## 12. Financial risk management (continued)

normal and stressed conditions, without incurring unacceptable losses or risking damage to the University's reputation.

### (d) Fair value of financial instruments

Generally accepted accounting principles define the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties. The University uses the following methods and assumptions to estimate the fair value of each class of financial instruments for which the carrying amounts are included in the Statement of Financial Position under the following captions:

- (i) Cash and cash equivalents and short-term investments are measured in the statement of financial position at fair value. Their carrying values approximate fair value due to the relatively short term to maturity of these instruments.
- (ii) The financial instruments measured at fair value held within each investment are classified according to a hierarchy which includes three levels, reflecting the reliability of the inputs involved in the fair value determination. The different levels are defined as follows:
  - Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
  - Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
  - Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The classification of the University's instruments is indicated in Note 5.

The budget included for the Northern Medical Program is part of the overall Medical Program Expansion budget approved by the Distributed Program Planning Committee, of which UNBC is a member.
- The Capital Fund is financially managed based on a project by project basis, with funding derived from various sources. Projects are approved individually and may span several reporting periods; therefore, capital budget figures are not available for inclusion on the Statement of Net Debt.
- Externally funded Specific Purpose and Sponsored Research funds are financially managed on an individual basis based on the contract or agreement in place relating to the revenue.
- Ancillary Funds are financially managed pursuant to annual operating budgets approved by the Board of Governors.
