best practices in career-life development, and to support educators and district staff in delivering the program.

This guide describes:

- WEX as an educational program
- the roles and responsibilities of various partners in WEX
- the standards and requirements for WEX as a ministry-funded educational option
- the learning standards for WEX
- references and resources for educators and district staff supporting WEX students

Rationale for WEX

WEX 12 A and 12B give students the opportunity to participate in, observe, and learn about the tasks and responsibilities related to an occupation or career. In conjunction with Career-Life Education and Career-Life Connections, work experience helps prepare students for the transition from secondary school to the world of work, for further education and training, or for other post-graduation opportunities. In WEX 12A and 12B, students learn about and experience the workplace and are provided with a frame of reference within which to review or revise their career-life development goals.
WEX courses provide students with an opportunity to apply classroom learning in a context outside school and to bring back to the classroom new perspectives about their learning. The courses also provide students with the chance to gain new skills that can be used in future work opportunities. Completion of a four-credit WEX course meets the Applied Design, Skills, and Technologies graduation requirement. A student’s work experience hours accrued during a ministry-authorized WEX placement may be used toward fulfilling the substantive experiential learning (30 hours or more) of career-life exploration required for graduation as outlined in Career-Life Connections (CLC), provided that at the time of enrolment in CLC the placement is relevant to the student’s post-secondary planning. More information is found in the Career Education 10-12 Guide.

Goals of WEX

The primary goal of the WEX program is to help students personalize their learning and prepare them for life after secondary school completion. Through WEX, students have the opportunity to observe and practise generic employability skills, as well as skills specific to occupations, industries, or careers. Other goals of WEX include helping students to:

- pursue academic and career-life goals
- facilitate the transition from school to post-secondary life
- understand the rights, responsibilities, and expectations associated with a work experience placement
- develop employment readiness and sector-specific skills
- understand the responsibilities and expectations of a workplace

Types of ministry-authorized WEX placements

Ministry-authorized WEX placements are typically unpaid and occur at standard worksites. These are locations where workers perform tasks and have responsibilities related to an occupation or career under the general supervision of a worksite employer. For the purposes of this guide, the term “employer” refers to the person or organization that provides unpaid or paid work experience in the tasks, activities, and functions of an occupation or employment sector.
Non-standard worksites and simulation activities offered by a school or district specifically for work experience programming are discussed below (see “Other WEX options”).

A student may have WEX placements at multiple sites. However, each placement must meet ministry requirements for funding and must consist of authentic workplace experiences that:

- provide students with new learning experiences related to their career-life interests and goals, and go beyond those that they typically receive in a school setting
- provide students with opportunities to apply in-school learning to the world of work
- provide students with opportunities that prepare them for the transition from a school environment to a workplace environment
- take place in the community, not in a school

Activities that are eligible as ministry-funded WEX courses include:

- hands-on work experience at a standard worksite (business, government, non-profit, or volunteer organization), supervised by a worksite employee
- job shadowing of a worker at a standard worksite
- career mentoring with a worker at a standard worksite
- hands-on work experience and career simulation activities at a non-standard community site, created specifically for occupations where hands-on work experience is not available (e.g., simulations for flying, shipping, driving, health care, firefighting, forestry, and heavy-duty machinery operations) (see “Other WEX options”)

Except under exceptional circumstances (see “Other WEX options”), WEX placements should not occur in a student’s school. WorkSafe BC coverage will not apply unless WEX placements occur at a standard worksite under the supervision of an employer who has employees and is in good standing with WorkSafe BC. Activities that are extensions of in-school courses or that are extracurricular are not ministry-authorized WEX placements as these activities are usually linked with a particular course other than WEX courses. In these cases, if relevant, a school may use Independent Directed Studies to provide students with course credits for extra work related to the curriculum of a ministry- or Board/Authority- Authorized course.
Other WEX options

Career simulation placements (non-standard worksites)

Career simulation placements take place in non-standard worksites. Boards of Education and Independent School Authorities may offer WEX courses that use career simulation activities rather than placements at standard worksites. Career simulations consist of hands-on activities that are directly related to the work performed in a given occupation. Career simulation WEX placements do not include training provided at an educational institution.

Career simulations for eligible WEX courses are organized collaboratively by a community organization and educators and/or district staff to provide students with the opportunity to participate in valid and meaningful career-related activities that would normally not be available to them. Workers from the occupation or industry lead the activities. Career simulations are offered only in circumstances where students cannot participate at standard worksites because of high risk, specific knowledge requirements, or confidentiality. For example, career simulation work experience activities could be established for some occupations in the law enforcement and health care sectors.

Districts placing students in career simulation WEX courses must meet all other WEX requirements for funding as outlined in this guide.

Note: WorkSafeBC coverage will not apply unless WEX occurs at a standard worksite. Students undertaking WEX at a non-standard worksite or through a career simulation are not provided with WorkSafeBC coverage as “workers of the Crown.” They are to be covered by voluntary student accident insurance purchased by the student; by a student accident insurance provider that offers bonus coverage for work experience injuries sustained by students at non-standard sites, if available; or by the community organization.

Paid work experience

In most cases, ministry-authorized WEX courses involve non-paid placements, and this guide outlines the requirements for such placements. In cases where a district determines that a paid placement is acceptable and/or appropriate for a student, the paid employment must align with the student’s career/education plan. For students who do not have a documented career/education plan, and for the purposes of claiming ministry course funding, educators and/or designated district staff need to work with the students to develop a career/education plan that includes a goal or aspiration clearly linked to any paid WEX placement(s).

As is the case with unpaid placements, educators and/or designated district staff must contact the student’s employer to establish a student training plan, which includes information such as the hours to be worked, duties or tasks to be performed, employability skills to be practised, and workplace-specific skills to be developed. (See Appendix A for a sample student training plan for WEX.) The paid hours to be used for WEX may only begin to accrue after the school has contacted the employer, developed a student training plan, completed the safety orientations required for ministry funding, and confirmed the employer meets the requirements related to WorkSafeBC coverage (see “Confirming WorkSafeBC coverage” below). Students in paid WEX placements must still meet all the standards and requirements outlined in this guide.

In-school placements

In-school placements are acceptable for course funding claims if they can be demonstrated to be in the student’s best interests. These could include accommodations for a student who is significantly “at risk” or requires specialized supports to participate, or other special circumstances documented in the school district’s policies or guidelines related to work experience or work-study programs.

Students in other in-school placements, such as working in a school’s cafeteria or kitchen, can receive WEX credit if a district educator determines the student has met the learning standards for the course. Such placements are not eligible for ministry course funding.
WORK EXPERIENCE 12A AND 12B: CURRICULAR DESIGN

The Work Experience 12A and 12B curricula (see Appendix B) are designed to introduce school-aged students to career and work experience placement opportunities. While most of the course time consists of authentic work experience placements, it also includes in-school time spent on workplace orientation, safety instruction, and ministry curriculum.

Like other ministry curricula, the learning standards for WEX 12A and 12B are based on the Know-Do-Understand (KDU) curricular model and consist of Big Ideas, Curricular Competencies, and Content, with the Core Competencies embedded throughout. The Curricular Competencies for ministry-authorized WEX courses reflect the cycle of learning a student undertakes before, during, and after a WEX placement, and are based on an inquiry model, which includes the following steps:

The curricular component of WEX 12A and 12B may be offered in a variety of formats, including but not limited to scheduled classroom settings; seminars; drop-in sessions; electronic instruction; three-way conversations with the educator, student, and employer; and one-to-one instruction.

Student readiness

The learning standards in WEX 12A and 12B apply and build on the knowledge acquired in Career-Life Education (CLE) and Career-Life Connections (CLC). In cases where a student has not completed CLE or CLC, educators must deliver the related learning standards as part of that student’s WEX program. These learning standards relate to career-life development, and include employability skills, collaboration, leadership, essential job skills, appropriate workplace behaviour, and workplace safety.
Before participating in WEX placements, students must have had an in-school orientation that includes worksite safety awareness for their specific placements and/or employment sector. The CLE and CLC learning standards related to workplace safety do not satisfy this WEX program requirement.

Before arranging a WEX placement for a student, consider the following:

- WEX placements should match the interests and abilities of each student.
- A workplace setting that is appropriate for one student may not be appropriate for another.
- Educators should determine whether a student is adequately prepared to participate in a community-based work experience placement.
- Students should be provided with adequate knowledge and understanding of the work experience placement and workplace expectations before beginning any on-site work.
- Accommodations that students may require should be accessible in the workplace.

WORK EXPERIENCE: PROGRAM PROCEDURES, REQUIREMENTS, AND STANDARDS

The Work Experience program requires district and school-based staff to ensure that students are prepared for their work experience placement and that district records demonstrate compliance with Ministry of Education requirements, including funding requirements. This section outlines these requirements, referring to supporting resources and information that are included in the appendices.

The WEX program procedures, requirements, and standards are organized as follows and are summarized in Appendix C:

- Before starting a WEX placement
- During a WEX placement
- After a WEX placement

Before starting a WEX placement

Program requirements

Providing an in-school safety orientation

Before students start their WEX placements, educators and/or district staff are required to provide an in-school safety orientation covering general workplace safety awareness, issues, and practices for their specific placements and/or employment sector. The in-school orientation may cover:

- WorkSafeBC’s Student WorkSafe 10-12: Resource for teachers
- WorkSafeBC Regulation 3.12: The right to refuse unsafe work
- WorkSafeBC Regulation 3.22: Definitions

In accordance with Work Experience Order MO237/11 Boards of Education must establish guidelines regarding conduct, supervision, evaluation, and participation of students undertaking WEX placements.
• WorkSafeBC Regulation 3.23: Young or new worker orientation and training
• WorkSafeBC Regulation 3.24: Additional orientation and training
• WorkSafeBC Regulation 3.25: Documentation
• the Employment Standards Act and Regulation, which set minimum standards for wages and working conditions in most workplaces, and outline the rights and responsibilities of employees in the workplace

Confirming WorkSafeBC coverage

Unpaid placements

WorkSafeBC has the authority to extend coverage to students participating in ministry-authorized WEX placements at standard worksites. Students are deemed to be “workers of the Crown” for these purposes. In the event of a workplace accident during a WEX placement, WorkSafeBC provides compensation, health care benefits, and rehabilitation benefits on the same terms and conditions as for any other worker.

Coverage as “workers of the Crown” is available to students who are 14 years of age or older, and are participating in a school-arranged, school-monitored, and unpaid WEX placement as documented in a Work Experience Placement Agreement Form (see sample in Appendix D). Work Experience Placement Agreement Forms must be completed and signed before students start work. WorkSafeBC coverage for “workers of the Crown” is not available to students at non-standard worksites (see “Other WEX options” and Appendix M: WorkSafeBC Update).

For all unpaid WEX placements, district staff must confirm and document in student files that employers are registered and in good standing with WorkSafeBC to ensure students qualify as “workers of the Crown.” A WorkSafeBC Clearance letter (see sample in Appendix E) provides this confirmation and can be accessed through WorkSafeBC’s website. District staff must also confirm and document that (1) the employer is not registered only for Personal Optional Protection coverage, and (2) the employer is insured by WorkSafeBC for employees. Where these requirements are not met, students are not covered as “workers of the Crown.” Clearance letters do not provide this information, so educators and/or district staff will need to ask the employer. Additional information about coverage for unpaid WEX placements is provided in Appendix M: WorkSafeBC Update.
**Paid placements**

Students, who are supported and monitored by the school district, and who use paid employment to earn credits for WEX courses, must show that they are working at a site where WorkSafeBC coverage is provided. WorkSafeBC coverage for any paid work experience must be provided by the employer and will not be provided by the Province. District staff must confirm that employers provide coverage for students in paid WEX placements and must include confirming documentation, such as a WorkSafeBC Clearance letter (see sample in Appendix E), in student files. The clearance letter will indicate whether the employer is registered and in good standing with WorkSafeBC, and can be accessed through WorkSafeBC’s website. As they do for unpaid placements, district staff must also confirm and document that the employer of paid WEX placements has WorkSafeBC coverage for employees.

The paid hours to be used for the purpose of completing WEX 12A and/or 12B may only begin to accrue after the district has:

- [✓] provided the required in-school and on-site safety orientations
- [✓] formally confirmed the student’s employer through a signed Work Experience Placement Agreement Form (see Appendix D)
- [✓] developed a student training plan with the employer and student

School district staff should also be aware of the Ministry of Finance’s Schools Protection Program (SPP). SPP provides support and coverage for and against liability and loss to all Boards of Education and Francophone Education Authorities. SPP liability coverage is primarily designed to protect the school district and its employees while performing district-authorized duties against third-party claims. SPP also provides advisory services in identifying and managing risks that may lead to loss or damage to property, or harm to individuals.

**Placements in a federally regulated employment sector**

Most jobs in British Columbia are regulated by provincial labour laws and insurance coverage is provided by WorkSafeBC. There are certain exceptions, including banks, telecommunications, inter-provincial transportation, and marine transportation. These are regulated by the federal government. (Appendix K includes a link to a list of employment sectors regulated by the federal government.)

Students on unpaid placements in one of these sectors are not eligible for WorkSafeBC coverage as a “worker of the Crown.” As stated in British Columbia’s Work Experience Order, a “board must not permit a student to participate in a Work Study Program unless…the student will be covered by the Workers Compensation Act.” Workers’ compensation benefits for employees of the Government of Canada are administered by the Labour Program at Employment and Social Development Canada in accordance with the Government Employees Compensation Act and the Flying Accidents Compensation Regulations.
Completing the Work Experience Placement Agreement Form (unpaid and paid placements)

District staff, students, and WEX employers must sign a Work Experience Placement Agreement Form (see Appendix D). The form confirms that the employer will supervise the student during the WEX placement; the terms of the placement, including the location or locations of the worksite; and the anticipated dates and times of the placement.

For some placements, especially those that involve volunteering with community groups, established schedules may not exist or be appropriate. In these cases, the student training plan must include the processes students follow to learn about the date, time, and location. The plan must also include the dates and times of volunteering opportunities once they are known or have occurred. The Work Experience Placement Agreement Form can indicate that the WEX placement schedule is variable and can include a broad range of possible work hours (e.g., “8:00 a.m. to 9:00 p.m., inclusive”).

Note: The signed Work Experience Placement Agreement form must be retained by district staff for the purposes of WorkSafeBC coverage and for validation of ministry funding claims. It is recommended that parents'/guardians’ signatures be obtained for all WEX placements.

Providing a worksite safety orientation (unpaid and paid placements)

WEX employers are required to provide students with an on-site safety orientation. The orientation must encompass workplace safety precautions specific to the type of work and the worksite. The on-site orientation must occur before hands-on activities begin, and students and employers must complete a Worksite Safety Checklist to confirm that an on-site safety orientation occurred (refer to Appendix F and WorkSafeBC’s Student Work Placement: Guide for assessing workplace health and safety for samples of worksite safety checklists). District staff must include the signed checklist in student files as documentation of the orientation. Employers may consider using the checklist as a reference for conducting on-site orientations.

In cases where an employer or location is new to a district’s WEX program, district staff and the employer must also review the worksite from a general safety perspective through site visits (where feasible) and discussions with the employer or the student’s direct supervisor. The purpose is to conclude the worksite is safe and free from exploitation and harassment. District staff must include documentation of this general safety review in student files. (See Appendix I for a sample Worksite Inspection Form, and refer to WorkSafeBC’s Student Work Placement: Guide for assessing workplace health and safety.)
Developing student training plans (unpaid and paid placements)

Educators must ensure that student training plans outline the goals for learning and skill development for each WEX placement, and demonstrate a student’s progress through the curricular learning standards and job-specific skills for each of the WEX courses the student undertakes.

Before students begin a WEX placement, educators must work with students and employers to establish and sign off on a student training plan. Student training plans for work experience:

- include the anticipated dates for the completion of in-school and on-site safety orientations
- outline the duties or tasks to be performed
- include the learning standards to be met and the work-specific skills to be developed

Preparing students for WEX placements: Additional Considerations

In WEX 12A and 12B, students learn first-hand what worksites typically require in terms of behaviour, clothing, and workplace safety. For the WEX placement to be effective, educators and/or other district staff must ensure that students are familiar with the rights, responsibilities, and expectations associated with participation in the workforce. Educators and/or other district staff must impress upon students the importance of:

- continuing to attend all in-school courses at times other than those assigned for WEX placements
- participating in all required health and safety education and training at the workplace
- using all provided personal protective equipment and clothing as appropriate
- abiding by the worksite’s safety-related rules and regulations and its behavioural standards and practices
- working the days and hours established with employers, and notifying employers when unable to work
- notifying worksite supervisors immediately of any injuries, emergencies, or other problems
- respecting the confidential nature of information at the worksite
- participating in assessment meetings as required by worksite supervisors or WEX educators
- identifying accommodations required (if needed) to complete specific tasks
- being prepared to discuss with the employer any cultural expectations that may or may not align with workplace commitments
As part of the required worksite safety orientation, students are advised to ask their worksite supervisor about workplace safety. Questions suggested by WorkSafeBC include the following:

- What are the potential dangers of my job and how will I be protected from these dangers?
- Are there any worksite hazards (such as noise or chemicals) that I should know about, and what are the appropriate steps I should take to avoid, reduce, or eliminate them?
- Is there any safety gear that I am expected to wear, and who is responsible for providing it?
- Will I be trained in emergency procedures for things like fire or chemical spills?
- Where are the fire extinguishers, first aid kits, and other emergency equipment located?
- What is the procedure if I am injured on the worksite?
- Who do I talk to if I have a workplace health or safety question?
- What are my workplace health and safety rights and responsibilities?
- Will I be working with a supervisor, or alone?
- Who is the first aid attendant? How do I contact the first aid attendant?
- What machinery/equipment/power tools will I be required to operate? Will I be trained in their operation?
### WEX placement standards for educators

In order for a WEX placement to be effective, educators must:

- communicate with the employer to establish a student training plan for use by the student and employer that articulates the skills and areas of knowledge to be developed during the placement.
- ensure student training plans capture a student’s progress through the WEX learning standards.
- familiarize the student with the rights, responsibilities, and expectations associated with participating in a WEX placement, including the need for confidentiality.
- endeavour to place the student in appropriate situations, taking into account the student’s abilities, required accommodations (if needed), personality, and career aspirations.
- ensure that the student is monitored during the WEX placement by communicating directly with both the employer and the student so that any problems in the workplace may be addressed.
- have all required parties sign a Work Experience Placement Agreement Form (see Appendix D) before any WEX placement begins.

### WEX placement standards for employers

In order for a WEX placement to be effective, worksite supervisors must:

- provide a safe working and learning environment.
- provide a site-specific safety orientation and site-specific training before hands-on activities begin.
- provide the student with an orientation addressing hours of work, breaks, dress code, and employer expectations (including expectations concerning exploitation and harassment).
- introduce the student to regular worksite employees with an explanation of the student’s position.
- assign an employee to supervise the student.
- whenever possible, select jobs and activities appropriate for the length of the WEX placement and the student’s skills and interests, while allowing the student to participate in a variety of work activities that support the student training plan.
- immediately notify the school of any injuries or emergencies, difficulties, or other problems with the student.

During a WEX placement

**Program requirements**

**Monitoring WEX students**

Both the [Elective Work Experience Courses and Workplace Safety Policy](https://www2.gov.bc.ca/gov/content/education-training/teaching-learning/teaching-techniques/curriculum-faculty-development/curriculum-planning-strategies-equipment) and the [Work Experience Order MO237/11](https://www2.gov.bc.ca/gov/content/education-training/teaching-learning/teaching-techniques/curriculum-faculty-development/curriculum-planning-strategies-equipment) require that before they arrange Work Experience placements, Boards of Education “establish guidelines respecting the conduct, supervision, evaluation and participation of students in all school-arranged work placements.” The policy also states that “school personnel must monitor each student on a school-arranged work placement as determined by board guidelines” if the placement is to be reported as a ministry-authorized WEX course.

District staff may consider encouraging employers to review WorkSafe BC’s [Sample Young or New Worker Orientation Checklist](https://www2.gov.bc.ca/gov/content/safety/ward/young-workers/young_workers_checklist).
Monitoring students on WEX placements should include worksite visits as well as regular communication with the students’ employers and/or workplace supervisors. The frequency and types of communication are determined by school districts and are expressed in each school district’s policies and guidelines related to work experience programming (as required by the Work Experience Order).

All monitoring activities must be documented. Monitoring ensures employers are meeting their health and safety responsibilities, and students are performing assigned tasks to the best of their ability. Monitoring also confirms students’ personal management skills are consistent with the expectations of the employer and school, and include participation in the placement as agreed (see Appendix J for a sample Student Work Hours Log). It is suggested that special attention be paid to attendance and punctuality, as well as the demonstration of positive attitudes, adaptability, and workplace safety.

District and school-based administrators must make provisions for staff to monitor all students participating in ministry-authorized WEX courses. Educators and/or district staff must be in contact with employers for all WEX students, including students on paid placements. If a school arranges WEX placements for students during the summer or other times when school is not in session, an assigned staff person must be available to monitor the students.

Educators and/or district staff must also communicate directly with students to ensure that any student concerns about the WEX placements, including health and safety concerns, are addressed and that any problems are resolved in the best interests of both the students and the employers.

**Reporting injuries to WorkSafeBC**

It is essential that every workplace accident, no matter how minor, is followed up and a WorkSafeBC report filed. It is the school district’s responsibility to inform participating students and worksite supervisors about the procedure for reporting injuries suffered by students on WEX placements. (For reference, Appendix G is an Employer’s Report of Injury or Occupational Disease, also available online, and Appendix L provides an overview of the reporting procedures in the case of a workplace accident or injury.)

**Ongoing student safety considerations**

During work experience placements, events and circumstances can sometimes lead to negative social-emotional impacts on students. There is growing evidence that exposure to bullying and harassment in the workplace can have serious negative consequences. Workplace bullying and harassment can take many forms, including verbal aggression, personal attacks, and other intimidating or humiliating behaviours.

WorkSafeBC has developed Occupational Health and Safety (OHS) policies that define bullying and harassment and explain the duties of employers, supervisors, and workers to prevent and address workplace bullying and harassment. WorkSafeBC has also developed a Bullying and Harassment Prevention Toolkit to help workplace parties meet their legal duties as outlined in the OHS policies. The toolkit provides information, training tools, and templates that workplaces can adapt to meet their individual needs. Questions about these resources can be answered at policy@worksafebc.com.

Students, educators, other district staff, or workplace supervisors who witness or experience bullying and harassment in the workplace should follow the procedures set out by the employer. They can also contact the Prevention Information Line: 604-276-3100 (Lower Mainland) or toll-free at 1-888-621-7233.
After a WEX placement

Program requirement: Assessing and evaluating WEX students

As in all educational programs, WEX students must be evaluated by educators who are employed by a Board of Education or Independent School Authority and who are certified by the Teacher Regulation Branch of the Ministry of Education. A final grade must be assigned and is based on an assessment of the student’s completion of the provincial WEX curricula. Educators should incorporate clear criteria and utilize a variety of assessment strategies (suggestions may be found in the elaborations within the curriculum).

Employer feedback and observations are integral components of WEX placements and may be included as part of any discussions or formative assessment activities that educators and/or district staff may have with students before, during, and/or after their placement. Employer feedback and observations may also inform instruction. However, they may not be considered as part of a student’s formal evaluation or final course grade. (See Appendix H for a sample Employer Feedback Form.)

Other work experience delivery options

This guide focuses primarily on the requirements and procedures for Boards of Education and Independent School Authorities delivering ministry-funded WEX courses through a “bricks and mortar” school, where WEX placements occur at standard worksites. If Boards of Education and Independent School Authorities comply with WEX program requirements and procedures, they can report students for ministry funding through Form 1701 reporting processes.

Students may also take WEX courses through their district’s distributed learning and continuing education programming or their independent distributed learning school, through Independent Directed Studies or Board/Authority Authorized courses, or as a career simulation (see “Other WEX options” above).

Distributed learning

Boards of Education and Independent School Authorities that comply with the WEX program requirements and procedures outlined in this guide can report distributed learning students through Form 1701 reporting processes only after attendance criteria are met and students become “active” in each course.

Continuing education

Boards of Education that comply with the WEX program requirements and procedures outlined in this guide can report continuing education students through Form 1701 reporting processes only after the Adult Funding Policy’s definition of attendance has been met in each course.
**Independent Directed Studies**

Through Individual Directed Studies (IDS), students can receive an additional eight credits for work experience (to a maximum of 16 credits in total for all work experience courses). District and school staff are required to follow the requirements for IDS as identified in the [Graduation Program Order](#).

**Board/Authority Authorized courses**

Boards of Education or Independent School Authorities that wish to develop their own credit-based work experience courses not based on ministry guidelines for WEX must ensure that these courses meet the [Elective Work Experience Courses and Workplace Safety](#) and [Board/Authority Authorized Courses](#) requirements. Board/Authority Authorized work experience courses can be developed for students who may have difficulty meeting the learning standards contained in the [Work Experience 12A and 12B curricula](#). A student can earn up to a maximum of 16 credits for all work experience courses.

Appendix Bi: Curriculum
(Work Experience 12A)

Area of Learning: Work Experience 12A
Grade 12

**BIG IDEAS**

Experiences outside of school expand our workplace skills and career-life options while providing opportunities for self-discovery.

Personal awareness and pathway options are developed through an inquiry mindset.

Understanding and applying one’s personal rights and responsibilities as a worker builds a safer work environment for all.

**Learning Standards**

## BIG IDEAS

- Experiences outside of school expand our workplace skills and career-life options while providing opportunities for self-discovery.
- Personal awareness and pathway options are developed through an inquiry mindset.
- Understanding and applying one’s personal rights and responsibilities as a worker builds a safer work environment for all.

## Learning Standards

### Curricular Competencies

**Students are expected to be able to do the following:**

**Connect and Wonder**
- Apply novel and guided approaches to utilize personal strengths, preferences, and skills
- **Assess knowledge of self** and prior work experience, and identify personal areas of interest to explore options for work placement

**Explore and Investigate**
- Refine job search and interview skills
- Identify, apply, and reflect on **transferrable skills** specific to the work placement
- Implement a plan to address skill development and refinement
- Access information and ideas on **workplace safety** prior to work placement to determine workplace safety risks
- Identify, demonstrate and incorporate **provincially legislated** safety and site-specific work-site safety procedures while at the work placement

**Experience and Develop**
- Demonstrate understanding of **cultural sensitivity, workplace ethics and etiquette**
- Demonstrate progression of skills learned specific to the work placement
- Contribute to **care of self, others, and community**
- Develop skills to work respectfully and constructively, both **independently** and with others, to achieve common goals

### Content

**Students are expected to know the following:**

**Workplace Safety**
- **occupational health and safety rights and responsibilities**, including trade-specific hazards, risk reduction, and rights and **procedures** to refuse unsafe work
- **worker insurance**
- potential hazards in their occupation/industry sector
- workplace incident and accident response procedures and protocols
- **injury prevention awareness**

**Workplace Skills**
- **essential skills** for a continually changing labour market
- responsibilities and expectations associated with participating in a work experience placement
- general and site-specific **workplace expectations**
- **cultural land use considerations and First Peoples knowledge**
- problem-solving and conflict resolution strategies, and interpersonal skills
- **self-advocacy** skills and **self-efficacy**
- **job search and interview skills** for work experience
- **benefits of volunteerism**

## Appendix C: Suggested Procedures for Work Experience Placements and Course Reporting

The following table presents a schedule and suggested procedures for school district staff coordinating Work Experience (WEX) paid and unpaid placements at standard worksites. The table includes steps and practices to meet the requirements for reporting eligible student enrolments to the Ministry of Education for funding. The table is based on eligibility at standard schools and includes considerations for distributed learning (DL) and continuing education (CE).

<table>
<thead>
<tr>
<th>Step</th>
<th>Event/Activity</th>
<th>Resources/Appendices</th>
<th>Student file records</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Before the placement:</strong> As required by Work Experience Order MO237/11 and Elective Work Experience Courses and Workplace Safety Policy, there must be Board-established guidelines regarding conduct, supervision, evaluation, and participation of students.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1</td>
<td>Enrol student in WEX 12A or 12B via the course registry  <strong>Note:</strong> For students using unpaid or paid employment, districts must:  • provide the required in-school and on-site safety orientations  • confirm the student’s employer has other employees  • confirm the student’s employer through a signed Work Experience Placement Agreement Form (see Appendix D)  • deliver the Curricular Competencies and Content for WEX 12A and/or WEX 12B  • develop a student training plan with the employer and student (see Appendix A)</td>
<td>• Form 1701: Student Data Collection  <strong>Related links:</strong>  • K-12 Funding General Policy  • Elective Work Experience Courses and Workplace Safety Policy  • Work Experience Order MO237/11  • DL Active Policy  • Adult Funding Policy  • Student Work Placement: Guide for assessing workplace health and safety</td>
<td>• September 30 student timetable  • Evidence that claims are made after students meet ministry’s attendance requirements  • All ministry course funding claims for WEX must be supported by the following documentation: completed in-school and on-site safety orientations; a signed and dated Work Experience Placement Agreement Form; and a signed and dated student training plan. These must be in place before the student starts the on-site placement, not before the end of the 1701 reporting process.</td>
</tr>
<tr>
<td>2</td>
<td>Confirm enrolment with student  <strong>Note:</strong> Students training plan (Appendix A)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3</td>
<td>Conduct an in-school orientation addressing safety, workers’ rights and responsibilities, and related pre-placement course-specific ministry curriculum.  <strong>Note:</strong> In-school and on-site safety orientations for WEX 12B are required only if the student’s placement changes or if the job duties are significantly different from those in WEX 12A and require new or additional safety training.</td>
<td>• Student WorkSafe 10-12: Resource for Teachers  • Student Resources  • Occupational Health and Safety Guidelines  • Hazard Recognition  • Employment Standards Act and Regulation</td>
<td>• Locally developed evidence of an in-school orientation having been completed before the placement starts</td>
</tr>
<tr>
<td>Step</td>
<td>Event/ Activity</td>
<td>Resources/Appendices</td>
<td>Student file records</td>
</tr>
<tr>
<td>------</td>
<td>----------------</td>
<td>----------------------</td>
<td>----------------------</td>
</tr>
</tbody>
</table>
| 4    | Since students using paid employment for WEX are not covered as “workers of the Crown” by WorkSafeBC, districts must confirm that each student’s employer provides WorksafeBC coverage and has other employees | • WorkSafeBC’s [Get a Clearance Letter](#) and [Understanding Your Clearance Letter](#)  
• [Sample Clearance Letter](#) (see example in Appendix E) | • Clearance letter or other documentation confirming employer’s WorkSafeBC account number and good standing  
• Documentation that the employer has other employees |
| 5    | Create a student training plan that:  
• includes evidence that in-school and site-specific safety orientations were completed  
• describes the student’s workplace responsibilities *(Note: A WEX 12B training plan must describe new, different responsibilities from those in WEX 12A,)*  
• where appropriate, identifies the general progression through course-specific ministry curriculum from WEX 12A and WEX 12B | • Student training plan (Appendix A)  
• Course curricula (Appendix B) | • Evidence of a signed student training plan for each of WEX 12A and WEX 12B. *(Note: A student training plan must be signed before reporting students for ministry course funding and before beginning to track the student’s WEX hours.)* |

By their signatures, the parties signify their agreement to the following:

**Duration of agreement**

This agreement will be in effect from: _______ month/_______ day/_________ year.

**Work Schedule** (subject to change based on operational needs and student schedule)

<table>
<thead>
<tr>
<th>Days</th>
<th>Monday</th>
<th>Tuesday</th>
<th>Wednesday</th>
<th>Thursday</th>
<th>Friday</th>
<th>Saturday</th>
<th>Sunday</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hours</td>

<td></td>
<td></td>
</tr>
</tbody>
</table>
The parties agree to a Work Experience 12A or 12B placement (the “WEX placement”) for the Student with the Worksite Employer on the following terms and conditions:

**Term of agreement**
This agreement will be in effect from: _______________________ until ______________________ unless it is ended at an earlier time.

**Student duties**
The Student agrees to perform without payment those duties assigned to the Student from time to time by the Worksite Employer in consultation with the Board’s representatives. The Student agrees to comply with the Worksite Employer’s rules and all applicable safety regulations. Special Rules and Regulations are to be communicated by the Worksite Employer to the Student.

**Days and hours of the work experience placement**
The Student agrees to perform those duties as assigned by the Worksite Employer in accordance with the preceding paragraph on the days and during the hours indicated:

Day(s): _________________________
Hours: _________________________
or at such other times as may be agreed, in writing, by the Worksite Employer, Board of Education, and Student.

None of the provisions of this agreement apply if the Student is employed by the Worksite Employer beyond the days and hours agreed upon by the Worksite Employer, Board of Education, and Student.

**Supervision**
The Student agrees to be under the direct supervision of the Worksite Employer, and the Worksite Employer agrees to supervise the Student at all times during the WEX placement.

**Site safety orientation**
The Worksite Employer will provide to the Student site and work-specific safety training and will not permit the Student to perform any duties unless the Student has all safety equipment required for the tasks to be performed by the Student.

**Board access**
The Worksite Employer agrees to allow Board of Education representatives to have access at any time to the Worksite Employer’s worksite and the Student.

**Transportation**
The parties agree that the parent(s) or guardian(s) and the Student are solely responsible for the Student’s transportation to and from the Worksite Employer’s worksite, except ________________________________.

*If no exception, complete by writing “not applicable.” If Board of Education or Worksite Employer transportation will be provided, describe in detail.*
**Evaluation**

When requested by the Board, the Worksite Employer will evaluate the Student’s performance of their duties, will report that evaluation in the form required by the Board, and will consult with Board representatives about the evaluation.

**Workers’ Compensation Act injury coverage**

Students in a WEX placement at a standard worksite are covered by the Workers’ Compensation Act and are considered to be workers of the Government of the Province of British Columbia for Workers’ Compensation purposes only. Coverage is limited by the terms and conditions set out in the [Workers’ Compensation Coverage Order](#) (effective July 21, 2011).

**Notice of injury**

The Worksite Employer will, if a Student is injured, immediately report the occurrence of injury to the Board by contacting:

________________________________________________________________________ [insert name, position/title]

at ______________________________________________________________________ [insert telephone and fax numbers]

**Indemnity**

The Board agrees to indemnify and hold harmless the Worksite Employer, its employees and agents from any and all claims, demands, actions, and costs whatsoever that may arise out of the negligent acts or omissions of the Board, the Board’s employees, and the Student, in their performance of this agreement, unless such negligent acts or omissions are at the direction of or occasioned by the Worksite Employer, its employees or agents.

The Worksite Employer agrees that it will not require the Student to perform any task unless such task might reasonably be expected to be within the scope of the Student’s training and abilities.

**Insurance**

The Board shall maintain liability coverage to protect the Board, the Board’s employees, and the Student during their performance of this agreement.

**Minimum Age**

The parent(s) or guardian(s) of the Student warrant that the Student is _______ years of age or older at the date of this agreement.

**Note:** A student must be at least 14 years of age to participate in a WEX placement.

**Effect on employees**

The Worksite Employer agrees that the placement of the Student will not affect the job security of any employee of the Worksite Employer and will not affect the Worksite Employer’s hiring practices. The placement of the Student will be in addition to the Worksite Employer’s full complement of employees. The Student will not be a replacement for any employee.
Termination of the agreement
Any party to this agreement may end it at any time by giving notice in writing to all other parties at the addresses given in this agreement.

Reference
In this agreement a reference to the Board includes Board officers, employees, or representatives acting within the scope of their employment.

Confidentiality
All parties agree to maintain, in the strictest confidence, information that comes to their knowledge during the WEX placement.
Appendix E: Sample Clearance Letter

Mr John Smith
123 Main Street
BIGCITY, BC V5M 3L2

December 31, 2009

Person/Business: WCB TEST ACCOUNT - EBUSINESS SUPPORT
655044 AQ (001)

This letter provides clearance information for the purposes of Section 51 of the Workers Compensation Act.

We confirm that the above-referenced firm is active, in good standing, and has met WorkSafeBC’s criteria for advance clearance. Accordingly, if the addressee on this letter is the prime contractor, the addressee will not be held liable for the amount of any assessment payable for work undertaken by the above-referenced firm to January 01, 2010.

This firm has had continuous coverage with us since December 19, 2000.

Employer Service Centre
Assessment Department

Clearance Reference #: C125744958
CLRAAA-7

For more information about Section 51 and clearance letters visit WorkSafeBC.com

Please refer to your account number in your correspondence or when contacting the Assessment Department.
To alter this document constitutes fraud.
## Appendix F: Sample Worksite Safety Checklist
### (Work Experience 12A and 12B Placements)

Students must complete and submit this form to their school contact to confirm that a worksite safety orientation was conducted by the worksite supervisor.

<table>
<thead>
<tr>

</tbody>
</table>

By their signatures, the student and worksite supervisor confirm the following:

- The student received a safety orientation at the worksite.
- The student referred to the safety questions below as part of the discussions with the worksite supervisor.
- The student agrees to report any injuries as soon as possible to the worksite supervisor and school district Work Experience contact.
- The student is aware of the procedures set out by the employer in the case of witnessing or experiencing bullying and harassment in the workplace.
- The student has been instructed in:
  - the use of personal protective equipment
  - workplace health and safety rules and procedures
  - the location of first aid equipment
  - the management and organization of tools and equipment
  - procedures for working alone or in isolation
  - the location and management of hazardous materials
  - procedures for reporting accidents and/or safety concerns

### Suggested safety questions from WorkSafeBC:

- What are the potential dangers of my job, and how will I be protected from these dangers?
- Are there any hazards (such as noise or chemicals) that I should know about, and what are the appropriate steps that I should take to avoid these hazards?
- Is there any safety gear that I am expected to wear, and who is responsible for providing the gear?
- Will I be trained in emergency procedures for things like fire or chemical spills?
- Where are the fire extinguishers, first aid kits, and other emergency equipment located?
- What are my workplace health and safety responsibilities?
- Who do I talk to if I have a workplace health or safety question?
- What is the procedure if I am injured on the worksite?
- Who is the first aid attendant? How do I contact the first aid attendant?
- What are the procedures I should follow if I witness or experience bullying and harassment in the workplace?
Appendix G: Sample Employer’s Report

Employer’s Report of Injury or Occupational Disease

As an employer, the Workers Compensation Act requires you to submit this report within three days of an injury to one of your workers, even if you disagree with the claim. By submitting your report promptly, you avoid penalties and delays in the adjudication of the claim. Please report using one of the following options:

1. **Online** — The quickest and easiest option: The online screen application customizes questions to the worker’s injury. You can save your report and update it later with new information. Once submitted, you can follow the status of the claim online. Go to worksafebc.com and select “Report injury or illness.”

2. **Fillable PDF form** Type your details online, print the form, and submit it by fax or mail. Go to worksafebc.com and select “Report injury or illness.”

3. **Paper form** Clearly print details, sign the form, and submit it by fax or mail.

Fax: 604.233.9777 in Greater Vancouver or toll-free within BC at 1.888.922.8807

Mail: WorkSafeBC, PO Box 4700 Stn Terminal, Vancouver BC V6B 1Z1

### Employer Information

Worker last name
First name
Middle initial
WorkSafeBC claim number (if known)
Social insurance number
Personal health number (CareCard)
Date of incident (yyyy-mm-dd)
Date of birth (yyyy-mm-dd)

15. Contributing factors — select at least one, and as many as applicable
- Lifting
- Overexertion
- Repetitive (activity repeated over and over again)
- Slip or trip
- Twist
- Fall
- Assualt
- Motor vehicle accident
- Unsafe/other (please explain below)
- Sharp edge
- Fire or explosion
- Harmful substances in the work environment
- Animal bite

16. Were there any witnesses?
- Yes
- No

17. Did the incident occur in British Columbia?
- Yes
- No

18. Were the worker's actions at time of injury for the purpose of your business?
- Yes
- No

19. Did the incident occur on employer’s premises or an authorized worksite?
- Yes
- No

20. Did the incident happen during the worker’s normal shift?
- Yes
- No

21. Was the worker performing their regular duties at the time of the incident?
- Yes
- No

22. Did the worker receive first aid?
- Yes
- No
- Date (yyyy-mm-dd)
- If yes, please provide first aid attendant name (if known)

23. Did the worker go to hospital, clinic, or visit a physician or qualified practitioner?
- Yes
- No
- Date (yyyy-mm-dd)
- If yes, please provide provider name (if known)

24. Are you aware of any recent pain or disability in the area of the worker’s reported injury?
- Yes
- No

25. Do you have any objections to the claim being allowed?
- Yes
- No
- If yes, please explain

Wage Information

26. Did the worker miss any time from work beyond the date of injury or exposure?
- Yes
- No

If no work was missed and no change to duties/pay, proceed to bottom of page to sign, date, and submit this report.

If work was missed or if duties/pay have been modified, please answer all questions on this form.

27. Provide the base salary amount for this employment position at the time of injury
- $ Hourly
- $ Daily
- $ Weekly
- $ Monthly
- $ Yearly

28. Does worker receive other amounts of compensation in addition to base salary?
- Yes
- No
- Does worker receive vacation pay on every cheque?
- Yes
- No
- If yes, vacation pay %

Please select check boxes for any of the following amounts worker receives in addition to base salary AND provide the amount for each:
- Tips and gratuities $ Room and board $
- Shift differential $
- Overtime $

29. If worker is disabled from work, will you continue to pay:
- Base salary?
- Other amounts of compensation in addition to base salary?
- Will worker receive vacation pay on every cheque?
- If yes, vacation pay %

Please select check boxes for any of the following amounts worker will continue to receive in addition to base salary AND provide the amount for each:
- Tips and gratuities $ Room and board $
- Shift differential $
- Overtime $

30. Provide the amount of gross earnings for the past 3 months or 12 weeks prior to the date of injury or exposure
- $ 3 months
- $ 12 weeks

31. Does the worker have a fixed-shift rotation?
- Yes
- No

32. If no, please explain:

33. If yes, show the normal work week by entering the paid hours

<table>
<thead>
<tr>
<th>Sun</th>
<th>Mon</th>
<th>Tues</th>
<th>Wed</th>
<th>Thu</th>
<th>Fri</th>
<th>Sat</th>
</tr>
</thead>
</table>

34. Did the worker continue to work past day of injury?
- Yes
- No

35. Last day worked (yyyy-mm-dd)

36. Number of hours scheduled to work on last day worked

37. Number of hours worked on last day

38. Number of hours paid by employer on last day worked
Employer’s Report of Injury or Occupational Disease

If faxing form, please complete this section and fax both sides of page. Missing pages may result in delays in processing.

**Additional comments:**
Appendix I: Sample Worksite Inspection Form
(Work Experience 12A and 12B)

This worksite visit is to be completed by school district staff. Worksite visits are not intended to be exhaustive safety inspections, but are commonsense inspections that ensure that the school district has determined the worksite and placement to be appropriate for the student’s safety and skills development. School districts may also consider referring to WorkSafeBC’s Student Work Placement: Guide for assessing workplace health and safety.

A WorkSafeBC clearance letter is attached? □ Yes □ No

**Type of worksite**

❑ This is a **standard worksite** (i.e., where a worker performs the tasks and responsibilities related to a career under supervision of a worksite employer), or

❑ This is a **non-standard worksite** (i.e., a simulated worksite).

**Placement/worksite considerations**

❑ The worksite matches the interests and abilities of the student.
❑ This is a physically safe worksite (including location, environmental conditions, building structure, etc.).
❑ Necessary safety practices are in place, and the student will be informed of these.
❑ The student will have the necessary safety attire and/or equipment. Provisions will be agreed upon by the student and the employer.
❑ The employer has been informed of WorkSafeBC accident or injury reporting procedures and coverage.
❑ The employer/supervisor will ensure that the student is adequately instructed/trained and supervised.
❑ The employer/supervisor will ensure a comfortable working environment for the student.

**Additional comments or concerns about the worksite:**

This worksite is: □ Recommended □ Not recommended

Appendix L: Accident and Injury Reporting Procedure (Work Experience 12A and 12B)

It is essential that every workplace accident, no matter how minor, be followed up and a WorkSafeBC report filed. This ensures that injuries that initially appear minor, but that are potentially serious, are still subject to WorkSafeBC coverage.

It is the school district’s responsibility to inform participating students and worksite supervisors about the procedure for reporting injuries suffered by students on ministry-authorized Work Experience (WEX) placements.

The procedures below are to be followed in the case of a workplace accident or injury:

1. The student must report any injury to the workplace supervisor and WEX teacher as soon as possible.
2. If appropriate, the worksite carries out on-site first aid. If necessary, the worksite supervisor transports the student to a physician or hospital and indicates to the physician or hospital staff that the injury resulted from a workplace accident.
3. In accordance with the Workers Compensation Act (s. 54), a WorkSafeBC Employer’s Report of Injury or Occupational Disease (Form 7) must be submitted to a regional WorkSafeBC office within three days of the date of the injury.
   
   **Note:** The school district or Independent School Authority must be listed as the student’s employer on all WorkSafeBC forms, and the student’s occupation must be listed as “Work Experience 12 student” so that the claim will be assigned to the provincial government rather than the school district or Independent School Authority.

4. When completing Form 7:
   a. The “WorkSafeBC account number” for ministry-authorized Work Experience students is 4000.
   b. The “classification unit number” is 841102.
   c. Leave the “type of business” and “operating location number” cells blank, along with the “employer payroll contact” cells.
   d. List the “worker’s occupation” as “Work Experience student” and check the “temporary” and “student” boxes in the Worker Information section.

5. For a student injured on a school-approved and unpaid work experience placement at a standard worksite, a copy of the Employer’s Report of Injury or Occupational Exposure (Form 7) and a copy of the student’s Work Experience Placement Agreement Form (see Appendix D) are required to be submitted to the Ministry of Education.
   
   **Note:** Claims will only be covered for students who have a signed Work Experience Placement Agreement Form for the times and dates of work placements where the injury occurred.

6. Injury forms should be sent to the Ministry of Education at:
   - email: educ.skills@gov.bc.ca
   - Mailing address: Custom Programs and Projects
     PO Box 9887, STN PROV GOVT
     4th Floor, 620 Superior St.
     Victoria BC V8W 9T6

7. In accordance with Board of Education or Independent School Authority records retention policy, the student’s Work Experience Placement Agreement Form and the Employer’s Report of Injury or Occupational Disease (Form 7) should be kept on file.
Understanding workers’ compensation coverage for B.C. secondary school students engaged in unpaid work study/work experience

The following is intended to clarify when workers’ compensation coverage is extended to students engaged in unpaid work study/work experience and to address gaps in understanding to ensure teachers, school districts, and the Ministry of Education know what to be aware of when placing students in unpaid work environments.

For the purposes of this document, a student is any student enrolled in any B.C. secondary school, aged 14 or over. This document is meant to be shared to create greater understanding and awareness around work placements. WorkSafeBC will share this document with educators through its channels and understands that the ministry will communicate this to school districts and to educators through its channels as well.

Frequently Asked Questions

What is the nature of the agreement between WorkSafeBC and the Ministry of Education as it relates to students doing unpaid work study/work experience?

WorkSafeBC has an agreement with the Ministry of Education to extend workers’ compensation coverage to secondary school students engaged in unpaid work study/work experience. This is an exception, as typically those engaged in unpaid work or acting in a volunteer capacity are not eligible for workers’ compensation coverage. However, WorkSafeBC has the authority to extend coverage to secondary school students participating in Ministry-authorized work experience programs with employers at standard work sites (see terms defined below). These students then become workers of the Crown in right of the Province.

Are students doing unpaid work experience eligible for workers’ compensation benefits if they are injured while on that placement?

Yes, under the following circumstances:

- The student is engaged in ministry-approved work study/work experience
- The student is working for an employer (as defined by WorkSafeBC) at a standard work site
- There is a signed program agreement in place
- WorkSafeBC accepts the claim
What occupational health and safety rights does a student have while engaged in unpaid ministry-approved work study/work experience?

A student placed in ministry-authorized unpaid work experience, when placed with an employer, has the rights of any other worker under the *Workers Compensation Act* and, if injured in that placement, may file a claim for compensation. If the claim is accepted, the student will receive the same compensation and benefits as would any other worker suffering an injury or death arising out of and in the course of work.

Do certain terms and conditions need to be met for coverage to be extended to students?

Yes. There must be a signed program agreement (the “Work Experience Placement Agreement Form”). This form must include the name and contact information for all of the agreement participants, including the School District, student (who must be aged 14 or older), parents/guardians (if required) and the employer. It must also include the location of the standard work site where the student will be placed. The agreement must be signed by all parties and outlines the duration of the work experience placement and the schedule.

What is the definition of “work study/work experience”?

WorkSafeBC defines this as that part of an educational program that provides a student with an opportunity to participate in, observe or learn about the performance of tasks and responsibilities related to an occupation or career. This includes participation in community service under a graduation course requirement established by the Ministry of Education (for example, 30 hour work placement or volunteer or community service).

Are students covered for their mandatory volunteer hours too?

Yes, but only if they meet all of the same terms required for work experience. As such, there must be a signed program agreement, the volunteer assignment must be with a standard employer and at a standard work site.

What is a “standard work site”?

This is the location where the work will occur and it cannot be a site created specifically for work experience. It’s where the student performs the tasks and responsibilities related to an occupation or career under the general supervision of a work site employer.
How does WorkSafeBC define “employer”?

According to WorkSafeBC, an employer “includes every person having in their service under a contract of hiring or apprenticeship, written or oral, express or implied, a person engaged in work in or about an industry”. Simply stated, an employer is an individual who employs at least one worker. As such, they cannot be self-employed without workers, or have Personal Optional Protection (POP) only and no workers. POP is an optional form of insurance available to eligible proprietors and partners of a business that is not a limited company (the owner of a small business, for instance). These individuals are not automatically covered for compensation purposes, and POP coverage, may provide wage loss, health care and rehabilitation benefits if they are injured at work. A proprietor or a partner who has only POP coverage for themselves is not considered an employer, but would be considered an employer if they employed a worker as well. A company is presumed to be an employer if it is incorporated.

Can a student be placed with any employer?

The decision to assign a student to an unpaid work experience placement and determine which employer they are assigned to is up to the school or school district, and likely the teacher, parent and student. However, for workers’ compensation coverage to be in effect, the entity that the student is placed with must be an employer as defined by WorkSafeBC, at a standard work site (as defined above). If a student is placed with an independent operator with POP coverage only, the student will not be covered if they are injured as the individual is not, by definition, an employer.

What happens if the student in a work placement is injured and the placement is with a non-standard employer?

If the student is placed in a non-standard work site, or if there is no program agreement in place, or if the student is placed with an entity not recognized as an “employer”, the student would not be covered for workers’ compensation and would have to seek other remedies outside of WorkSafeBC coverage, if available. The school district or ministry may be subject to a lawsuit in these circumstances.

Is workers’ compensation coverage for students dependent upon whether or not the employer is registered?

No. WorkSafeBC will not punish a worker, or in this case a student who is a worker of the Crown, if the employer they are placed with fails to meet its obligations to register with WorkSafeBC. WorkSafeBC may register a firm on its own initiative if it becomes aware of a firm that is required to
be registered. The student’s eligibility for workers’ compensation coverage, however, is not dependent upon employer registration.

**What if the employer is registered, but in arrears in its premium payments to WorkSafeBC?**

Regardless of whether or not an employer is in good standing – in other words, up to date on its premium payments – the student placed with an employer in work experience will always have coverage, provided the terms and conditions of coverage are met. It should be noted, however, that if the employer is not paying premiums as required, that the ministry (since the student is considered a worker of the Crown) could be held liable for any costs arising from a claim should the student be injured. This is one reason why it is important to obtain a clearance letter from WorkSafeBC prior to placing a student in work experience. The clearance will indicate whether the employer is up to date in paying its premiums.

**In what other situations organized by the school would students NOT be covered by WorkSafeBC for injuries arising in those situations?**

The student would not be covered for workers’ compensation in any work study situation where the terms and conditions for work experience programs are not met, as noted above (signed program agreement, standard work site, and standard employer). They would also not be covered by WorkSafeBC during field trips, or when the placement is a career simulation not located in a standard work site.

**Is getting a clearance letter sufficient in ensuring the safe placement of a student for work experience?**

A clearance letter is a good start and can be obtained quickly and easily at worksafebc.com. It will indicate whether an employer is registered and in good standing (up to date on paying its premiums). If an employer is in good standing, this can be an indication of its diligence in meeting its health and safety obligations. However, for students to have coverage, they must be placed with an employer, as defined by WorkSafeBC. A person with POP-only coverage and no workers is NOT an employer as per WorkSafeBC’s definition. It is important to note that a clearance letter will not identify whether the entity has POP coverage. Therefore, it is crucial to confirm that the person or organization being considered for the work placement is indeed an employer with workers, otherwise students will not be eligible for compensation if they are injured.
Is there a business reason why a clearance letter cannot specify that the registration is for POP-only?

Privacy legislation prevents WorkSafeBC from advising whether an individual has purchased POP coverage. It is, however, open to the requestor to ask for proof of purchase of optional coverage directly from the account holder.

Note:
When placing students in work study/work placements, WorkSafeBC recommends educators refer to the document, Student Work Placement: Guide for assessing workplace health and safety. As noted in the guide, since the goal is to place students in a safe and compliant work environment, WorkSafeBC recommends teachers/placement coordinators use judgement and discretion to determine whether or not to decline any placement.
