STATEMENT OF ADMINISTRATIVE RESPONSIBILITY FOR FINANCIAL STATEMENTS

The Nicola Valley Institute of Technology (the "Institute") is responsible for the preparation and presentation of the accompanying financial statements, including responsibility for significant accounting judgments and estimates in accordance with Canadian public sector accounting standards and Treasury Board direction outlined in note 1(a). This responsibility includes selecting appropriate accounting policies and methods and making decisions affecting measurement of transactions in which objective judgment is required. In fulfilling its responsibilities and recognizing the limits inherent in all systems, the Institute's management has developed and maintains a system of internal controls designed to provide reasonable assurance that Institute's assets are safeguarded from loss and that the accounting records are a reliable basis for preparation of financial statements. The system of internal controls is monitored by the Institute's management.

The Board of Governors carries out its responsibility for review of the financial statements principally through its Audit and Risk Management Committee. The members of the Audit and Risk Management Committee are not officers or employees of the Institute. The Audit and Risk Management Committee meets with the management and with the external auditors to discuss the results of audit examinations and financial reporting matters. The external auditors have full access to the Audit and Risk Management Committee, with and without the presence of management.

The financial statements have been audited by KPMG LLP, Chartered Professional Accountants, the external auditors appointed by the Institute's Board of Governors. The Independent Auditors' Report outlines the nature of their audit and expresses an opinion on the financial statements of the Institute for the year ended March 31, 2022.

On behalf of Nicola Valley Institute of Technology:

Board Chairperson

Chief Financial Officer

May 13, 2022

INDEPENDENT AUDITORS' REPORT

To the Board of Governors of Nicola Valley Institute of Technology , and
To the Minister of Advanced Education and Skills Training, Province of British
Columbia

Opinion

We have audited the financial statements of Nicola Valley Institute of Technology (the Institute), which comprise:

- the statement of financial position as March 31, 2022
- the statement of operations and accumulated surplus for the year then ended
- the statement of changes in net debt for the year then ended
- the statement of cash flows for the year then ended
- and notes to the financial statements, including a summary of significant accounting policies

(Hereinafter referred to as the “financial statements”).

In our opinion, the accompanying financial statements as at and for the year ended March 31, 2022 of the Institute are prepared, in all material respects, in accordance with the financial reporting provisions of Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the “***Auditors’ Responsibilities for the Audit of the Financial Statements***” section of our auditors’ report.

We are independent of the Institute in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Financial Reporting Framework

We draw attention to Note 1(a) to the financial statements, which describes the applicable financial reporting framework and the significant differences between that financial reporting framework and Canadian public sector accounting standards.

Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the financial statements in accordance with the financial reporting provisions of Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Institute's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Institute or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Institute's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institute's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Institute's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Institute to cease to continue as a going concern.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NICOLA VALLEY INSTITUTE OF TECHNOLOGY

Notes to Financial Statements

Year ended March 31, 2022

Authority and Purpose:

Nicola Valley Institute of Technology (the "Institute") was designated as a provincial institute in 1995 and operates under the authority of the College and Institute Act of British Columbia. The Institute is a not for profit entity, governed by a Board of Governors appointed by the Ministry of Advanced Education, Skills & Training. The Institute is a registered charity and therefore exempt from income taxes under section 149 of the Income Tax Act.

The Institute provides quality post-secondary education relevant to the diverse and evolving needs of Indigenous (First Nations, Inuit and Métis) learners at its Merritt and Vancouver campuses as well as in communities.

1. Significant accounting policies:

The financial statements of the Institute are prepared by management in accordance with the basis of accounting described below. Significant accounting policies of the Institute are as follows:

(a) Basis of accounting:

The financial statements have been prepared in accordance with Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia supplemented by Regulations 257/2010 and 198/2011 issued by the Province of British Columbia Treasury Board.

The Budget Transparency and Accountability Act requires that the financial statements be prepared in accordance with the set of standards and guidelines that comprise generally accepted accounting principles for senior governments in Canada, or if the Treasury Board makes a regulation, the set of standards and guidelines that comprise generally accepted accounting principles for senior governments in Canada as modified by the alternate standard or guideline or part thereof adopted in the regulation.

Regulation 257/2010 requires all tax-payer supported organizations in the Schools, Universities, Colleges and Hospitals sectors to adopt Canadian public sector accounting standards without any PS4200 elections.

NICOLA VALLEY INSTITUTE OF TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2022

1. Significant accounting policies (continued):

(a) Basis of accounting (continued):

Regulation 198/2011 requires that restricted contributions received or receivable are to be reported as revenue depending on the nature of the restrictions on the use of the funds by the contributors as follows:

- (i) Contributions for the purpose of acquiring or developing a depreciable tangible capital asset or contributions in the form of a depreciable tangible capital asset are recorded and, referred to as deferred capital contributions and recognized in revenue at the same rate that amortization of the related tangible capital asset is recorded. The reduction of the deferred capital contributions and the recognition of the revenue are accounted for in the fiscal period during which the tangible capital asset is used to provide services. If the depreciable tangible capital asset funded by a deferred capital contribution is written down, a proportionate share of the deferred capital contribution is recognized as revenue during the same period.
- (ii) Contributions externally restricted for specific purposes other than those for the acquisition or development of a depreciable tangible capital asset are recorded as deferred contributions and recognized in revenue in the year in which the stipulation or restriction on the contributions have been met.

For British Columbia tax-payer supported organizations, these contributions include government transfers and externally restricted contributions.

The accounting policy requirements under Regulation 198/2011 are significantly different from the requirements of Canadian public sector accounting standards which requires that:

- government transfers, which do not contain a stipulation that creates a liability, be recognized as revenue by the recipient when approved by the transferor and the eligibility criteria have been met in accordance with public sector accounting standard PS3410 Government Transfers;
- externally restricted contributions be recognized as revenue in the period in which the resources are used for the purpose or purposes specified in accordance with PS3100 Restricted Assets and Revenues; and
- deferred contributions meet the criteria in accordance with PS 3200 Liabilities.

NICOLA VALLEY INSTITUTE OF TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2022

1. Significant accounting policies (continued):

(a) Basis of accounting (continued):

As a result, revenue recognized in the statement of operations and accumulated surplus and certain related deferred capital contributions would be recorded differently under Canadian public sector accounting standards.

(b) Cash and cash equivalents:

Cash and cash equivalents include highly liquid investments with a term to maturity of three months or less at the date of purchase.

(c) Inventory for resale:

Inventory for resale in the bookstore is measured at the lower of cost and net realizable value, determined on a first-in, first-out basis.

(d) Financial instruments:

Financial instruments are classified into two categories: fair value or cost.

(i) Fair value category: Financial instruments, including portfolio investments, that are quoted in an active market and derivative instruments are reflected at fair value as at the reporting date. Any gains, losses or interest expense is recorded in the annual surplus (deficit) depending on the nature of the financial liability that gave rise to the gain, loss or expense; sales and purchases of investments are recorded on the trade date. Transaction costs related to the acquisition of investments are recorded as an expense. Unrealized gains and losses on financial assets are recognized in the Statement of Remeasurement Gains and Losses until such time that the financial asset is derecognized due to disposal or impairment. At the time of de-recognition, the related realized gains and losses are recognized in the Statement of Operations and related balances reversed from the Statement of Remeasurement Gains and Losses. As there are no unrealized gains or losses on portfolio investments as of March 31, 2022 and 2021, a Statement of Remeasurement Gains and Losses has not been presented.

(ii) Cost category: Gains and losses are recognized in the Statement of Operations when the financial asset is derecognized due to disposal or impairment. Sales and purchases of investments are recorded on the trade date. Accounts receivable, portfolio investments not quoted in an active market, accounts payable and accrued liabilities and debt are measured at amortized cost. Transaction costs related to the acquisition of investments are included in the cost of the related investments.

NICOLA VALLEY INSTITUTE OF TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2022

1. Significant accounting policies (continued):

(e) Non-financial assets:

Non financial assets are not available to discharge existing liabilities and are held for use in the provision of services. They have useful lives extending beyond the current year and are not intended for sale in the ordinary course of operations.

(f) Tangible capital assets:

Tangible capital assets are recorded at cost which includes amounts that are directly attributable to acquisition, construction, development or betterment of the asset. Donated assets are recorded at fair value at the date of donation. In unusual circumstances where fair value cannot be reasonably determined, the tangible capital asset would be recognized at nominal value. The cost, less residual value, of the tangible capital assets, excluding land, are amortized on a straight line basis, starting in the month of acquisition, over their estimated useful lives as follows at the following annual rates:

Asset	Rate
Buildings	2 1/2%
Site improvements	10%
Library acquisitions	10%
Mobile instructional equipment	10%
Other non-instructional equipment	10%
Automotive	25%
Office equipment and furniture	10-25%
Computers and software	33 1/3%-50%
Leasehold improvements	33 1/3%-50%

Annual amortization is charged in the year of acquisition and in the year of disposal. Assets under construction are not amortized until the asset is available for productive use. Deferred capital contributions associated with the written down capital asset are recognized as revenue if all restrictions have been complied with.

Tangible capital assets are written down to net realizable value when conditions indicate that they no longer contribute to the Institute's ability to provide goods and services, or when the value of future economic benefits associated with the tangible capital assets are less than their net book value.

Works of art and cultural and historic assets are not recorded as assets in these financial statements.

NICOLA VALLEY INSTITUTE OF TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2022

1. Significant accounting policies (continued):

(g) Employee future benefits:

- i) The Institute and its employees make contributions to College Pension Plan and Municipal Pension Plan which are multi-employer joint trustee plans. These plans are defined benefit plans, providing a pension on retirement based on the member's age at retirement, length of service and highest earnings averaged over five years. Inflation adjustments are contingent upon available funding. As the assets and liabilities of the plans are not segregated by institution, the plans are accounted for as a defined contribution plan and any contributions of Institute to the plan are expensed as incurred.
- ii) Prior to April 1, 2002, employees accrued sick leave benefits, with a change in benefits on that date a sick leave bank was created for employees who still had an accumulation of hours. The costs of these benefits are actuarially determined based on service and best estimates and the obligation under this benefit plan is accrued based on projected benefit utilization.

(h) Revenue recognition:

Tuition and student fees and sales of goods and services are reported as revenue at the time the services are provided or the products are delivered, and collection is reasonably assured.

Unrestricted donations and grants are recorded as revenue when payment is received by the Institute.

Restricted donations and grants are reported as revenue depending on the nature of the restrictions on the use of the funds by the contributors as follows:

- (i) Contributions for the purpose of acquiring or developing a depreciable tangible capital asset or in the form of a depreciable tangible capital asset, in each case for use in providing services are recorded and referred to as deferred capital contributions and recognized in revenue at the same rate that amortization of the tangible capital asset is recorded. The reduction of the deferred capital contributions and the recognition of the revenue are accounted for in the fiscal period during which the tangible capital asset is used to provide services.
- (ii) Contributions restricted for specific purposes other than for those to be held in perpetuity or the acquisition or development of a depreciable tangible capital asset are recorded as deferred contributions and recognized in revenue in the year in which the stipulation or restriction on the contribution have been met.

NICOLA VALLEY INSTITUTE OF TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2022

1. Significant accounting policies (continued):

(h) Revenue recognition (continued):

(iii) Contributions restricted to be retained in perpetuity, allowing only the investment income earned thereon to be spent are recorded as external endowment donations on the statement of operations for the portion to be held in perpetuity and as deferred contributions for the investment income earned thereon.

(iv) Investment income includes interest recorded on an accrual basis and dividends recorded as declared, realized gains and losses on the sale of investments, and write-downs on investments where the loss in value is determined to be other-than-temporary.

(i) Deferred revenue:

Deferred revenue includes grants, contributions and other amounts received from third parties pursuant to legislation, regulation and agreement which may only be used in certain programs, in the completion of specific work, or for the purchase of tangible capital assets. In addition, certain user charges and fees are collected for which the related services have yet to be performed. Revenue is recognized in the period when the related expenses are incurred, services performed, or the tangible capital assets are acquired if the contributions were not specifically restricted for capital.

(j) Use of estimates:

The preparation of the financial statements requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets, liabilities, and related disclosures and the reported amounts of revenue and expenses. Where actual results differ from these estimates and assumptions, the impact will be recorded in future periods when the difference becomes known.

(k) Segmented information:

A segment is defined as a distinguishable activity or group of activities for which it is appropriate to separately report financial information. The Institute has provided definitions of segments used by the Institute as well as presented financial information in segmented format in note 15.

(l) Budget figures:

Budget figures have been provided for comparative purposes and have been derived from the annual budget approved by the Board of Governors on April 20, 2021. The budget is reflected in the Statement of Operations and Accumulated Surplus and the Statement of Changes in Net Debt.

NICOLA VALLEY INSTITUTE OF TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2022

2. Accounts receivable:

	2022	2021
Trade	\$ 1,021,445	\$ 1,251,194
Government entities	2,354,870	23,268
Commodity taxes recoverable	50,374	48,617
Other	305,860	284,727
	<u>\$ 3,732,549</u>	<u>\$ 1,607,806</u>

3. Portfolio investments:

	2022	2021
Portfolio investments:		
Guaranteed investment certificates maturing August 24, 2022 with interest rate of 1.15%	\$ 400,951	\$ 105,195

Financial instruments measured at fair value held within each investment are classified according to a hierarchy which includes three levels, reflecting the reliability of the inputs involved in the fair value determination. The different levels are defined as follows:

- (i) Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- (ii) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- (iii) Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

The Institute's portfolio investments are all considered to be level 1 financial instruments for which the fair value is determined based on quoted prices in active markets. Changes in fair valuation methods or in the availability of market observable inputs may result in a transfer between levels. During the year there were no significant transfers of securities between the different levels.

NICOLA VALLEY INSTITUTE OF TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2022

4. Accounts payable and accrued liabilities:

	2022	2021
Operating expenses and accruals	\$ 284,058	\$ 820,794
Salaries and benefits payable	435,474	501,390
Other	427,998	401,385
	<u>\$ 1,147,530</u>	<u>\$ 1,723,569</u>

5. Deferred revenue:

	2022	2021
Tuition	\$ 159,251	\$ 173,349
Grants and contributions	10,320,966	8,833,926
Rent	14,925	3,238
	<u>\$ 10,495,142</u>	<u>\$ 9,010,513</u>

Continuity of deferred revenue is as follows:

	2022	2021
Balance, beginning of year:		
Tuition	\$ 173,349	\$ 116,724
Grants and contributions	8,833,926	8,908,136
Rent	3,238	6,763
	<u>9,010,513</u>	<u>9,031,623</u>
Receipts:		
Tuition	1,061,155	822,327
Grants and contributions	8,007,395	10,081,155
Rent	285,797	219,317
	<u>9,354,347</u>	<u>11,122,799</u>
Amount recorded as revenue	7,869,718	11,143,909
Balance, end of year	<u>\$ 10,495,142</u>	<u>\$ 9,010,513</u>

NICOLA VALLEY INSTITUTE OF TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2022

6. Debt:

	2022	2021
Ministry of Finance Provincial Treasury loan, at 0.23% (2021 - 0.23%), with \$2,700,000 repayable, including interest, on July 31, 2022.	\$ 2,697,950	\$ 2,697,801

7. Deferred capital contributions:

	2022	2021
Balance, beginning of year	\$ 22,821,062	\$ 22,805,789
Contributions received	4,321,899	1,344,087
Recognition of deferred capital contributions	(1,494,130)	(1,328,814)
	\$ 25,648,831	\$ 22,821,062

The Institute has \$1,868,344 (2021 - \$1,868,344) in unspent deferred capital contributions

(a) Assets under construction:

The Institute had \$1,831,022 (2021 - \$1,080,720) in assets under construction at March 31, 2022. Amortization of assets under construction commences when the asset is put into service.

NICOLA VALLEY INSTITUTE OF TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2022

9. Endowments:

Endowments included as part of accumulated surplus is as follows:

	Principal	Accumulated Investment	2022	2021
Balance, beginning of year	\$ 105,511	\$ 7,209	\$ 112,720	\$ 110,750
Interest earned	-	1,644	1,644	2,330
Use of endowment funds	-	(4,500)	(4,500)	(360)
Balance, end of year	\$ 105,511	\$ 4,353	\$ 109,864	\$ 112,720

Endowment investments of \$105,511 (2021 - \$105,511) consist of Central Deposit Program deposits earning interest at bank prime minus 0.97% (2022 - 1.20%, 2021 - 0.95%) and GIC's earning interest at 1.15% (2021 - 2.29%). Accumulated investment income is included in cash and cash equivalents.

10. Financial risk management:

The Institute has exposure to the following risks from its use of financial instruments: credit risk, market risk and liquidity risk.

The Board of Governors ensures that the Institute has identified its major risks and ensures that management monitors and controls them.

(a) Credit risk:

Credit risk is the risk of financial loss to the Institute if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Such risks arise principally from certain financial assets held by the Institute consisting of cash, portfolio investments, and accounts receivable. Unless otherwise disclosed in these financial statements, the Institute is not subject to significant credit risk associated with its financial instruments. The maximum credit risk for the Institute's financial assets is the carrying value of the assets.

NICOLA VALLEY INSTITUTE OF TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2022

10. Financial risk management (continued):

(b) Market and interest rate risk:

Market risk is the risk that changes in market prices, such as interest rates, will affect the Institute's income. The objective of market risk management is to control market risk exposures within acceptable parameters while optimizing the return on risk. Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. It is management's opinion that the Institute is not exposed to significant market or interest rate risk arising from its financial instruments.

(c) Liquidity risk:

Liquidity risk is the risk that the Institute will not be able to meet its financial obligations as they become due. The Institute manages liquidity risk by continually monitoring actual and forecasted cash flows from operations and anticipated investing and financing activities to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Institute's reputation. The Institute's accounts payable and accrued liabilities and debt, as at March 31, 2022 are all due within the Institute's 2023 fiscal year.

11. Accumulated surplus:

Accumulated surplus consists of individual fund surplus and reserves and reserve funds as follows:

	2022	2021
Operating fund:		
Unrestricted surplus	\$ 4,563,475	\$ 4,026,858
Restricted	659,255	650,973
Equity in tangible capital assets	2,425,697	2,665,861
	<u>7,648,427</u>	<u>7,343,692</u>
Reserves set aside for operating purposes:		
Self funded building maintenance	219,878	219,878
Endowments (note 9)	109,864	112,720
	<u>\$ 7,978,169</u>	<u>\$ 7,676,290</u>

NICOLA VALLEY INSTITUTE OF TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2022

12. Employee future benefits:

The Institute and its employees contribute to the College Pension Plan and Municipal Pension Plan (jointly trustee pension plans). The boards of trustees for these plans, representing plan members and employers, are responsible for administering the pension plans, including investing assets and administering benefits. The plans are multi-employer defined benefit pension plans. Basic pension benefits are based on a formula. As at December 31, 2021, the College Pension Plan has about 16,722 active members, and approximately 9,463 retired members. As at December 31, 2020, the Municipal Pension Plan has about 220,321 active members, and approximately 111,551 retired members.

Every three years, an actuarial valuation is performed to assess the financial position of the plans and adequacy of plan funding. The actuary determines an appropriate combined employer and member contribution rate to fund the plans. The actuary's calculated contribution rate is based on the entry-age normal cost method, which produces the long-term rate of member and employer contributions sufficient to provide benefits for average future entrants to the plans. This rate may be adjusted for the amortization of any actuarial funding surplus and will be adjusted for the amortization of any unfunded actuarial liability.

The most recent actuarial valuation for the College Pension Plan as at August 31, 2018, indicated a \$303 million surplus for basic pension benefits on a going concern basis. The 2018 surplus is the net result of a number of items, the most significant items being higher than assumed investment returns and lower than assumed salary increases, partially offset by the excess investment return transfers from the Basic Account to the IAA.

The most recent actuarial valuation for the Municipal Pension Plan as at December 31, 2018, indicated a \$2,866 million funding surplus for basic pension benefits on a going concern basis. Although the 2018 basic account actuarial valuation is a surplus, it is not large enough to complete the transition provisions of the Joint Trust Agreement. The required Basic contribution rate is therefore equal to the current rate of 18.46% (integrated) of salaries. This exceeds the PBSA minimum required contribution rate.

The Institute paid \$730,011 for employer contributions to the plans in fiscal 2022 (2021 – \$685,007).

The next valuation for the College Pension Plan will be as at August 31, 2021, with results available later in 2022. The next valuation for the Municipal Pension Plan will be December 31, 2021, with results available in fall 2022.

Employers participating in the plans record their pension expense as the amount of employer contributions made during the fiscal year (defined contribution pension plan accounting). This is because the plans record accrued liabilities and accrued assets for each plan in aggregate, resulting in no consistent and reliable basis for allocating the obligation, assets and cost to individual employers participating in the plans.

15. Segmented information:

Segmented information has been identified based upon lines of service provided by the Institute. The Institute services are provided by departments and their activities are reported by functional area in the body of the financial statements. Certain lines of service that have been separately disclosed in the segmented information, along with the services they provide, are as follows:

(a) Instruction and instructional support:

Instruction and instructional support includes all expenses related to the business of delivering education. This includes all direct and indirect expenses for instruction, support, and administration excluding ancillary operations.

(b) Ancillary operations:

Ancillary operations includes all expenses related to the bookstore, residence and cafeteria.

(c) Capital:

Reflects the Institute's receipts and disbursements for the acquisition of tangible capital assets.

The accounting policies used in these segments are consistent with those followed in the preparation of the financial statements as disclosed in note 1.

NICOLA VALLEY INSTITUTE OF TECHNOLOGY

Notes to Financial Statements (continued)

Year ended March 31, 2022

16. Related party transactions:

The Institute is related through common control to all Province of British Columbia ministries, agencies, school districts, health authorities, colleges, universities, and crown corporations. Transactions with these related parties, unless disclosed otherwise, are considered to be in the normal course of operations and are recorded at their exchange amounts, which is the amount of consideration established and agreed to between the Institute and the related parties.

17. Contingent liabilities:

The Institute may, from time to time, be involved in legal proceedings, claims and litigation that arise in the normal course of operations. At this time, any claims or potential claims against the Institute would not materially affect the financial statements of the Institute.

18. COVID-19 pandemic:

On March 2020, the World Health Organization (WHO) declared the Coronavirus COVID-19 (COVID-19) outbreak a pandemic. This has resulted in governments worldwide, including the Canadian and British Columbia governments, enacting emergency measures to combat the spread of the virus. These measures, which include social distancing, the implementation of travel bans and closures of non-essential businesses, have caused material disruption to businesses globally and in British Columbia. The situation is dynamic and the ultimate duration and magnitude of the impact on the economy and the financial effect on the Institute's future operating results is not known at this time.
