

BC Ideas Exchange Webinar featuring Cascadia Seaweed

www.weareseaweed.com

Who we are:

- We are farmers, innovators and product developers, and aim to be the largest provider of cultivated seaweed in North America. We are scaling-up quickly.
- Incorporated in June, 2019.
- We are a vertically integrated company producing seed through packaged food products.
- Through the cultivation of seaweed we will help revitalize human health, improve coastal communities and heal the earth.

Highlights:

- Learned about the program from an early investor.
- Successfully raised \$500,000 in the fall of 2019, most of which qualified for the program.
- Leveraged this capital to raise another \$470,000 in non-dilutive funding.
- Second fundraising round is open now, utilizing this program.

Hi Michael,

Please see the attached registration letter for CASCADIA SEAWEED CORP as an eligible business corporation (EBC).

At this time, please obtain a BCeID for use with our electronic reporting system (the eTCA system). I've attached instructions on how to obtain a BCeID.

Once you have done so, please let me know and I will provide you with your access coordinates for use with our eTCA system.

Regards,

DAVID BALESHTA | Portfolio Manager

Lessons learned:

- Follow through, do what you say you're going to do.
- Pick up the phone
- Challenge assumptions
- Government support is available, you just have to look for it.
