Learn About:

Property close to major B.C. highways and roadways make for prime commercial real estate and economic development. If the property meets certain conditions, however, such as being within 800m of an intersection on a controlled access highway - some additional approvals are required from the Ministry of Transportation and Infrastructure (MoTI). In this webinar, Senior District Development Technician Ryan Evanoff will guide you through the approval process to make sure your future development projects go as smoothly as possible. Avoid costly construction delays and learn the ins and outs of MoTI approvals!

About the Series:

This webinar series offers an opportunity to learn from your peers while sharing ideas and practices of engaging your community or business within British Columbia's economic sectors.

Webinars are free and open to all.
